

# The Greatest Men in Transylvania County!

Who Are They? Have You Ever Asked Yourself This Question?

This is an enviable position to hold among your fellow men. We are not going to mention names but will only give you a strong hint.

Look about you, think it over and those you have in mind will either be home or property owners. There isn't much to the grown man who hasn't laid up for a rainy day or built a home.

The most loyal citizens, those who love the community best, are the property owning ones. They didn't lay it all up at once. They did it regularly, systematically, a little from week to week or from month to month. Their savings regularly increased until now they are worth thousands.

## You Can Also Become Great

Our 17th series of Building and Loan will open next Saturday, the 17th of March, and we would like to see you take a few shares and pay 25 cents a week for each share. This would mean a great thing for you. It would give you a better standing and establish confidence in you should you ever reach the point of wanting financial aid. It would place you in a position whereby we could help you to build a snug little home of your own, just as we have helped about 100 others in this county.

Your judgment no doubt tells you this is a good thing. Then, why not obey it and start on the right road next Saturday?

If there is anything you don't fully understand about Building and Loan, come in and let us talk it over with you.

**Brevard Building and Loan Association**  
A. M. VERDERY, JR., Secretary and Treasurer

### R. H. ZACHARY BUILDS HANDSOME RESIDENCE

Continued from page one.

large lawn with an abundance of shade trees. The location is approached by a winding road leading from the Brevard-Hendersonville highway through a lane fringed by apple trees—the choice varieties of an orchard containing 520 fine fruit trees. Considerable work has been done on the road so as to establish an easy grade and to make a good bed.

The edifice that adorns the summit of the hillside is one of substantial construction, being of brick with stone foundation. It contains thirteen rooms besides numerous closets, bath room, etc. Two open fire places have been provided, also two grates and four heaters. Provisions have been made for installing a hot water heating plant. There are three floors and a basement to the building, which has five pairs of steps to the various approaches with ample porch space around the greater part of the building on the main floor and with an upper porch on one front.

No material has been omitted in making the building substantial in every way, 75,000 brick, 548 lineal feet of cement, 85 cubic yards of rock work (including work on yard), and 34,000 feet of lumber from Mr. Zachary's mill in Wrights ville, Ga., having been used. The roof is covered with 44 squares of No. 1 slate. Two of the five pairs of steps are made of cement and the rock foundation is sixteen inches thick.

Considering this building as possibly the nicest residence in or near Brevard excepting that being constructed by J. S. Silverstein, a News reporter asked Mr. Zachary if he had objections to stating the estimated cost of the building and improvements and he answered by telling a story of his father's experience which ran something like this:

"My father, who had a big family, was conducting a store when he decided to run the household affairs on a business basis by keeping account of all items of household expense. He kept an itemized account for one month and discontinued and when asked his reason for discontinuance replied, 'the results of one month's counting convinced me that a year at the same rate would break me up.'"

But Mr. Zachary hopes to be able to move into his new home in early summer and when he does he will know every item of cost entailed in the erection of a fine home which will overlook his valuable 80-acre farm, which touches the city limits and which is one of the finest for the size in the county.

Mr. Zachary came into possession of this property about three years ago and during this time has been improving it. He gives his orchard and farm scientific attention and now has fruit kept over from last summer. He sprays his orchard, which is in good shape and which grows choice wormless fruits.

### PROGRESS MADE ON TANNERY BUILDINGS

Mr. Dworetzky Arrives From New York and Looks Over Building Operations of New Plant and the Rosman Tannery.

M. Dworetzky, of New York, president of the Toxaway Tanning company of Rosman and vice president of the Transylvania Tanning company of Brevard, the plant of the latter now being under construction, spent a few days in Brevard and Rosman during the past week with his son, Nathan Dworetzky, at Rosman, meanwhile conferring with Jos. S. Silverstein, manager of these plants.

Mr. Dworetzky found that despite unfavorable weather conditions considerable progress had been made with the building operations for the plant in Brevard. The frame work of the beam house or main building, 70x683 feet with concrete foundation, is going up as well as the bark-shed and the foundation, for a 150-foot brick smoke-stack has been laid. The office building will probably be finished within the next ten days. Building operations will be pushed to completion as rapidly as weather conditions will permit so as to prepare for the early operation of the plant.

### REV. MCCALL AT ENON

G. T. Lyday informs the News that Rev. Osborne McCall will preach at the Enon church on Sunday, Mar. 18, at 11 o'clock.

Enon is now without a pastor. Rev. W. E. Barker recently resigned the pastorate.

New or renewal subscriptions (beginning January 1) will cost \$1.00 for one year, 60 cents 6 months, 35 cents 3 months, 25 cents for 2 months.

#### Bills of Fare For the Children's Home Lunch

Eggs—boiled, coddled, poached or scrambled—bread and butter, spinach or other greens, cake.

Beef stew with vegetables, milk; crisp, thin tea biscuits, honey.

Dried bean or pea puree, toast, baked apple, cookies.

Vegetable milk soup, zucchini, rice with maple sugar and butter or with milk or cream.

Potato chowder, crackers, jelly sandwiches.

Cold meat, creamed potatoes, peas, bread and butter, frozen custard or plain ice cream and plain cake.

Lamb chop, baked potatoes, bread and butter, sliced mixed fruits, cookies.

Baked omelet with spinach, kale or other greens, bread and butter, apple sauce, cake.

Milk toast, string beans, stewed fruit, cake.

Boiled potatoes, codfish gravy, bread and butter, lettuce, custard.

#### Home Cookery

Apple Sponge.  
Half a cupful of sugar, half a cupful of milk, two eggs, one and a half cupfuls of flour, two teaspoonfuls of baking powder, half a teaspoonful of salt, five sliced apples. Beat eggs, add sugar, flour in which baking powder has been sifted and milk. Beat well, add apples, pour into buttered baking dish, bake in moderate oven one hour and serve with sugar and cream.

Cold Meat With Pea Salad.  
Slice some cold chicken or lamb in equal sized slices and trim carefully. Place these, overlapping each other, on a chilled platter, and around the meat put crisp white lettuce hearts filled with cold cooked peas mixed with plenty of mayonnaise dressing.

Gooseberry Ketchup.  
Cook the gooseberries in a little water until soft. Press through a colander to remove the skins and then through a sieve to remove the seeds. Add two-thirds as much sugar as fruit, and cinnamon and cloves to taste. Cook slowly a half hour and bottle hot.

#### A NEW SUIT COSTS FROM \$10 to \$50

Your old suit can be cleaned, pressed, repaired and made to look almost as good as new for 50 cents; \$1.00 a month for four suits.

City Pressing Club  
J. E. WATERS, Prop.

# BREVARD Hardware Co.

\$1,500 worth of New Fertilizers and Guanos just arrived.

Fertilizers will be no higher this year than they were last year.

We have a full supply of 16% Acid.

8% Acid, 2% Ammonia, 2% Potash for corn, grain, etc.

8% Acid, 3% Ammonia, 3% Potash for the garden, potatoes, etc.

Send in your orders today. Will sell either for cash or on time.

If on time all we want is a note the Bank will take or a good mortgage (not on the crop).

It will be well to place your orders early as the companies have agreed only to ship so long as they have the Potash. Don't wait.
