Since it is a necessity, most desirable, and will last a lifetime, — isn't it thoughtless not to get it NOW instead of later?

A "Standard" Modern Bathroom should be considered in exactly that way. You will not question that a sanitary bathroom is a necessity, so considered by all who have regard for cleanliness and refinement. The fixtures are guaranteed for a definite number of years and there is no reason for thinking that they will not last a great while longer; is it not then a matter of economy to get the equipment at once.

Standard "Casual" Bath

An estimate on such equipment, correctly installed with first class workmanship, will be given upon request.

Farm Buildings; Farm Profits

Your buildings, if substantial, cost little for repair. If weathered, they add to your profits by protecting your stock, feed and implements. If convenient, they save you time—and time is money.

If you are thinking of rebuilding or remodeling, we can secure for you, F. I. E., a handsome \$1 book on Farm Building plans. Just give us your name and address. No obligation.
