

# From War to Peace!

## Why it pays to Buy Hardware Here

Because we have everything you need from a Screw driver to a Threshing machine and WE SELL FOR LESS THAN THE CATALOGUE HOUSE

The war held up much work that will now be carried on at once. Public works, road building, construction of bridges and extensive farming improvements. This will provide new opportunities for everyone, but in this wonderful new era the farmer will come into his own. We must provide for starving Europe as well as America and farm products are going to be needed this year as never before.

You will eventually get one of our Oliver Chilled Plows, why not now? If you need plows of any kind, come in and inspect ours. We have a warehouse as well as our store full of every description of farm tools, hardware, crockery, harness, plumbing supplies, etc.

If you intend getting any Furniture this spring, let us show you what we have in the way of Bedroom Suits, Dining Room Suits, Couches, Davenport and Rockers.

### EXPERIENCES OF A SOLDIER (Continued from page one.)

diers. The Red Cross then served us with hot coffee and crackers and then we entrained for an English Rest Camp.

Aug. 21st. 1918.— Arrived at Romsey, England at six o'clock in the morning and hiked four miles to Camp Woolsey and if that is the idea of a rest camp, take me home. While we were there, which was only two days, all we had was two meals a day and these were mighty poor. Although we were very fortunate in obtaining a bath at this place which was sure appreciated.

Aug. 23rd. 1918.— We left Camp Woolsey at nine o'clock in the morning and started on a twenty mile hike with pack to Southampton; stopping at a sailors rest camp at noon for our lunch, which consisted of cold "Bully Beef" (otherwise known as canned Corn Beef) and hard tack for lunch. Rested there about 25 minutes, then continued on our march and passed through Southampton where we were greeted by the people with "Good Bye-e-e" whereas in the States they gave us, or at least threw us a kiss and sometimes would say "God Bless You". At about 5:00 P. M. we embarked at the English Channel harbor on the ship "Queen Alexandra, arriving in Cherbourg, France the following morning and disembarked at seven o'clock and hiking seven miles to another "English Rest Camp" named Camp Neirlavelle and then had our first meal in France, which was mighty poor. Our greeting there was "Une penny, Une penny". That was our first French town and it looked as though the people built it and then moved away (rather lonesome like). That night we sure did appreciate the good beds because the night before we had slept right on top of each other all the way over the channel.

Aug. 24th. 1918.— Hiked to Cherbourg, at which place we boarded our first Side Door Pulman, our new destination not known to us. We passed through Caon, Mantee, Versailles, Chartes, LeMans and then to St. Nazzaire, we were on the train two days and one night. We detrained at St. Nazzaire and hiked six mile to Camp No. 1 and believe me it was a happy bunch when we landed there instead of having to go four miles to Camp No. 2. If you will look up the dimensions of one of those French box cars you will see that we had to sleep one

on top of the other. Here is where we slept on bunks made in the "Chick on Coop" style, four to a bunk. After our company dug trenches or rather ditches over most of the camp and covered two barracks with tar paper, we found that they had enough rest and made ready to move.

Sept. 2nd. 1918.— Leaving on about thirty minutes notice we hiked back to St. Nazzaire and to the Railroad Station, where we entrained in small French compartment cars to Tonnere, but passed there by mistake at an earlier hour than we expected to arrive and had to hike fourteen long miles without a bit of water in our stomachs or canteens, arriving at Tonnere at 2:00 P. M. to have another meal of Bully Beef, after eating it for two days while on train, but were again fortunate in being able to get a bath.

Sept. 3rd, 1918.—On account of the town of Tonnere being so small to hold all of the train the Ambulance Companies moved to a smaller town by the name of Dannemoine, where the people sure did treat us fine with their old wines and old fashioned French dishes. We had quite a few boys sick in this town and we lost one of our boys there with the Spanish Influenza.

TO BE CONTINUED NEXT WEEK

### ALL WORN OUT

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys?

Brevard people indorse Doan's Kidneys Pills. You can rely on their statements.

Mrs. H. F. Townsend, Whitmire St., Brevard, says: "Some time ago I had a bad attack of kidney trouble. My back was weak and ached all the time. I felt tired and languid and could hardly straighten after stooping. Mornings I was tired and weak and could hardly get around. My head ached, I had nervous spells and I would get dizzy and black specks floated before my eyes. My kidneys didn't act right either. Hearing of Doan's Kidney Pill I got a supply at the Duckworth Drug Co., and soon I was entirely cured."

Price 60c, at all dealers, Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Townsend had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## What Twelve Farmers of Henderson County Have to Say About Agricultural Calx

Etowah, N. C., Aug. 23, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

Your fertilizer was used on parts of both my cane and corn crop, and I must say that it has improved both crops wherever it has been placed. You can notice the difference to the very row—as the cane is taller and more matured. The ears are bigger and the plant greener where it was used on the corn last. I should say that where the fertilizer has been used it has advanced the crops at least two weeks earlier.

Yours truly,  
J. E. GREER, J. P.

Etowah, N. C., Aug. 24, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

I made a test of your fertilizer on thin and well manured land. The fertilizer was used when I sowed the seed, and it was only a short time when I noticed how much better the corn showed up on this ground, and then a little later it began showing an improvement on the ground that was well manured. Your fertilizer is doing fine, and I have also observed how it has done on crops of my neighbors.

In sowing my clover I used your fertilizer, and I must say that my clover has a fine stand which I attribute to the use of your material.

Yours truly,  
M. R. ANDERSON.

Etowah, N. C., Aug. 23, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

I used your fertilizer on part of my cabbage patch and it has proven very beneficial. The plants that were fertilized have larger heads and were much healthier looking plants than those where your fertilizer was not used. I can safely recommend its use.

Yours truly,  
C. W. DUNCAN.

Etowah, N. C., Aug. 23, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

It was rather late in the season and therefore my corn had grown considerably when I placed some of your fertilizer on parts of my crop. After a short time I noticed the plant was greener and the ears were larger where the material had been applied. I not only saw what good it did for my corn, but I have also seen some very remarkable demonstrations on some of my neighbors' crops.

Yours truly,  
S. C. CRAWFORD.

Horse Shoe, N. C., Aug. 24, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

My corn crop has been helped a great deal by the use of your fertilizer. Where it has been used the plant is greener and the ears larger.

Yours truly,  
J. H. CAIRNES.

Horse Shoe, N. C., Aug. 24, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

I have used your fertilizer and am sure it will do all you recommend for it.

Yours truly,  
J. H. LAUGHTER.

Horse Shoe, N. C., Aug. 23, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

I fertilized a number of rows of cowpeas with your fertilizer, and some I did not. It was only a short time when I began to notice how much better looking were the peas where your fertilizer had been placed. You can notice the difference to the very row, and I must say it has done them lots of good.

Yours truly,  
LEVI LEDFORD.

Horse Shoe, N. C., R. 2., 1-7-'19.  
The Calx Mfg. Co.,  
Etowah, N. C.

Up to the present time my prospects for a good small grain crop are better this year than ever. I attribute this to the use of your fertilizer.

Yours truly,  
T. V. CARLAND.

Naples, N. C., Jan. 1, 1919.  
The Calx Mfg. Co.,  
Etowah, N. C.

I would be pleased to have any farmer visit my farm and see the excellent work your fertilizer has done for my small grain.

Yours truly,  
T. D. BRITAIN.

Arden, N. C., Jan. 5, 1919.  
The Calx Mfg. Co.,  
Etowah, N. C.

Up to the present time my small grain crop has been greatly benefited by the use of your fertilizer. Last summer I used it on my turnips and cabbage. The turnips weighed from 3 to 4 pounds more than where I did not use it. It matured my cabbage about two weeks earlier than where it was not used.

Yours truly,  
L. T. MOORE.

Fletcher, N. C., Feb. 2, 1919.  
The Calx Mfg. Co.,  
Etowah, N. C.

I used your fertilizer on twenty-five acres of small grain, and the results I have up to the present are excellent.

Yours truly,  
S. E. JOHNSON.

Horse Shoe, N. C., Dec. 2, 1918.  
The Calx Mfg. Co.,  
Etowah, N. C.

I used your fertilizer under my cowpeas last fall, and it proved to be a very fine grower.

Yours truly,  
J. F. SUTTON.
