Girl Debaters From Mount Olive Are Defeated By Boy Team in Hot Contest.

Chapel Hill.—Before an audience that taxed the capacity of Memorial Hall. Waynesville high school represented by Vinson Smathers and Roy Francis, defeated the brilliant debaters from Mount Olive high school, Misses Gladys Andrews and Emma Lindsay. The debate came as the culmination of one of the most interesting and closely contested events in the history and high school debating in the state. The judges were Profes sors H. H. Williams, L. P. McGhee, Edwin Greenlaw, H. M. Wagstaff and W. S. Barnard. The Aycock trophy cup was presented the winners by Mr R. O. Everett of Durham.

The debaters, led by President Graham, Mr. E. R. Rankin and Mr. R. O Everett, marched to the stage amid a volume of cheers. The youthful debaters showed a surprising mastery of the subject matter and in the rebuttals especially manifested a mastery of the technique of formal argument. This is the second time that a team of boys has debated with a team of girls and the first time the boys have won Both schools had the honor of having both teams come through the preliminaries, only one other school, Pleasant Garden, attaining this honor.

Introducing the speakers of the evening. President Graham declared the high school debate to be the hap- good."-Num. 10.20. piest occasion that the University

Vinson Smathers was the first affirmative speaker for Waynesville high school. After referring to the changing social and political conditions, he laid down his three proposition; that the present system of railroad ownership is wasteful in management; that it is a source of corrupting political influence; that the interstate commerce cannot correct these evils. He believed government ownership the only solution.

The first speaker on the negative for Mount Olive was Miss Gladys Andrews. She outlined her arugument opposing government ownership, declaring that the whole scheme is undemoctratic and unamerican; that government ownership is unjust from a political standpoint; that it is not the proper function of the government; that private ownership is in accord with American principles, and that government ownership would necessarily result in political corruption. Miss Andrews spoke in a convincing manner and showed a thorough mastery of the whole question.

Roy Francis completed the affirmative argument. He insisted that government ownership and operation is practicable; he pointed out its great success where it had been tried, and made clear how it would be operated for the interest of all the people. He attributed Germany's efficiency to its government-owned railways.

The last speaker for Mount Olive on the negative was Miss Emma Lindsey. After reviewing the points made by her colleague, Miss Andrews, she showed that government ownership was a most unwise policy from a business standpoint. The experience that foreign nations have had with it does not warrant its adoption here, she de-

The high schools and the respective debaters representing them in preceding years are as follows:

1913-Pleasant Garden High School; Grady Bowman and S. C. Hodgin. 1914-Winston-Salem High School; Charles Roddick and Clifton Eaton. 1915-Wilson High School; Lalla

Rookh Fleming and Ethel Gardner. 1916—Graham High School; Myrtle Cooper and Boyd Harden.

University Favors Draft.

Chapel Hill.—The faculty of the University of North Carolina, at its last meeting, passed the following motion in regard to the principle of selective draft in the military service: "Resolved, That the secretary of the faculty inform the North Carolina Senators and Representatives in Congress that the faculty of the Univerflamed eyes, you should have sity of North Carolina strongly favors them attended to before it is too the principle of selective draft for the military service of the United States of America."

NORTH CAROLINA BRIEFS.

North Carolina's first state board of chiropracite examiners was appointed by Governor Bickett, the recent Legislature having provided for such a board after strenuous opposition was overcome. The appointees are: Dr. Eugene L. Cox, of Winston-Salem, one year; Dr. I. C. Carlson, Greensboro, two years, and Dr. W. P. Love, Charlotte, three years.

Representative Godwin is supporting the selective conscription plan for raising an army.

The strawberry shipping season at Mt. Olive opened last Monday with a shipment of two crates. One was raised by W. H. Hinson and brought \$9 on the market here, Messrs. English & Oliver, local truck brokers, being look almost as the purchasers. The other was raised by Mary Capps and brought \$8.50 Officers at Durham made a raid last

week and captured four men, one woman, three automobiles and 816 pints of whiskey.

Col. Fred A. Olds, of Raleigh, has been secured to deliver the commencement address at Rock Hill School, Wilson county, on May 18.

ASHEVILLE, - - N. C.

WHERE SAFETY-FIRST **WOULD HAVE** SAVED HUMAN LIFE

С. H. Williams, a Wake county farmer died in Rex Hospital, Raleigh, Sunday, April 1, from burns sustained in the explosion of an oil stove.

The 21-months-old son of Mr. and Mrs. B. J. Bryan, Jr., of Wilmington, died March 27, as a result of burns from falling in a tub of boiling water which had been placed on a porch for scouring purposes.

A negro, named Renfrow, near Bailey, bled to death, March 28, as a result of being struck by an axe which slipped from the hand of a fellow chopper severing an artery. Knowledge of first aid work on the part of the fellow laborer would have saved the man's life.

George Williams, an aged blind negro, was burned to death in the fire which destroyed a three room cottage about five miles from Raleigh, March 28. The negro had been left alone in the house and when fire was discovered by neighbors it was not known he was there. No blind person should be left alone in a house.

A fire at Wilson on Thursday, March 29, resulted in the loss of two lives, a negro woman and her child. Newspaper accounts of the incident stated that the woman was subjected to fits and it was supposed that she fell in the fire. Screens for the prevention of such accidents can be purchased as cheaply as fifty cents.

LOSS BY FOREST FIRES IN NORTH CAROLINA

What shall North Carolina do about the great loss by forest fires? This is a real live question and one on whose answer much depends. During the five year period from 1909 to 1913 the average number of fires reported per year in North Carolina was 633. These fires burned each year about 415,000 acres at an average loss of \$650,000 and two lives.

The cost each year to private individuals of fighting these fires was about \$20,000. The losses and costs should be stopped if posible or at least greatly reduced. This can be done by the exercise of ordinary care especially at this season of the year when fires are so likely to get out and

The Insurance Commissioner appeals to all citizens not to start outside fires on windy days or leave them to be fanned into flames or spread by winds rising during the night Fire is used too promiscuously and carelessly for burning new lands being opened as well as other lands covered with vegetation. Hunters, teamsters and smokers must exercise more care with their fires and

All cases of careless as well as intentional starting of fires that damage lands and forests should be reported to the Insurance Commissioner so that they may be investigated and, where the evidence justifies it, vigorous prosecutions instituted.

The loss from these causes since 1913 has been even greater each

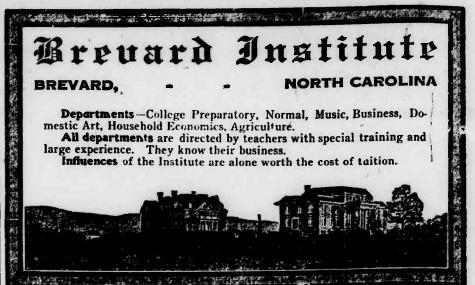

MANY KINDS OF INSURANCE

Says the Dallas, Texas., "News": "In these days you can insure almost anything. At the time of the roller skating boom one insurance company issued a policy which, for \$2.75 a year, provided \$1,250 in case of accidental death, with reduced amounts for disablement.

"An enterprising firm of hatters issued a booklet to their customers insuring them with every hat they purchased, for \$1,250. Perhaps one of the most useful policies is one granted by a well-known insurance corporation which, in event of a firm going bankrupt, insures the continuance of the employees' wages for a stipulated period.

'A golfer can obtain a policy to be if he hits or injures his caddie. One can not only insure against becoming insane, but it is also possible to insure against an insane person regaining his mental capabilities.

Several companies will insure crops in glasshouses against hailstorms. And you can also insure against increase of income tax, loss by bad weather, riot involving loss, twins, unemployment, whilst a singer can insure against loss of voice."-The Southern Underwriter.

Well-Painted

Buildings Are Easier to Rent and Sell Attractiveness of interior and exterior painting is a big fac-

tor in closing every sale or rental deal. The well painted building seldom causes its owners a loss through vacancy. Well painted houses boost real estate values in any neigborhood.

So "painting for looks" pays the building owner in many ways, But the chief function of paint is to prevent wear. That is why it pays to use only paint of known quality, such as

Patton's Sun-Proof **Paint**

The best test for paints is—time. For more than a generation the Patton Paint products have been favorably known and widely tested. The best Sun-Proof asset is the army of paint buyers who will use nothing else.

You can depend on Sun-Proof as you can on no other paint. A job done with it is an investment yielding sure returns.

Let us talk it over with you.
