

PERUNA

THE BEST MEDICINE FOR COUGHS AND COLDS

Miss Ivy Gray, Fairview, Kentucky, writes:

"I have taken Peruna, and would say that it is the best medicine for coughs and colds I ever saw. I find that it always cures a cold in a short while. It also strengthens and builds up the system."

YOUR HEALTH

"The nine counties in North Carolina which are co-operating with the State Board of Health through the Bureau of County Health Work were particularly active during the past month in their efforts to combat the spread of typhoid fever, the great scourge of the summer months. These counties are Wilson, Pitt, Northampton, Rowan, Davidson, Forsyth, Lenoir, Robinson and Nash, all large and populous counties, and each containing large negro populations. These counties reported 46 cases of typhoid fever for the month, an average of only slightly more than five cases for the county. The whole time health officers in charge of the health department in the several counties are determined to keep the number of cases equally as low through the remainder of the summer months.

The story of the energetic work done to combat the spread of disease in these counties during the month is told graphically in two sets of figures. During that period 684 sanitary closets were built and 6,480 people were inoculated with the anti-typhoid vaccine."

In these days we have so many wonderful inventions, that little is thought of that which would have been a miracle a short time ago.

If you think about it, the prevention of typhoid fever by inoculation is of itself a miracle. Think of the thousands and tens of thousands that have died in the past in our state of typhoid fever, died of this burning, lingering death.

Think of the suffering and grief, and expense, an untold loss to the family and to the State.

A long time ago a horseman rode into a small New England village where typhoid fever had never been known. He was suffering from typhoid fever. During his sickness and before he died, sixty people contracted typhoid fever from his case, through the contamination of the public well where many obtained their water.

Recently in our state all of the inhabitants of a certain village except one were inoculated to prevent typhoid fever. Typhoid fever came to this village and the only one who took it and died was the one who refused to take the inoculation.

Now that this disease can be prevented, it is criminal not to protect every one in the country. We had better inoculate every one than to let one have the disease.

Yours truly,
C. W. Hunt, M. D.
County Health Officer.

GOOD WISHES FROM KING GEORGE V

Following is a letter sent to American soldiers when they first began to land "over there" by His Majesty the King of England. This one was received by Oscar M. Dermid, a Transylvania boy, and sent to Mrs. Sallie Cooper at this place.

WINDSOR CASTLE

Soldiers of the United States, the people of the British Isles welcome you on your way to take your stand beside the armies of many nations now fighting in the Old World the great battle for human freedom.

The Allies will gain new heart and spirit in your company. I wish that I could shake the hand of each one of you and bid you God speed on your mission.

George R. I.
