### OPPORTUNITY OFFERED RETURN'D SOLD'RS

Editor Brevard News:

Will you kindly publish the attached letter which was received from Dr. L. B. McBrayer, Chief of Bureau of the N. C. Sanatorium for the Treatment of Tuberculosis—for the benefit of soldier boys in Transylvania, who may need to take advantage of this most generous offer.

Yours truly,

R. H. ZACHARY, acting for the Red Cross.

My dear Sir:

We desire to call your attention to the wonderful opportunities offered you by your Government.

1. Uncle Sam was needing men by the millions when he said that you were sick with tuberculosis—may be not very sick so far as you could tell, but Uncle Sam said you were too sick to join his armies.

2. Needing men as he did and having tuberculosis experts of the United States at his command, and using them, it is not likely that he made any mistakes about it.

3. Now he offers to give you treatment of the best kind, pay all the bills and in addition pay you thirty dollars a month while you are taking the treatment.

4. Not only that, but while you are taking treatment he furnishes you a teacher, who in addition to teaching you things that will be most helpful to you in mechanics, agriculture, handiwork or in books, makes a study of your attainments and we furnish him a statement of your physical condition, then taking all this with your past experience in every activity, he plans such future education as will be most suitable for you and arranges for you to get it. Mr. Hyde is doing this work in The North Carolina Sanatorium and a most splendid work it is.

5. You can't get any of this education except in the sanatorium until the doctors assure the Government that you are physically well enough to take it without detriment to yourself, but the Government is willing and anxious to give you the treatment that will make you physically fit.

6. And then the Government will send you to a college of medicine, law and literary college, mechanical or agricultural college or high school or wherever you can go and benefit most, considering your past advantages, your desires for the future and your physical condition. They will pay all your tuition and pay you sixty-five dollars per month, which is intended to cover your board and clothes.

7. At the North Carolina Sanatorium, Sanatorium, N. C., they are cutting all red tape of their own and the Government's and admitting you promptly on receipt of a statement from you that you desire to accept their advantages and that you will observe the rules of the Sanatorium and the school to which you are sent. And at the Sanatorium they make application for you for your War Risk Insurance, your bonus or anything else that you are entitled to from the Government.

8. Who ever heard of so many advantages offered to any one? All

you have to do is to accept it.

9. If you are interested, write us or consult the chairman or executive secretary of the nearest Home Service Section of the American Red Cross.

10. The above applies to white soldiers only. We are endeavoring to make the same arrangements for the colored soldiers and will be glad to render any assistance possible until such arrangements are made.

Very sincerely yours,

L. B. McBrayer, Chief of Bureau.

### CHEESE CUP ON DISPLAY

The handsome cup won by the Penrose Co-operative Cheese Factory at the State Live Stock Show held in Charlotte last fall for the best cheese in the State, is now on display at the T. M. Mitchell Grocery Store with some Penrose cheese. The cup was given by Morris & Co. of Chicago.

The factory is proving a big asset to the Penrose and Little River communities by furnishing a cash market for milk and eggs. The farmers realize that good live stock pays on the farm and are going to prepare to have more and better live stock by building silos and seeding their lands in grass.

### INTERNATIONAL HARVESTER MACHINES

### Deering Mower Assets

A THOROUGHLY dependable mower is a big asset at haying time. A good mower should be able to cut grass in any condition satisfactorily, and in this respect the Deering New Ideal is a pronounced leader.

The flexible movement of the cutter bar which permits close cutting over rough ground, the one-piece frame with all holes drilled in one operation to secure perfect alignment of parts, the covered gears and the special quality steel roller bearings, etc.

Still another point—the ledger plate on the Deering mower extends the full length of the cutting surface of the guard, giving the advantage of a complete shear cut, whether the knife section is old or new. This does away with all clogging of the grass between the knife section and the rear end of the ledger plate.

Drop in and see us and we will show you the mower in detail.
