BREVARD, NORTH CAROLINA, MARCH 11, 1926

FARM NEWS

By L. A. AMMON

and clover would be during the next two weeks. Sow on as firm a seedbed as possible, that plenty of moisture may come up.

Government experiments show at it does not pay to turn clean rn ground for oats. Turning, giving about two bushels extra in yield. Disc in or get on the riding cultivator and plow them in. Or disc and use grain drill. Sow grass or clover

after and drag with harrow or brush. Earliness is the secret in getting yields of oats. Take your chance with frost rather than hot weather. Chicken Market

The chicken truck was up last Friday and took away over a hun-dron dollars worth of culls and ducks. Hens of the heavies brought 22 cents; lights, 20 cents; ducks, 15. This truck comes as far as Brevard every Saturday, reaching Brevard about noon. Chickens or eggs in coops or cases will be taken back. The following parties have been seen and will buy chickens and eggs for this truck or to be sent in by ex-Winchester, of Rosman; Perry, of Calvert: Bagwell, of Selica; Bagwell, of Brevard; Lyday, of Davidson River. Others are to be seen yet. It is hoped to have a regular buyer at every station along the road. Prices will be furnished a week ahead. This program is part of my plans for the year, but anyone bidding highest for this trade has my permission to take it in.

Pigs

Rather suspect that Mrs. Tom Wilson would like for Connestee and East Fork to know that she can beat them in raising pigs. I will venture to say that no one but John | Bishop has beat her yet with a large bunch of pigs. "Grow them off quick is the way," Mrs. Wilson

Spraying Time

Now is the time to tune up the spray cutfit and give the trees a good spring bath of lime and sulphur4 Sixteen pounds to fifty gallons.

The demonstration at the Armstrong place, Toxaway, by Lewis Tinsley, sure shows wonderful results in killing scale and improving growth. The first spray is good till leaves or flowers come out.

Mr. Henry Carrier cannot see why people do not grow more berries, and especially raspberries. His settings yield a good profit. Two days next week we will have a Specialist in small fruits with us. The time will be devoted to individual work as a beginning, so I will be glad to have you speak if you would like for him to visit your place.

BAPTIST BARACAS

RAISE \$5,000 FOR

will be collected within the week. This collection was taken as result of a challenge made by the men of the church that they would raise \$20,000 toward the re-building of ing field near Davidson River. Ofa new church edifice if the Baracas would meet this church deficit.

The two friendly compacts were consequently entered into and are practically closed in so far as the raising of the funds is concerned. The church debt is paid and the \$20,000 for rebuilding is practically in hand.

Plans include the building of the Sunday School rooms first as an annex to the present structure, and later the church proper will be demolished to make way for the construction of the remainder of the edifice in its place. Actual construction work on the Sunday School annex will begin at once it is announced, with plans for its completion by early summer.

J. A. Glazener is president of the Baraca class and L. P. Hamlin is agership of Miss Gladys. teacher.

LAWRENCE-MALLORY NOW BRANCH CHERRY COMPANY

Lawrence Mallory Realty and Insurance Co. are now representatives in Brevard and Transylvania county for Cherry Realty Co., Asheville.

The Cherry Realty Co. started business in Asheville eight months ago and its growth since that time has been phenomenal, having expanded to such proportions that branch offices are now operated in Brevard, Bryson City, Hendersonville, with three maintained at the present time in Florida.

Beginning May 1st, the Cherry firm will operate daily buses between New Bern and Raleigh in the eastern section of the state, and points in the western section for the purpose of bringing prospective purchasers back and forth across the state, thus doing a general real es tate business in all parts of the

One bus a day will arrive in Brevard bringing prospects from the eastern part of the state, and will depart each day with prospective buyers to that section. All transportation will be free.

MR. AND MRS. SHIPMAN HAVE NEAR SERIOUS ACCIDENT

Mr. and Mrs. T. H. Shipman and wo children, while driving home from Asheville last Saturday night over the slick, icy roads, in some way collided with another car on the Hendersonville highway between Brevard and Hendersonville. The cecupants of the other car were Mr. Morris Alley, his wife and two sisters, of Hendersonville.

Both cars were considerably damaged, but the occupants of both escaped with comparatively minor injuries. Mr. and Mrs. Shipman were severely bruised and shaken up with the resulting nervous shock, and have since been confined in bed. The daughter, Miss Elizabeth, and

son, Hayes, were uninjured. W. E. Breese and A. H. Kizer happened to be passing the scene of the accident, and brought the Shipman family back to Brevard.

MONTCLOVE IS NOW ONE OF LARGEST W. N. C. DEVELOPMENTS

Situated one and one-half miles from Brevard, midway between the Greenville' and Lake Toxaway high-The purpose of the meeting is to ways, overlooking the beautiful ible from every angle, lies Monclove Estates, justly accredited with being one of the most beautiful , subdivisions in Western North Carolina.

Montclove Estates, formerly know: as the Hunter farm, is a 700 acre tract of land now under process o development as a high class residen tial subdivision. It is the intention of the present owners, The Brevar BITTEN BY RABID CAT Development Corporation, to ex pend half a million dollars in promoting this development, making of it an ideal site for home builders.

Contracts have been let for grading all streets, actual work of which is now in progress. All streetthroughout the estates are to be surfaced, sidewalks laid, lake built and the street from the city limits of Brevard leading into the development also surfaced. A six-inch water main will be installed with by drants for fire protection. All con struction work will be pushed through to completion as rapidly as is consistent with best results.

The present owners purchased this property less than a year ago at a consideration around \$75,000. When the first sections were put on the market some four months ago the rapid sales far exceeded the highest expectations of even the most sanguine. Within fifteen days \$175,000 of Montclove home sites were sold without publicity. A \$10,000 publicity campaign for Montclove and this immediate section is planned by the owners.

Occupying some 125 acres of this property will be eventually an eighteen hole golf course, of which Brevard Development corporation, for all. Let us never forget the provided the former agreed to use Thy Love is for each of us.

No. 9

THE GREATNESS OF THE LOVE OF GOD

There is a story of a Scottish shepherd who was standing one day on the Chevrot hills, and endeavoring to explain to his little son The Greatness of the Love of God. Pointing north and south and east and west, he told him that the Lave of God was so vast that it reached to Scotland and England, across the North Sea, and over the Atlantic Ocean. After the lad had reflected in silence for a moment or two, her said one of those simple and won derful things by which it is given to children to perfect God's praise. "Then, father, we must be in the very middle of the Love of God." Both father and child were rigin! It is not enough to realize that God'
