BREVARD, NORTH CAROLINA, SEPTEMBER 23, 1926

No. 37

FARM NEWS

(By L. A. AMMON)

Henderson county has nothing on us when it comes to corn yields. The articles on poultry, by Prof. Glazener ought to be read, cut out and kept for future use. Good information from the field of action, and not from distant writers.

In examining the molasses made from cane stripped of leaves and cane not stripped of leaves, we were hard put for a decision as to just which way to do it. The stripped has some advantage in color and taste with some makers, and none with others, while the stripping costs very much.

Noting the general height of the ears of corn from the ground, in all parts of the county, I believe the distance from ground to ears will average seven feet. Farmers are suffering very much from back troubles due to reaching up so much. Ears will average around ten to twelve inches long which is an inch better than last year. Plenty of ears eighteen inches long.

The Extension officials are asking that all mountain Agents do their best to help the Western North Carolina Fair, as there will be no State fair. The fair starts on November ninth. The place is at the playgrounds on the Swananoa river, and one will not have to drive through Asheville to get to the fair. Let's plan on showing something at this fair, and help others as well as our selves.

The rye that was turned down, did actually get musty while on the road. Weather has not been drying enough. We better not rush shipments till the wet spell is over, and grain somewhat drier.

I notice an unusual good spirit among the rural school, this year. Hope it keeps up till next June.

Corn foddering is little over half done, and the last few days have seen much feed go into stack or barn.

Spent a day investigating the vinegar market. The wholesale men only wish to handle a nationally advertised brand, and refuse to talk buying of home made goods. Vinegar in quart containers is the most popular way of putting it up for sale to the trade.

One bushel of apples should make two gallons of cider at 40 cents per gallon—would not be bad money for our apples. The future would be promising to someone who would go into the making of vinegar in this section.

Sweet cider in pop bottles ought to sell at any drug store fountain, and the profits very good.

A number of poultrymen are seriously considering having their flocks tested, so they can sell hatching eggs. Price is twenty cents above Asheville market, but never less than fifty cents per dozen. The cost is ten cents per bird for test, with good poultry conditions to live up to.

Mrs. George W. Throads of Shelbyville, Ill., lost a valuable diamond ring at a picnic, and two days later her pet dog coughed it up.

N. C. STATE SQUAD TO TRAIN HERE IN '27

WOLFPACK PLEASSED WITH THIS LOCALITY

The N. C. State football squad, who left Saturday morning for Raleigh, after two weeks' training at Lake Sega, will return here for the fall training in 1927.

Coach Gus Tebell, in speaking of the training quarters at Sega and of this vicinity said, "In all probability we will be here next fall for our workout. The field at Lake Sega is an ideal place for practice; the climate here well adapted for hard work, in that the days are cool enough to allow for the full uniform, thus giving the boys a chance to become accustomed to the feel of their harness before entering into real play without becoming too warm. And all the boys seem well pleased with the surroundings."

The first game of the season to be played by the Wolfpack will be Friday of this week when they meet Elon college at Raleigh. Coach Tebell is not worried over the outcome of this game. On October ninth they play Clemson (S. C.) at Clemson. This game will probably be witnessed by a large crowd of Brevard spectators.

LOCAL RED CROSS AIDS STRICKEN AREA

Drive Is Started; \$500 Telegraphed At Once To Storm-Swept Fla.

Town And County Will Have Chance To Help

On receipt of a telegram from John Barton Payne, of the Red Cross headquarters in Washington, a meeting of the Transylvania chapter of Red Cross was called by chairman J. S. Silversteen, and an organization was perfected for the solicitation of subscriptions to assist the sufferers and destitute in the Florida disaster.

A motion was carried that \$500 be telegraphed immediately to the stricken area and a committee was appointed consisting of Hon. T. W. Whitmire, chairman for the business men, and Miss Martha Boswell, chairman for the ladies, who in turn appointed their captains and assistants, dividing the town and county into zones for each one to solicit help from each and every individual.

It is hoped that the people of Transylvania county in their usual generous manner will respond with open hearts to the appeal of the stricken ones. If for any reason any of the solicitors have not seen you, you may mail your subscription or donation to the Red Cross at Brevard, or you may leave it with Miss Annie Shipman at the Brevard Bank, who is one of the committee to receive donations.

We ask your help in the name of humanity.

J. S. SILVERSTEEN, Chairman.

ANTIOCH BAPTIST CHURCH TO CELEBRATE CENTENNIAL

Antioch Baptist church, Pickens county, S. C. will be one hundred years old on October 6th, 1926, and a Centennial celebration is being planned for the fifth Sunday in October. All ex-members, and especially all ministers who have ever supplied or preached at the church, have a special invitation to be with us on that date.

Services and dinner on the ground. Prominent speakers and song leaders will be with us.

— A. T. Winchester.
Sunset, S. C.,
Sept. 20, 1926.

NEWS MAILED FREE TO COUNTY SCHOOLS

ACTION APPROVED BY SUPT. HENDERSON

Beginning with this week's issue The News will be mailed free to every school in Transylvania county. This is being done in order to encourage the different schools to take more interest in publishing matters of interest pertaining to the schools and school work. The following letter of approval from Superintendent T. C. Henderson is given for consideration by the schools:

"The editors of Brevard News have informed me that they intend to send The News this year to every school in the county free of charge. I hope that this paper will be carefully read by those in the school in order that each school may keep in touch with the news and work in the other districts of the county. Every copy of the paper should be carefully preserved for future readings. Old files of the paper are often read with much interest.

"I would like to see each school furnish a News correspondent, giving an account of the important happenings in the district and work in the school in order to show that we appreciate the splendid publicity which the Brevard News proposes to give.

"An Honor Roll from the various schools of the county would be gladly published by the News and could be appropriately posted on the bulletin board for the inspection of the people.

T. C. HENDERSON,
Superintendent.

FEDERAL MEN CAPTURE TWO "BAD MEN" NEAR TRANSYLVANIA LINE

A posse of Federal officers, headed by Chief Deputy Marshall Bailey and accompanied by Prohibition Agent Owen captured Frank and Fred McCall, twins, just across the Transylvania line in Jackson county early Wednesday morning.

These men had been arrested two years past by a Federal agent on a count of manufacturing but made their escape and since had defied the law, avowing to kill the man who tried to arrest them, with special emphasis attached to the name of W. W. Owen.

The officers made their way to the home of the two boys at 4:30 Wednesday morning and demanded entrance, which was refused by the occupants, they telling the officers to come in at their peril, asserting that the use of high powered rifles and pistols would be used to block any attempt to arrest them.

However, the officers were not to be so easily scared off, as one of them put it, "After all night in the rain, we wanted what we went after." A log was used to batter down the door after persuasion had failed and the two men nabbed before gunplay could be started.

Three high powered rifles and two pistols were found in the home.

The two men will be tried at the November term of Federal court in Asheville, on charge of manufacturing.

RINGSIDE REPORT OF DEMPSEY TUNNEY FIGHT ON AIR AT WBT

The Associated Press report of the Dempsey-Tunney championship prize fight at Philadelphia Thursday, September 23, will be broadcast through Station WBT, Charlotte, 275 meters, by The Charlotte News. The News plans to take the air at 8:30 o'clock, 15 minutes before the fight is scheduled to start, so that owners of receiving sets may properly adjust their instruments.

REPUBLICANS START CAMPAIGN IN COUNTY

ISSUES ARE STRESSED BY THE CANDIDATES

The Republican campaign in the county was started off, last week with Kenneth Smathers, nominee for congress from this district speaking at different precinct of the county.

Smathers stressed the importance of high tariff, pointing out that during the present Republican administration better conditions throughout the country had existed than had been experienced during any normal period in the last score of years. He advocated non-participation in European affairs.

At the final speaking date of the week held at Rosman Saturday evening, several of the county candidate were present and announced their formal candidacy.

Lee R. Fisher, candidate for State Legislature, announced his platform for the campaign in which he stressed the importance of fairness in the re-valuation of the property, the importance of appointing non-rising men for the posts of highway commissioner and tax assessor, which latter appointment will be made at the next General Assembly.

BREVARD HIGH LOSES FIRST GAME TO PICKENS HIGH

Brevard High school eleven lost the first game of the season to Pickens high last Friday afternoon on the local grid, the final score being 39-0.

The run-away defeat is accounted for by reason of the fact that the local boys had had only three days practice and were not in form.

BROAD ST. PAVING IS NOW COMPLETE

SIDEWALK TO BE FINISHED AT EARLY DATE

The work of widening and repaving Broad street from Jordan street to the Rosman highway is now completed and forms one of Brevard's most attractive thoroughfares.

The street has been widened to 75 feet, including curb and gutter, and recovered with sheet asphalt, in conformity with the width and kind of paving now in evidence from the north extension of Broad street to Probatte avenue to the Rosman highway, a distance of four blocks. This South Broad street construction work involved an expenditure of \$22,000.

A concrete sidewalk on the east side of this street is now under construction and will be completed at an early date.

The street leading to the tannery is also included in the present paving program and construction work on same is completed.

The hard surfacing of these two important streets practically completes the 1925-26 paving program for Brevard, which includes around six miles of paved streets and nine miles of concrete sidewalks. This work was made possible by the town's \$550,000 bond issue.

NOTICE TO PROPERTY OWNERS BY THE MAYOR

This is the last call for owners and tenants to clean up back of stores, vacant lots, etc. We will give you till the first day of October to have this done. After that date those who fail to comply with the above request will be handled as the law provides.
T. W. WHITMIRE, Mayor
THOS. J. SUMMEY, City Health Officer.

PETERSON BAKERY OPENS FOR BUSINESS THIS WEEK

Peterson bakery, under the management of W. J. Peterson, formerly of Asheville, opened for business this week in the new Stokes building on Main street. A fresh supply of bread, cake, pies and pastries will be on sale at all times. It is the intention of the management to operate a cafeteria later in connection with the bakery.

LOCAL B. & L. OPENS THIRTY-SIXTH SERIES

DURING 17 YEARS OF SERVICE HAS LOANED \$370,000

The Brevard Building & Loan association opened its 36th series on Saturday, September 20th, having been in operation since 1909, and a decided increase in business is noted over previous years. Since the opening of the new series, 200 shares have been taken out, there being a total of 3,500 shares in the different series. The association is comprised of 235 stockholders.

The organization is experiencing an encouraging and steady growth from year to year and is now recognized as one of Brevard's important assets. During the 17 years of its service to the community, the association has loaned \$370,000 to the people of the town and county and has built and improved 270 homes in Transylvania county.

Since January first the association has loaned \$45,000 and has built and helped improve 20 homes, which is but another proof of the growth of the town and county and shows the part the local association is taking in this growth.

In 1915 the association listed its assets as \$44,700, and the audit at the beginning of the year showed assets of \$156,998, representing an increase of \$112,298 during the 10 year period. The assets at the present time are estimated at \$179,375.

Many of Brevard's attractive homes have thus been made possible through the activities of this association, which has been a great factor in the beautifying and up-building program of the town.

Thos. H. Shipman is president of the association, J. M. Allison is vice-president, and Mrs. H. E. Perkins is secretary-treasurer. The board of directors is composed of W. M. Henry, J. H. Tinsley, S. M. Macfie, C. C. Yongue, R. W. Everett, J. M. Allison and T. H. Shipman.

CAMP FOR JEWISH GIRLS TO OPEN NEAR BREVARD NEXT SUMMER

Camp Perryann, a camp to be operated exclusively for Jewish girls, will open here next summer, under the directorship and ownership of Mrs. Luther Pushell. The camp site will be the beautiful location, formerly occupied by Brevard camp for girls, two and one-half miles from Brevard near Glen Cannon Falls.

The camp will be open at the beginning of the regular camping season in July and will continue in session for the two months. Ample accommodations will be provided for 75 girls, from the ages of 10 to 18 years. Efficient counselors will comprise the staff, all to be trained workers in the various activities of camp life.

The present camp will be remodeled and enlarged to meet the demands of a first class, modern camp for girls. The formerly used tent structures will be replaced by com-

REDUCTION MADE IN TEXT BOOK PRICES

NINE BOOKS USED LOCALLY IN PRICE CUT

A letter from the State Superintendent, A. T. Allen, informs me that the State Department of Education has secured a reduction in the price of certain textbooks for our Elementary School, and that The North Carolina School Book Depository has notified all dealers and local depositories of the reduced prices secured.

The following is a list of the books on which the reductions have been made and the prices at which they will be sold:

Elementary Community Civics \$1.03
Essentials of Geography:
Book I \$1.21
Book II \$1.70
First Book in United States
History \$.74
Child World Readers:
Primer \$.40
First Reader \$.45
Second Reader \$.50
Third Reader \$.55
Progressive Music Series:
One Book Course \$.68

Parents will take note of these reduced prices and be governed accordingly in their future purchases of these books.

T. C. HENDERSON,
County Superintendent.

HILL ON CALDWELL STREET BEING LEVELLED TO PLANE

The property on Caldwell street formerly owned by P. S. King, which is at a considerable elevation above the street, is being leveled to the street elevation by means of a steam shovel. The dirt thus removed is being used to fill in and widen the new North Broad Street extension.

THE PRAYER CORNER

THE PREPARATION OF THE GOSPEL OF FAITH
The Shield of Faith

Read Ephesians 6.

The Christian must put on his feet the preparation of The Gospel of Peace. The soldier needs strong shoes for rough roads. The Christian needs good shoes too, for much of the way is hard and steep. There is an old Bible word about shoes of iron which God promises to give to His pilgrims when they have to walk over sharp roads.

There is a beautiful legend of Jesus which says that one day, when He was walking by the sea, being weary, He took off his sandals to bathe His feet in the pure cool water. Then He murmured to Himself, "Three years, three years, and then poor feet, the cruel nails will come and make you bleed. But that blood will save all weary feet in their painful way." Christ's feet bled and were hurt on the hard, and with the nails, that we might have shoes to wear in lifes rough paths.

But all this preparation will be useless unless we take the Shield of Faith, wherewith to quench all the fiery darts of the Evil One. The ancient shield was large enough to cover all the person, and it was made so that darts striking it would not go through it.

Faith is the Christians shield. The Evil One is always trying to wound us with his darts. These are oft times poisoned, or they are fiery—lives temptations are terrible, but if we are truly in Christ, none of these darts can touch us—they will be quenched in the shield we carry.

A Prayer for The Preparation of the Gospel of Peace, and The Shield Of Faith

O Thou Almighty Protecting God, help us to shod our feet with The Preparation of The Gospel of Peace, for there are rough roads, much of our way is hard and steep, and oft times we have to walk over sharp roads. Give us, Thy pilgrims, shoes of iron that we may walk over them unwounded. Show us that the shoes with which we are shod means a ready mind to do good. Such readiness befits Thy servants, O Christ, who have heard the message of Salvation and are sent to proclaim it everywhere. Teach us that our feet are guarded against amputation when we are diligent in bringing other souls to Christ, when we help with means and prayers in all good works; that those feet are blessed that run readily to accomplish an errand of love. Expedition belongs to our shoes, we are so shod that we may move with alertness over all sorts of ground.

Above all enable us to take The Shield of Faith, wherewith we shall be able to quench all the fiery darts of the Evil One. God has spoken, we believe Him. Faith is our shield. We trust Him, and this preserves us from excessive distress or doubt. We turn our shield against all assaults of the enemy, whether he attacks our life or our peace. No shaft of malice, no arrow of fear, can pierce the soul that holds such a shield.

Help us, O Lord, to use our shield of Faith skillfully, and always have it ready against temptation. So shall we be able to stand against the stratagems of the Evil One. And this we ask for Thy sake, O Jesus, our Lord and Saviour, Amen.

—C. D. C.

F. H. HOLDEN HOLDS BANNER SINGLE STALK CORN RECORD

F. H. Holden, of Pisgah Forest, reports to this office, that he is not boasting anything that he cannot show again, but that he has the Henderson County corn man beaten a mile. Instead of eleven ears of corn from four stalks, he has and can get twelve ears from three stalks.

This field of corn was planted late for feeding the camps at the latter end of their stay, and Mr. Holden claims he sold one dozen roasting ears from three stalks for twenty-five cents per dozen.

Mr. Holden challenges any man of the county to a test as to who can get the most shelled corn from three or four stalks of corn. The variety is Hastings. Will you try him fellows?
