

### 40 County Farmers Hear AAA Official At Bureau Meeting

#### Increased Crops of Peanuts And Soybeans for Oil Are Urged

Forty Washington County farmers heard Tom Scott, state chairman of the Agricultural Adjustment Administration, appeal to them to grow soybeans and peanuts for oil during 1942 as an aid to the war effort, at a meeting of the Farm Bureau held in the Agriculture Building here last Tuesday night.

Mr. Scott discussed the prices that farmers will be paid for these products and urged the farmers to do their bit by engaging in the effort to win the war. He stated that oil is a very essential product during this age and that it is very necessary that all oil-producing crops be grown.

J. Roy Manning, president of the county Farm Bureau, appealed to the farmers to organize 100 per cent in this county and throughout the country, and he contended that if the farmers were properly organized and cooperated they could wield an influence on Congress and the nation in general that would prevent the slump in prices of products and farm land which followed the first World War.

County Agent W. V. Hays spoke briefly of the value of the Farm Bureau and urged those present to plant soybeans and peanuts for oil.

### County Growers of Tobacco May Vote On Grading Service

#### Referendum Will Be Held May 25-28; Method of Voting Explained

Washington County tobacco growers will have an opportunity to vote in the referendum announced by the Agricultural Marketing Administration to be held from Monday, May 25, through Thursday, May 28, in flue-cured tobacco markets in this section to determine whether the markets shall be designated for free and mandatory inspection of all tobacco passing over the auction sales floor.

The referendum will cover the following markets in Eastern North Carolina: Ahoskie, Kinston, Louisburg, Rocky Mount, Washington and Wilson. Twenty-six flue-cured markets in Virginia, North Carolina, South Carolina, Georgia and Florida, have already been designated. If two thirds of the growers voting approve tobacco inspection, the markets named above will be designated for free and mandatory inspection service. The service will be inaugurated thereon as rapidly as conditions permit and tobacco will be graded at no cost to the grower.

Under the tobacco inspection act, all growers who sold at auction on those markets last year are eligible to vote. Ballots will be mailed to growers who patronized these markets last year insofar as their names and addresses are known. Growers who do not receive ballots by mail may get them from their county agent or from the office of the county Agricultural Conservation Association.

Growers who patronize markets on which the inspection service is conducted have access to a daily market report showing average prices by grade. With grades plainly indicated on each lot and price reports for the previous day's sales on each grade, growers have a reliable guide for use in accepting or rejecting bids offered. This inspection and market news service is free to growers.
