South Carolina Press Association Convenes Here

By L. A. AMMON

Good rains with a minimum of damage from wind and hail makes the crops look good and a broad smile across the tarmers faces.

Farmers from other Counties and other States, South, seem to feel that we have been tayoued in some way or other by the Powers that be, in that we have such one crops, immediate vicinity of Brevara have When told that we have been very all opened for the 1925 season, with short on rain they can harmy be- aproximately 1,000 campers in atheve it, as our crops do not show it tendance. The largest numbers are half so much as other parts.

sections. The big reason, as I see it, was that the early Spring dry, permitting more work than ual, and our latiners made use this time in preparing exits seed beds.

A second reason is that the weather has been enough to re weeds, but with the good bed enough fam to keep us ;

A third reason is that or imground sources, or water. are so many splings that here. the top, but in time of need up the moments to the dry The water level in life valley is fortably near the surface, make good maurance poncy against

PRAYER FOR AMERICA, THE HOPE OF THE WORLD

God of our fathers by whose A' mighty Hand our rathers were led into this great land, lalo us, the descendants, to remember that we hold in our hands the hope of the world, the fate of the coming years Let the light of high resolve news. be dimmed in our eyes _nor the ge! den hopes of men prailed in the

Give us grace to build ton this new continent, a country where God is The Lord. May we stand against all tyranny by the few or the many, stand for the rule of the many in the interest of all; for the rule of the many in a spirit of courage, of common sense, of high purpose, above all in a spirit of kindly justice towards every man and every woman. Enable us to insist that there must be self control on the part of the people, that they must keenly perceive their own duties, as well as the rights of others, never forgetting that we, the people can do nothing, unless we not merely have, but exercise to the full, our own rights.

Open our eyes to see that the worth of our great experiment depends upon its being-in good faith, an experiment in true democracy on the scale of a continent, on a scale as vast as the mightiest empires of the Old World. Reveal to us what a noble ideal it is, an ideal for which it is worth while to strive an ideal for which it is worth while to sacrifice much, for it is the rule of all the people in a spirit of friendliest brotherhood towards each and every one of the people. And unto Thee, God of our fathers and our God, shall be all the praise through Jesus Christ, our Lord, Amen.

the Bible by scientific methods, and believes the whole Book, setting for his authoritative views of same in his recent book, "A Scientific Man

And The Bible." Dr. Kelly has returned to Baltimore after honoring Brevard with his presence for several days. He
