TRANSYLVANIA A MANUFAC- TURING COUNTY

The University of North Carolina Press is authority for the statement that the manufactured products of Transylvania County are worth \$4,555,000. This is pretty good for a county our size but we have roop, raw material, and power for many more manufacturers. The counties are divided into four classes, we are in the second class.

In Pioneer days Brawn guided by Brains blazed the trails through the wilderness and laid the foundation for our present day covilization. It is the same today—Brains and Brawn working together build communities. We have plenty of both---let's use them.

Our Community is a good place to live---but cooperation will make it a much better place.

Our community is a good place to trade---and the more we trade at home the better it will be.

Pulling together means greater prosperity for all.
