THURSDAY APRIL 5 IS PLANTING DAY

GOVERNOR BICKETT ISSUES PROCLAMATION CALLING UPON ITS OBSERVANCE.

DISPATCHES FROM RALEIGH

Doings and Happenings That Mark the Progress of North Carolina People, Gathered Around the State Capital.

Raleigh.

In proclamation issued by Governor T. W. Bickett set aside Thursday, April 5, as Planting Day, calling upon mayors of towns, organized farmers, landlords, merchants, and bankers to emphasize on this day the need of more garden products in the face of the high cost of living, and the approaching boll weevil.

His proclamation reads: "Our forefathers established the noble custom of setting apart a day in autumn on which to return thanks to the Lord of the harvest for having blessed them with the 'kindly fruits of the earth.'"

"A true interpretation of the Thanksgiving spirit comprehends all reasonable efforts on our part to insure celestial bounty. The conditions which now confront us appeal for activity on our part with peculiar and compelling power.

"The world war has drawn to the battle line millions of those who in times of peace 'went forth to sow.' China and the United States are about to swell the legions who fight and must be fed.

"From the South the boll weevil is marching on North Carolina. Full cribs and smokehouses are the sure and safe defense against the coming of this pest. In every state the destruction of cotton by the boll weevil has been followed by a paralysis of the farmers' credit. Being forewarned of the steady advance of this enemy and the certain consequence of its attack, it will be colossal stupidity to fail to meet it with the only weapons that have proved effective, to wit, broad acres of grains and grasses.

"The amended crop lien law was framed to give to that small farmer a decent chance to escape from a credit system that levies upon the right to live and labor the heaviest tribute imposed upon a helpless people since Augustus Caesar issued his decree that all the world should be taxed. But the farmer who fails to increase his food and feed crops will deny to himself and family the blessings of the law. The merchant will properly refuse to make unlimited advances under the new law. Long profits will no longer tempt him to make long chances. He will wisely and justly insist that the farmer must produce his own meat and meal and when he has done this he will find no difficulty in obtaining other necessary supplies.

"All these things made a substantial increase in our food and feed crops essential to our self-preservation.

"Now, therefore, I, Thomas Walter Bickett, Governor of North Carolina, do hereby designate and set apart Thursday, the 5th day of April, 1917, as Planting Day, and on that day I earnestly urge

"All mayors of incorporated towns to call the people together and devise and put into execution practical ways and means of having every vacant lot in and adjacent to the towns planted to grain or grass, peas or potatoes.

"All farmers' organizations of every kind to meet and counsel their members to heavily increase their food and feed crops this year.

"All landlords to insist that their tenants shall plant food and feed crops ample for the sustenance of their families and their live stock.

"All merchants and bankers to counsel their customers who are engaged in farming to increase the acreage planted to food and food crops to such an extent that it will be unnecessary for them to purchase any food supplies next year.

"The times are troublous. No man can say what an hour may bring forth, but if we shall act with prudence and diligence the 'meal will waste not, nor will the oil fall.'"

May Choose Two Camp Sites.

It is stated at North Carolina National Guard headquarters that in the event the First Regiment should be recalled to arms in the present war crisis, the camp grounds at both Charlotte and Greensboro will be used, one of them for the encampment of the infantry troops and the other for the encamping the separate units

452 Tractors Used in N. C.

Washington—To secure data as to the number of gasoline and kerosene tractors to be in actual use on farms during the coming season, the Office of Farm Management addressed in February, 1917, inquiries to 32,000 selected correspondents. They were asked to report all tractors which were to be actually used. Steam-driven tractors and all others used for work other than farming were to be excluded. There are in all 34,371 of these are in North Carolina.

REGULATIONS FOR PISGAH RESERVE

Rules for Fishing and Camping Published by Forest Service; No Hunting for Game Animals.

(From Asheville Times.)

On the same day that elk are being taken to the Pisgah National Game preserve, regulations for hunting and fishing and camping in the preserve are being distributed from the office of Verne Rhoades, forest supervisor. No hunting is allowed except for predatory animals, but those who delight to throw the fly for trout in the mountain streams will welcome the publication of rules governing this sport.

Permits will not be issued for more than four days to any one person and a charge of \$1 a day has been fixed for this privilege by the secretary of agriculture. The secretary has prescribed for the season of 1917 2,000 fishing days, with the provision that prior to July 1 permits shall be issued for not more than 1,500 days.

The streams in this national forest are already an angler's paradise and the government's care in protecting fish, elk, buffalo and other game on the boundary assure game lovers that in time the adjacent forests will be restocked with game large and small. In the forestor's office many applications for fishing have already been received.

The regulations for fishing are as follows:

Fishing Regulations.

"Sec. 1. No permit will be issued authorizing fishing, or catching, trapping, or killing fish, except as expressly provided for in and in conformity with the terms fixed by, this regulation.

"Sec. 2. Fishing will be permitted only with unbaited artificial fly hook.

"Sec. 3. Fishing for brook trout will be permitted only during the season May 15 to September 1, and for other fish during the season May 15 to October 1.

"Sec. 4. Brook trout under 6 and rainbow trout under 8 inches in length shall be returned immediately to the water with the least possible injury to the fish.

"Sec. 5. No permittee shall catch more than 15 fish in any one day, or fish between the hours of 8 p. m. and 5 a. m., or in or on any portion of a stream closed to fishing. No fish taken under permit shall be sold or otherwise disposed of for commercial purposes.

"Sec. 6. No permittee will be allowed more than four days' fishing in any one season.

"Sec. 7. The forester may from time to time close to fishing any stream or part thereof.

"Sec. 8. The secretary of agriculture will prescribe the total number of days of fishing that may be allowed under permit for each calendar year, and the number of permits issued and the periods specified will be regulated accordingly."

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cannot Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—Advertisement.

FOLKS aren't spending the hot summer putting up preserves and jellies as they once did. Times have changed. Now preserves and jellies are prepared so well by big concerns that the woman who still insists on stewing in the stifling kitchen is rare indeed. Like everything else in this grocery store, our jellies and preserves are wholesome.
