Both Sexes Will Pay Income Tax.

The new war revenue tax is levied on "persons" and not exclusively on men, and our newly enfranchised and near-enfranchised sisters of the "suff" persuasion...

"The women are largely taking the places which men, who are called to the front, formerly held..."

So they will now have opportunity to march right up to the Cap's office and settle a little account with Uncle Sam in that little matter of income tax especially...

If your salary is twenty-five dollars a week you are exempt from taxation under the new revenue law...

Uncle Sam is apt to be interested in getting what is coming to him, soon, certainly before the first of March...

Many collectors and deputies are getting on the job and they are out for the "shshels" which they are bound to collect.

Exemptions to which any taxpayer is entitled will be explained to him. These will figure a good deal in the deduction to offset excess in income...

Skilled Laborers Needed. The prime department of the United States government has asked the state department of labor and printing to secure a list of available skilled workmen of North Carolina...

The prime department of the United States government has asked the state department of labor and printing to secure a list of available skilled workmen of North Carolina...

The wages paid will be attractive and the hours of labor short—namely, eight hours per day. Those desirous of entering this employment should communicate the fact to the Department of Labor and Printing, Raleigh, N. C., giving name and address, age, nationality, trade and experience.

This effort on the part of the commissioner of labor and printing may be the means of placing many North Carolina wage-earners in desirable positions, for an indefinite period, and it may mean nothing. However, in this emergency, it is important that the government should have the co-operation of every agency throughout the country...

La Follette Hit Hard.

The spirit of loyalty exhibited by the women of America in these perilous times well serves as an inspiration to men at home and soldiers on the field. With loved ones at the front the women of this country have no patience with slackers and traitors.

I have a son enlisted in this war, my neighbors have sons enlisted in this war, and the words you are speaking increases the heart of their lives. Could you but see yourself, Senator, as you are seen by your former friends, could you but feel the shame and sense of tragedy they feel when they hear cowards, slackers and traitors acclaiming you their champion and spokesman...

Duty may be the most beautiful word in the English language, but the name of that Wisconsin mother deserves to stand along side of it. And she has uttered the sentiment entertained by millions of American mothers throughout the land. The dilatory tactics of La Follette and his kind during the last session of congress have become a stench in the nostrils of all decent men and women from one end of the country to the other.

That New Home of Yours It is generally admitted that homes of average size are best built when built of wood. Certain it is that no other material lends itself so well to cozy, comfortable, homelike effects—or costs so little money. A great architect wrote in a recent number of THE HOUSE BEAUTIFUL: "It may be questioned whether a small house should ever be built of anything but wood." If you are actually planning to build, we will be glad to send you FREE, one or two books, which deal with the subject in a practical manner. No obligations; just send us your name. MILLER SUPPLY CO.
