**BETTER TRAIN SERVICE:**

Let no one be deceived by the caption of this article into believing that better train service is about to be granted to the branch of the Southern known as the Transylvania Division. This was something ardently hoped for, and earnestly worked for; but up to the present the powers that be in railroad circles have remained deaf to the prayers and obdurate to the influences from this county. Only one change for the better has been made. The midday train now goes to Lake Toxaway.

Do we need a better summer schedule? Every summer thousands of people come into Transylvania county Brevard, Pisgah Forest, Davidson River, the region around Lake Toxaway, Sapphire and Franklin are waiting to receive their guests. Practically the whole county has become a resort section. Then, in addition to the general tourists — the kind of tourist that goes everywhere — we have our eight camps surrounding Brevard, with boys and girls continually coming and going. Our hotels and boarding houses are nearly always filled in the height of the season, our main trouble generally being that we have not room enough.

Taking these things into consideration it seems that we need a good summer schedule to accommodate all the people coming at various times. The fact is that we have an inconvenient schedule, causing delays to travelers and disappointment to those who take care of guests. There is no question about our need.

What then of the railroad company? Unquestionably, its interests must be considered. But if there is a real, pressing need on our part, then it surely would be profitable for the company to supply that need — other wise it would be, not a real, but a fancied need. Do we just merely fancy up here that we ought to have a better schedule?

If railroads will not co-operate with the people along their lines, they certainly cannot expect either the growth of those sections or their own resulting growth. If Transylvania county is held down by the close-fisted cautiousness of men at the head of railway affairs, increase in railway traffic and profits will be delayed, and the company will be bound to suffer as well as ourselves.

The Transylvania citizen becomes enthusiastic on the subject of developing his county in all ways possible. This public spirited citizen joins the Western N. C. Chamber of Commerce, because he has been told that it will be profitable if all work together, and he hopes thereby to see his own section widely and thoroughly advertised. Then suddenly he runs up against a wall — the wall of a poor, inadequate summer schedule. What avails all the public spirit, all the advertising, all the fine fellowship in a chamber of commerce, when the railroad won't function?

Brevard is the only resort town in Western North Carolina that does not have additional train service the coming season. Waynesville, Black Mountain, Montreat, Hendersonville, Tryon and Saluda and every other town located between Waynesville, Black Mountain, Asheville and Tryon will have splendid train service.

An far back as twenty years ago, the Transylvania Railroad operated four trains a day each way, making connection with every train coming from the South at Hendersonville. In addition to this they had parlor cars, sleeping cars and two others. From the additional plants located on the

Transylvania Railroad during the past ten years, business must have trebled in that length of time. There is no question that there are three people coming to Brevard now compared with one coming twenty years ago. It would seem to the business men of our town and County who are working to build up our section that we should receive the co-operation that we are due from the Railroad.

The bus line suspended operations just when it began to be needed most. It made an experiment during the dull season and stopped on the ground that it did not pay. If all businesses were conducted on this theory, what a vast army of failures there would be!

**THE PRAYER CORNER:**

**"THE MIDNIGHT MEAL"**

While the plague was sweeping over the land of Egypt, the household in every Hebrew home was gathered about the table eating the midnight meal.

While Christ, by His blood, shelters His people from the penalty of sin, He also provides a feast for them. This suggests many a beautiful thought about the Christian life.

On the dark night of the betrayal while the enemies of Jesus were preparing for His arrest and crucifixion, He and His disciples were sitting in the upper room, enjoying a feast of love together. Christ is always bread for our hunger, as well as a refuge for our sin.

A feast means joy, gladness — all Christian life should be full of song, and praise. Even in sorrow we may have songs to sing. A Christian life is not merely protection from penalty, freedom from condemnation, a life sheltered from the storm; it is a life of joy, of peace, of love, of song.

We are not forgiven criminals; we are children of God, we have fellowship with God, all things are ours. We are not exempt from sorrow, but in our sorrow we have comfort. We have trials and afflictions, but in all of them there is blessing for us. Then the road, however hard and rough it may be, leads home. M.

**A PRAYER:**

O Thou Blessed Christ, who, by Thy blood, dost shelter Thy people from the penalty of their sin, dost also provide a feast for them; a feast of love. Thou art always bread for our hunger, as well as a refuge for our sin, and the feast Thou hast prepared for us means joy and gladness. Oh how, full of song and praise our Christian life should be, even in sorrow we may have songs to sing, for our Christian life is not merely protection from penalty or freedom from condemnation or a life sheltered from the storm, but it is a life of joy, of peace, of love, of song. Help us to make it so.

We are not forgiven criminals — we are children of God, and have fellowship with God, all things are ours. Sorrow will come to us, but in our sorrow we shall have Thy comfort. Trials and afflictions must and will befall us, but in all of them Thy blessing, which maketh rich, and Thou addest no sorrow to it, shall rest upon us, and then, oh! then, the road however hard and rough leads home at last! We thank Thee, Thou precious One. Amen. C. D. C.

**NOTE OF THANKS TO CITY FATHERS AND COMMISSIONERS**

The U. D. C's. are pleased to the point of elation over the handsome new pillars, cement steps, walk, and other improvements which add greatly to the attractiveness of the Chapter House.

The librarian has been asked to express, through the News, thanks to the City Fathers and Commissioners, who are responsible for the work done.

We are glad, not only because of the better looks and better walking, but also because we are made to feel that we are recognized, by those in authority to speak, as a useful "member of the family."

And we hope to live up to expectations. A. Lila Riley, Librarian.

**BREVARD INSTITUTE NOTES**

Misses Eva Long, Mollie Dalton and Evelyn Allison were dinner guests of Miss Mary Allison of Pisgah Forest, on Sunday.

A party of twelve, teachers and pupils, to Chimney Rock on Monday and had a most pleasant trip.

Several girls, chaperoned by Miss Snider, dean of Summer-school, hiked to Lake Lodge to see the sunrise on Monday.

Quite a large party went to Glen Canyon Falls, Saturday afternoon and were caught in the rain receiving a thorough drenching; which however did not seem to lessen their enthusiasm for hiking.

Miss Nannie White, one of the State teachers in the teachers' training department has been joined by her mother, who will remain through the school session.

**DEMAND FOR TANLAC BREAKS ALL RECORDS**

**Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor for It.**

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equalled in the history of the drug trade in America.

**Fame is International.**

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from the Great Lakes, Tanlac is known and

honored. Millions have taken it with the most gratifying and astonishing results and have pronounced it the greatest medicine of all time.

Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use.

**RESTORED TO HEALTH:**

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and of terribly dejected depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by the use of Tanlac.

**Talks About Building**

Lumber prices are deflated. Lumber, the last great commodity to advance in price, has been the first to come back to normal basis. While lumber constitutes less than 30 per cent of the cost of the average frame house, these reductions mean an important saving in building costs.

Building labor is more efficient. A reduction in the wage scale is less important than a full day's work for a day's pay. Increased efficiency has already brought about a substantial reduction in costs.

You can build now with confidence. Deliveries of material are certain, prices can be protected against advances, and building labor is available. No longer is it necessary to build on the "cost-plus" plan.

There are good reasons why many people should build homes for themselves. If you have been thinking about building we invite you to talk it over with us personally. We will gladly help in meeting any of your building problems and our friendly counsel and assistance will not oblige you in any way.
