

### CROP PROSPECTS GOOD IN COUNTY

(Continued from front page)

Increased acreage, which is not much after all, when so small an acreage is cleared. Much attention is being paid to making more per acre, and many men in that section can tell you of how their fields are increasing in yield. Clover and high grade fertilizers, with better use of manure is doing the work. See Willbanks for corn, same with Leo Case. Baybe Mr. Raines will challenge you to come up and see his place, and you will find the best farming and crops. Zeb Owen, just starting, is not to be left out, and just where to stop is hard to tell.

Oakland has its usual crops, and looking ahead to better conditions, as the road is finished and things take on life.

Sapphire reports things doing out there, and Mr. K. C. Parsons is trying some new things.

Namur section sends in some good reports, and earlier crops were ahead of any, but that made the frost do the more damage. A good spirit among a people so far from the centers of travel. This section is strong on the live-at-home kind of farming, and you will find them growing about all they need.

East Fork section shows new land in crops, and considerable acreage above three years ago. They are coming back. One of the county's best pieces of clover is over there, and I have an idea that some of its best mountain corn will be found as usual about Mr. W. C. Gravelly's and the Gillespies.

Cedar Mountain section shows an increase in potatoes, and them looking good. Mr. Snyder of Piedmont camp, is trying the trucking game.

Gloucester one and two at last last showed more acreage, and land in good shape; corn starting off well. Good stand, and all crops good for the season.

The county as a whole has a good stand of corn, potatoes, beans, and most every crop. Insects are the only thing that is in the way of a good crop for 1927.

### FACTS DEALT WITH AT KIWANIS MEET

(Continued from front page)

and as good treatment in the Brevard stores as anywhere in the world, and that this impression would establish the tourist business in such manner that nothing could shake it.

Mr. Thos. H. Shipman was then introduced and spoke of the financial condition of the city and county. Mr. Shipman stated that the tourist business is splendid and continues to grow all the while, but on account of the tremendous amount of money that has been spent on improvements in the city and county that it would be absolutely necessary to increase the income of this section through the establishment and operation of more industries. The speaker gave as his opinion that the proposed creamery, which it is expected will soon be in operation, and the sugar beet industry, when secured, will solve the problems of Transylvania county for all time to come. These two particular industries, Mr. Shipman pointed out, are the most far-reaching of any kind of industries that could be established here. The creamery scatters money regularly to every point in the county, where people will keep cows and sell their cream to the plant. The sugar beet industry would be especially fine for the farmers, in that it would keep the farmers busy growing the beet, while a large number of men would be given employment in the \$750,000 refinery that goes along with the industry.

Several of the guests were then called upon for talks and some responded, pledging their full cooperation to any program or any movement that has for its purpose the advancement of the business interests of Transylvania county.

Miss Jeannette Talley struck a popular chord when she urged that the season be made longer and that the people of this section make the visits of the tourists so interesting that they will remain through September and up into October, pointing out that these months are really the most attractive period of the year here.

Mrs. W. H. Duckworth responded in pledging her support to any progressive program made for the interests of the town and county.

Mr. S. P. Hammatt, manager of the Franklin hotel, was present as the guest of W. H. Alexander, and was given much applause when he told of the improvements made on the Franklin and of how he hoped that he would be permitted to cooperate with Brevard and Transylvania county, and of how earnestly he desired the cooperation of the local people in the operation of the hotel. Mr. Hammatt invited the Kiwanis club to visit the "house-warming" at the Franklin Hotel on Monday evening, June 20.

**WEALTH OF NATION IS MEN: SCHOOLS OF SOUTH TRAIN LEADERS FOR THE FUTURE**

Atlanta, Ga., June 14.—Progress made by the states of the South in providing school facilities for the training of the leaders of the future is brought to the attention of the entire country by the Southern Railway System in the ninth of a series of advertisements which is appearing in national newspapers. The advertisement is as follows: "The wealth of a nation is men—not silk and cotton, and gold. Such is the spirit of the South."

A senator declared that "let sessions of Congress involve an enormous waste of public money. But what of the long ones?"

### Junior Order Brands Rumors Being Circulated In the County as False

Juniors over the county come to the front with the statement that their order is in better standing, financially and in number of membership and benefits than ever before, in refutation of a rumor, which is said by them to be circulating to the effect that the order is in bad standing.

A statement of the situation follows:

Brevard, N. C., June 13, 1927.

To The Juniors and the Public of Transylvania County:

It has come to our attention that reports are being circulated that the insurance feature of the Jr. O. U. A. M. has been eliminated from the order and that any good citizen wishing to unite with our great and good organization would not be protected by the insurance features. We beg to brand this as false, and give you below, letter from our State Councilor, Bro. C. W. Snyder, of Winston-Salem, N. C.

And beg to say we welcome all 100 per cent red blooded Americans to unite with us in our efforts to accomplish all that is good and right,

and by so doing we will have a better County and State in which to live.

Fraternally,  
P. H. GALLOWAY,  
W. A. LYDAY,  
C. C. GANTRELL,  
Committee.  
Transylvania Council No. 376,  
Jr. O. U. A. M.

Excerpts from the letter from State Councilor follows:

The special action of the National Council at Chattanooga was for the purpose of allowing any Council not already enrolled in the Funeral Benefit Department to do so regardless of the age or condition of the health of its members, also to allow a Council in Class "A" for \$250.00 to transfer to Class "B" for \$500.00.

This action does not effect the standing of any Council in North Carolina, and you will continue to enroll your member just the same as you have in the past, and all death claims will be paid in the usual prompt way, and I sincerely hope that you will make an effort to enroll as many as possible before June 30th. If every Council will do this and hold the members they now have, we would be able to report a splendid gain for this year.

The annual report of the Funeral Benefit Department shows that this Department is in excellent condition, and has assets of nearly three million dollars, and that 2,750 claims, amounting to one and one quarter million dollars were paid by the Funeral Benefit Department during 1926.

I would also like to call the attention of our membership to the splendid condition of the Beneficiary Degree, which shows assets of more than three million dollars. Some of the best forms of insurance available are offered to our members through this department of our Order. The policies carry all the modern features, including double indemnity, total disability, cash values, etc.

I would like to urge our members to enroll in the Beneficiary Degree and thus give their families this additional protection.

C. W. SNYDER, State Councilor.  
Winston-Salem, N. C., June 8, 1927.

Fifty dollars in prizes will go to the best three hog callers at the State Farmers' Convention this year. The convention dates are July 26, 27 and 28.

### CITY TAX LIMIT NEARING ITS END

For the convenience of Brevard tax payers, the City Fathers extended the time of paying the 1926 taxes until the last day of June, which time will be the final extension limit.

An advertisement concerning this notification signed by City Tax Collector Harry Patton may be found in another section of this issue of The Brevard News.

### HYDER & GARRETT MOVE TO MAIN ST.

C. R. Hyder of the electrical supplies concern and R. U. Garrett, electrical contractor, have moved their place of business from the former location on News Arcade to the King building formerly occupied by Simpson Barber shop, on Main street.

These young business men, who recently moved to Brevard, felt that their increased business forced them to secure larger quarters and a more convenient location, in order that they may be enabled to carry a larger stock of electrical supplies. An advertisement of this concern appears in the advertising columns of this issue of The Brevard News.

### MANY COMMUNITIES ARE COMING OUT OF THE MUD

(Industrial News Bureau)

One of the chief benefits the farmer derives from really good roads is that of being able to move his farm products to market over them, quickly, cheaply and without inconvenience. The farmer's crops are his stock in trade. If he can market them without delay when the price is up, he is the gainer; if, because of bad roads, he is unable to get his products to market until after the price has declined, he loses.

In the old days when roads were good only in good weather, the

farmer could do little satisfactory marketing. He was forced to take a chance on getting his products to the buyer on a rising market.

One decided advantage in good roads is that they encourage the use of motor vehicles by the farmer, effecting a saving in time and worry in moving his crops, and in getting his family to church and children to school.

### Brevard's Social and Thoroughly Restricted Residential Section

## AS IN ALL CITIES---IT HOLDS TRUE IN BREVARD

In every city in the country---the choice Residential Section---is that district which enjoys an air of refinement and exclusiveness produced only by the features of a Country Club and Golf Course. Brevard people have already sensed this fact as is proven by their early purchase of hometracts.

At the Country Club, on the Golf Course, the best, meet the best. There, one finds an atmosphere that's different---that's pleasing in its assurance of well guarded surroundings.

Wherever one finds a Golf Course---there you will find good homes and splendid people. And Brevard is not unlike other cities, for Montclove on the Links, has already won its way into the hearts of the folks---and its place in the homelife of Brevard.

Let us tell you more---better still, let us SHOW you Montclove.
