

Inflow of Foreign Unskilled Labor Is Vital to Growth of American Industry

By FRANK J. WARNE
Special Expert of Census Bureau on Foreign-Born Population

Conspicuous among the things we have learned in the last two years as to the economics of immigration is the legitimate and varying demand for unskilled labor which our native population does not supply. It is very important to society that it secure the labor necessary to excavate for subways, tunnels, reservoirs, skyscrapers, railways and similar large construction enterprises. It is equally important that producers and manufacturers secure the unskilled labor essential to the conduct of industry. It is also important to the employment of our native skilled labor.

As our own domestic markets do not supply this unskilled labor in sufficient volume to meet the requirements, this supply for years has been coming through immigration. It must continue to come from this source. To shut it off, to restrict it to far below the healthy economic demand, is to bring about social injury, just as permitting it to come in such large volume as to flood our industries with an oversupply.

Uric Acid!
Ever since the discovery of Scheele in 1775 that uric acid was found within the body—most eminent physicians agree that rheumatism is caused by it; also many distressing symptoms as headache, pain in back, stomach distress, swollen feet and ankles, gout, etc.
It was Dr. Pierce of the Invalids' Hotel, Buffalo, N.Y., who discovered a new agent—called Anuric, a harmless remedy that if taken before meals will carry off in the uric acid from the system and in this way the pains and aches, the creaky joints and all the distressing symptoms of rheumatism and other maladies disappear. You can easily prove this yourself, by obtaining Anuric at almost any drug store, or send Dr. Pierce 10c. for trial package. Try it and be convinced that Anuric is many times more active than lithia and eliminates uric acid as hot water melts sugar.

Good Resulting From War.
"Carlyle has said somewhere that civilization rides on a gun carriage. So does the genius of public health. The Spanish war initiated, through its medical officers, another war—the one with yellow fever. The battle against typhoid was waged more vigorously and systematically in the American army than anywhere else. The building of the Panama canal, largely for naval purposes, completed the conquest of both yellow fever and typhoid. The number of lives which have been and will be saved by these two victories of science undoubtedly exceeds many times all the losses of the present war."

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR
Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.
Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.
Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.
But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any store and just try it. Adv.

64TH CONGRESS IS DRAWING NEAR END

LEADERS ARE BENDING EVERY EFFORT TO GET BIG LEGISLATION THROUGH.

DO NOT WISH EXTRA SESSION

All Else Must Give Way to Appropriations and Measures Relating to National Defense.—To Hasten Action.

Washington.—With the end of the Sixty-fourth Congress but two weeks off, Administration leaders are concentrating their energies to the enactment of revenue and national defense legislation. Much long-pending general legislation every one recognizes must give way to appropriations and measures that relate to the preparations of the Nation for eventualities which may grow out of the diplomatic breach with Germany.

In the Senate the revenue and naval bills are to be given the right of way as soon as the espionage and anti-conspiracy bill, now under consideration, is out of the way. The House will pass the Army appropriation within a few days, and then devote its attention to the sundry civil and general deficiency appropriations. What emergency legislation may be enacted before adjournment depends entirely upon the decision of the President. Many believe he will communicate within a few days his plans for handling the international crisis. Prevailing opinion is that he will ask Congress for authority to use the armed forces of the Nation for the protection of American seamen and American rights on the high seas, not with the purpose of making war, but to open the sea to shipping.

To Hasten Action.

While waiting the next step, what ever it may be, the Senate is determined to hasten action on the revenue bill, the naval appropriation bill amended by the naval affairs committee to carry \$533,000,000, an increase of \$165,000,000 over the House bill, and the Army appropriation bill. In addition to these measures, the shipping bill, urged by the shipping board, extending the powers of the Government to control commercial shipping, is of paramount interest.

Whether there will be time for passage of railroad labor legislation and other general bills, in view of the congestion of essential measures, is seriously doubted by leaders of both parties. It has been determined to proceed with the most urgent matters regardless of the possibility of an extra session, and there is confidence that all the appropriation measures except possibly the rivers and harbors bill, can be enacted by March 4.

ALL NATIONAL GUARDSMEN ORDERED TO QUIT BORDER

Southern Boundary Patrol Will Be Left to Regulars.
Washington.—Orders were issued by the war department directing General Funston to begin the immediate demobilization of all the guard units remaining in border camps, and it is expected that the last troop train will be on its way north by March 7.
General Funston will have on the border nearly 50,000 regular troops disposed along the line from Brownsville to Yuma, Ariz., on plans worked out by the general staff.

Secretary Baker emphasized that the withdrawal of the state troops is in no way connected with the crisis with Germany, but carries out a policy determined to long ago. The order was issued after General Funston had reported that he had enough regulars to meet any border exigencies that might arise. Many guard units already had been ordered home during the past few weeks, and the number of guardsmen remaining and to be demobilized under the order is about 52,000.

Administration officials are understood to have been convinced by the reports of special observers for the state department and the army that there is little possibility of a recurrence of serious raids.
AMBASSADOR FLETCHER NOW IN MEXICO CITY.

Mexico City.—The American Ambassador Henry P. Fletcher, arrived here. He was met by officials from the Mexican Foreign Office, members of General Carranza's staff and a big delegation of Government officials headed by a military escort. Ambassador Fletcher expressed his appreciation of the courtesies shown him on his journey through Mexico.

DESTINATIONS OF SHIPS ARE TO BE KEPT SECRET.

Washington.—The practice of making public the destinations and manifests of merchant ships leaving American ports is to be discontinued during the crisis with Germany as a step in the protection of American interests from the German submarine campaign. No word as to the port for which any vessel sails or the cargo she carried will be made public by the Government if officials who grant clearance.

Will Be Notable Eclipse.
The solar eclipse of June 8, 1918, with a total phase of a minute and a half, will be notable on account of its long path over a region favorable for observation. Striking the earth off the coast of Japan, the moon's shadow will arrive at Columbia river, Washington, at 2:55 p. m. Pacific time, and will cross to the Atlantic in a southeasterly direction in 47 minutes, leaving the coast of Florida at 6:42 eastern time, and vanishing 400 miles at sea three minutes later. A map prepared by Washington college observatory shows about 85 important towns on the direct route. Prof. E. Pett points out that by co-operation a supposed discovery may be telegraphed ahead for verification.

SUFFERED SEVERELY EVERY MONTH

Lady Tells What Cardui Did for Her and What It Will Do for Suffering Women.

Deepwater, Texas.—"I think Cardui is indeed a wonderful medicine," says Mrs. Minnie Starnes, of this town. "In 1905, I broke down in health suddenly. I suffered agony. Had bearing down pains. . . also my back and limbs and hips. . . Sometimes I was in bed all the time and again I was just able to be up. I suffered most severely at. . . and would be confined to my bed four or five days.
"Nothing I did ever did me any good until I took Cardui, but I suffered two years this way before I took Cardui. One day my husband. . . saw the Cardui advertisement. He got me a bottle, I began taking it and next month I never felt any pain at all, did all my work without any trouble. . ."
Mrs. Starnes says she did not take any more Cardui then until 1908, when she took four bottles, with excellent results. She concludes her statement with the following: "I would advise all expectant mothers to give Cardui a trial. It will relieve all anxiety and fear as is natural for them to have. I know, for I had the experience myself."
Judging from the experiences of so many thousands of other women, you can depend on Cardui to surely help you, if you suffer from any of the complaints so common to women.
