WE ARE STILL AT WAR

"A year ago the German representatives signed the terms of the armistice, but the United States is still in a state of war. There is no peace because the United States Senate has refused to permit peace," said the New York World in an editorial appearing on "Armistice Day."

"Germany has ratified the Treaty of Versailles with the covenant of the League of Nations. Great Britain, France, Italy and Japan have ratified it. The United States, alone of the great powers, is held back by the perversity of a partisan Senate which insists on dealing in the smallest possible way with the greatest treaty ever submitted to it."

"Politically, economically and industrially the world is unquestionably worse off to-day than it was when the armistice was agreed to a year ago. Governments have succeeded for the most part in demobilizing their armies and in dismantling the machinery of war, but they have not been able to organize peace. Thanks to the United States Senate, there is no stability, no assurance, no sense of security anywhere."

"The Governments that have ratified the treaty have not been able to put it into effect because they do not know and cannot find out what the United States is going to do. They have no means of ascertaining whether the United States, which is the richest and most powerful of all the nations, will continue to discharge the grave moral obligations that it incurred when it entered the war or whether a politically distracted and a financially impoverished Europe is to be thrown wholly upon its own resources and left to survive or perish as fate may decree."

"During the four months in which the Senate has been dealing with the treaty as if it were an assault and battery case before a Justice of the Peace, matters have been going from bad to worse everywhere. The United States has never before known such an unrest and discontent. Hundred of thousands of workers are on a strike and many of them without any adequate reason. Federal and State authorities are daily arresting revolutionists who are plotting to overthrow the Government of the United States and to destroy American institutions. Bolshevism is spreading from coast to coast."

"Although the fighting has been over for a year the army has been brought back from France and the soldiers have returned to civil life, not a single measure of reconstruction has been enacted by Congress. Not a finger has been lifted by the legislative branch of the Government to meet any of the problems created by the war. Congress was in session a month before the treaty of peace was signed at Versailles; it has been in session ever since, and it is still marking time while Henry C. Lodge and his Senatorial associates exploit their vanity and vindictiveness by trying to tinker the treaty in the name of spurious "Americanism" that they have to invoke to cover their partisan operations."

"In the furtherance of this plan they have appealed to everything that is selfish and sordid and ignoble in the American character and trampled underfoot everything that was generous and brave and honorable. Not satisfied with that, they have appealed as well to race hatred and class hat-

red and religious hatred. What the rule-or-ruin policy of these Senators has cost the world in lives and in property cannot be calculated. What it has cost the United States in prestige and influence is likewise beyond calculation. If they had set out deliberately to wreck what Prussian militarism had left of civilization they could hardly have proceeded more effectively than they have done in the expiration of their own meanness and malice.

"It is a record of which no American of the next generation will ever be proud. It is a record that no competent American historian will ever defend."

Mr. Jenkins' bondsman looked for war with Mexico. Carranza expected war against Mexico. The senate proposed to pave the way for war with Mexico. Excited brethren of the press predicted war with Mexico. The war department prepared for war with Mexico. All the world had pretty well made up its mind that there would be war with Mexico, except Dr. Grayson's patient. There will be no war with Mexico.—Greensboro News.

THE CLUB GIRLS OF ROSMAN

The girls of Rosman club gave a pig supper at the school house to raise some money for the expenses of the club. We had a little program before the supper.

Song—America. Recitation—Ossie Galloway. Song—By Demonstration Girls. Recitation—Lucie Fullbright. Song—By High School Girls. Song—By all.

The house was full and everybody seemed to enjoy things very much. The supper was enjoyed by everyone. We had a fortune teller. It was the funniest thing of all; nearly everybody had their fortunes told and those that didn't missed all of the fun.

The amount that was raised amounted to \$30.00.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or impaired hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface of the Eustachian Tube. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 76c. W. J. CHENEY & CO., Toledo, O.

DINNER SERVED BY HOME DEM. GIRLS

An elegant five course dinner was served at the Woodman's Hall in Rosman on Saturday, Dec. 13 by the Home Economics Class of the Public School under the direction of Miss Cassidy, the Co. Demonstrator.

The dinner was served in honor of the school officials including the Rosman School Committee and Principal, and Co. Supt and Co. Board Members. The skill of the class was well attested by those present and the repast was enjoyed by all.

After dinner, with Principal J. E. Ockerman as toast-master, many words of congratulation were indulged in to the delight of Miss Cassidy and the class. Those responding to toasts were Mr. J. S. Silverstein, Mr. A. M. White, Mr. A. M. Paxton of the local committee, Co. Supt. A. F. Mitchell and Mr. Gillespie of the Co. Board. All expressed themselves as being well pleased with the progress made along the line of the Home Demonstration work.

The CHEVROLET is The Car The Worth of a Car is the Worth of the Motor "It is the motor that makes the automobile from the standpoint of utility," says White, Woodward Auto Co., of Rosman, N. C., local dealers in Chevrolet passenger and commercial cars. ... Hundreds of dollars may be spent on body comfort and appearance, but in the end, the enjoyment of a car is limited to the worth of the motor. Just as the heart is the center of life in a human being, so the motor is the heart of the automobile. It makes it go. If a man has a strong heart he is generally capable of doing physical things. The ordinary tests of every day do not tax him at all, they do not wear him out. He has endurance. He lives long and is fit and vigorous in his old age. In just the same manner the capacity of a car for hard service and the length of that service depends on the character of its motor. It is because so many people fail to grasp this important point that they make so many costly experiments before finding real motoring satisfaction. It is because of this that so many makes of automobiles are permitted to flourish on the sole strength of attractive surface features before public opinion snuffs them out. ... On the other hand the most successful cars of today are those whose motors have stood up to the tests of time. They are the kind in which the motor has been the first consideration. Then the rest of the car has been built to fit the power of the motor. In such cars the motor is not taxed by unnecessary weight. Strength and flexibility have taken the place of bulk and the result is greater riding comfort, endurance, freedom from repairs and far more power at far less cost for fuel. A. M. WHITE U. G.
