knowledge that Grape-Nuts with milk or cream is a complete food, many housewives do not know of the appetizing and economical dishes that can be prepared with Grape-Nuts. It lends itself, we believe, to more uses than any other cereal. The convenience and economy of Grape-Nuts, and the flavor, zest and wholesomeness which care to a part to seem and solled it imparts to other food, make it invaluable in every home. Frequently we receive in-

of the Runsus district of the United teresting letters from women throughout the country, telling about the attractive dishes they make with Grape-Nuts-delicious puddings, salads, dress- trated cook book.

## What Is Grape-Nuts?

Grepe-Nuts is a highly nutritious food in the form of crisp, golden granules. It contains the full nutriment of wheat and barley, including vitamin-B and mineral elements required for building sturdy health These elements are often lacking in the ordinary diet, chiefly through "over-refinement" in the preparation of food.

No other food is so thoroughly baked as Grape-Nuts. More than 20 hours are consumed in the baking process which makes Grape-Nuts easy to digest, and also develops a natural sweetness from the grains themselves. The form and crispness of Grape-Nuts invite thorough mastication - a

decided advantage because this not only provides proper exercise for the teeth, but makes for good digestion.
