Certain-teed

"Service" and "Conservation" are written in italics across the war-time record of *Certain-teed Roofing*.

It has given vitally needed shelter for munition plant, barrack, shipyard, factory, barn and granary.

It has taken nothing of military value in its manufacture,—waste rags and asphalt are its principal components, and both are useless for war purposes.

Its manufacture is accomplished largely by machinery, conserving labor; by water power conserving fuel; by women workers, conserving manpower.

Certain-teed endures under all conditions. It is weatherproof, waterproof, spark proof and fire retarding. Rust cannot affect it. The heat of the sun cannot melt it or cause it to run. It is not affected by gases, acids, fumes, smoke, etc. These qualities have made *Certain-teed* the choice everywhere

for factories, warehouses, stores, hotels, garages, office buildings, farm buildings and out-buildings.

In shingles, red or green, it makes an artistic roof for residences.

Certain-teed Roofing is guaranteed 5, 10 or 15 years, according to thickness.

Sold by good dealers, everywhere.
