IT PAYS TO ADVERTISE

Wednesday morning Dr. C. W. Hunt sent a Want Ad to the News with instructions to run said ad in display type. The doctor's Thoroughbred Scotch Collie had been lost for 48 hours and the medical man was in great distress. While setting up the ad the News editor decided to investigate a certain doleful intermittent wailing which came from the direction of the office of Transylvania's County Physician. When the door was unlocked the lost dog walked out. Truly it pays to advertise.

BOMB PARLOR FOR AMERICANS IN PARIS

"A series of unearthly wails from the siren that announces an air raid and we are out of our beds and down in the bomb parlor in double quick time," writes a woman who lives at the Hotel Petrograd in Paris. "Many times I have made the flight twice in a night. But you get used to it and drop off to sleep again as soon as you get the chance."

"The 'bomb parlor' is one of the unique features of the Petrograd. It is not its official title—a few of us have named it that. It is a good sized room at the bottom of the house and has no outside walls. Once there, we feel as safe from harm as we ever did in our beds. We spend the time between the 'alerte' that turns us out of bed and the 'all clear' signal that tells us to go back, with games, reading and visiting. I have seen Red Cross nurses on the floor fast asleep in spite of the awful din of the bombs and guns."

"More kinds of uniforms in all stages of freshness and fading come into the Petrograd, which is the American Y. W. C. A. hostess house of Paris, than any other place in France. Soldiers and sailors meet their women friends there; there are the Red Cross nurses, the women of the Signal Corps, American women stenographers, various medical orders, the Y. W. C. A. naturally, and all the rest. It is a never ending, strangely shifting throng."

"Besides being unique for its 'bomb parlor,' the hotel serves butter for breakfast and has bathing facilities for its resident guests at all hours. These are enough to give lasting fame to any house in France at this time. Last winter it was known as the 'house with warm rooms.'"

"The Hotel Petrograd of Paris is one of the three Y. W. C. A. hostess houses in France. The others are at Bourges and Tours. The social rooms of all are open to any woman or girl at any time of day or evening to meet her men or women friends, rest, enjoy social intercourse, read or write."

No Room.

"Have they a family skeleton in the closet?"

"No. They used to have, but her clothes crowded it out."

PROFESSOR WOOD MAKES STATEMENT

Georgia Educator Says he Never Saw Anybody Improve Like Wife Has Since Taking Tanlac.

"Tanlac is the only medicine that ever did my wife any good," declared Professor W. A. Wood of the Central graded school of Winder, Ga. "It has restored her health and relieved us of untold anxiety, for her case was a most serious one."

"Her main trouble seemed to be nervous indigestion," he continued. "She had suffered four years and had lost strength and weight in spite of the best treatment we could get. She was extremely nervous and loss of sleep pulled her down to a shadow. She could digest little that she ate and suffered from gas on the stomach, heartburn and nausea, and she had headaches all the time, with persistent constipation."

"After some hesitancy we decided to try Tanlac, and she began to show decided improvement with the second bottle. She has since taken several and the results have been simply marvelous. She is gaining in strength and weight every day and practically all her troubles have left her. She eats and enjoys anything she wants and rests well at night. I have never seen any such improvement in any person in so short a time."

Tanlac is sold in Brevard by Duckworth Drug Co.
