 Subscriptions not continued after expiration of time paid for except on request.

FRIDAY, AUGUST 8, 1919.

**THE INVESTIGATING CONGRESS**

The Republicans in Congress appear to be more interested in an effort to hatch up charges against the Administration for campaign purposes next year than they are in the enactment of constructive legislation, or the settlement of the controversy that has arisen over the ratification of the Treaty of Peace. While they are at it they might investigate the "inditement" of Assistant Secretary Crowell against the War Department for providing munitions which hastened the end of the war and saved thousands of lives and millions of money. Here are the "charges" he makes and we insist that they should be looked into immediately:

"That America had more troops in France than the British at the signing of the armistice..

"That the American artillery in France fired more than four times as many rounds of artillery ammunition as the Union army did in the Civil War.

"That America was the only country that succeeded in building recuperators for French designed guns, except France herself.

"That between April 6, 1917, and November 11, 1918, America manufactured as much smokeless powder as France and England combined.

"That between two and three miles were added to the range of the American army's six-inch guns..

"That America developed five airplanes the equal of or better than anything in Europe.

"That America brought down 491 German planes and lost only 271 during the war.

"That the United States built almost as many aviation engines of other types as she did of the Liberty.

"That America reduced the cost of helium gas from \$17.00 per cubic ft. to ten cents per cubic ft.

"That America shipped 533 locomotives to France on their wheels, packed in baled hay, in the holds of vessels.

"That American troops alone had hot coffee under fire, due to the invention of soluble coffee in the United States.

"That packing economies saved the country \$55,000,000 in the shipment of clothing alone to France and by saving ship space, offset the operations of U-boats for several months.

"That salvage during the last nine

months of the war saved \$100,000,000.

"That the total war construction in the United States amounted to more than \$1,000,000,000 in cost.

"That America produced over 75,000 miles of outpost wire for signaling purposes at the front, a material never manufactured until America entered the war.

"That America developed a substitute for salvarsan, formerly produced only in Germany, and which proved to be far better than the German product."

These are things that are absolutely new to the average American and because of the fact the claim is so astounding and concern accomplishments that appear well-nigh impossible, we respectfully submit that a special committee should be selected by congress for the purpose of ascertaining, if possible, how this Democratic administration managed to put over so much in the course of only a few months. The very things Germany had no idea in the world that America could do have been done quicker and better than she had been doing them herself. They are achievements that, coupled with the wonderful fighting spirit of the army overseas, made it possible to end the war eighteen months before most people believed it would be brought to a close, with an enormous saving in life and treasure.

Any Democratic administration which has been able to report achievements of so great significance may expect nothing less than investigation from a bunch of selfish politicians. Of course innate jealousy is at the bottom of it all. But let the books be opened. DEMOCRACY has nothing to conceal.

**HOUSE NOT TO ADJOURN**

When the question of adjournment was under discussion in the House recently and objection was made by one of the members, Representative Claude Kitchin of North Carolina, let it be known that he heartily approved the suggestion for the reason that the country would be better off when this Republican congress was not in session. A solar plexus, that.

Race riots in Washington, Chicago and other northern cities brings the people up there face to face with the very thing for which they have been criticising the South since the time when the Ku Klux Klan took law in its hands during the days of reconstruction and compelled respect for our women. Outbreaks like those recently reported from the cities mentioned are regrettable anywhere, but, in this instance, the South will not have the finger of "scorn" pointed at them by northern critics. Social equality simply will not work. The southern way of dealing with the negro is mighty hard to beat.

President Wilson makes a strong plea for the ratification of the special treaty with France. It simply means that the United States would go to the relief of the French Republic in the event of an unprovoked attack upon it by Germany like that which occurred five years ago. Great Britain agrees to a similar compact and this would go a long way towards preventing another world-war. America owes her independence, in

a large measure, to France and this special treaty should be speedily ratified. The people of the country are tired of the tactics of professional objectors in Washington. They desire action, and want it now.

**"Why I Put Up With Rats for Years"**  
 Writes N. Windsor, Farmer.  
 "Years ago I bought some rat poison, which nearly killed our fine watch dog. It so scared us that we suffered a long time with rats until my neighbor told me about RATS-NAP. That's the sure rat killer and a safe one." Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by Brevard Hardware Co., Brevard, N. C.

**CARD OF THANKS**

To all those kind friends who lent their untiring efforts in our behalf during our recent bereavement, we extend our thanks and deepest gratitude.

We want to leave with you the full assurance that your many kindnesses will ever be remembered.

Mr. and Mrs. B. B. Pyles and Family,  
 Mrs. S. G. Vanlandingham.

**CALOMEL DYNAMITES  
 A SLUGGISH LIVER**

**Crashes Into Sour Bile, Making You Sick and You Lose a Day's Work.**

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Advertisement.
