P.-T. ASSOCIATION IN BIG MEETING

a meeting of the Payent-Teacher a ration of the city itigh School hald Monday afternoon, with a raid attendance, representing the rural and city districts.

the program was carried out in a pirit of earnestness and a feeling spirit of earnestness and a teeling that made a deep impression on those sent. Mrs. Lawrence, in her own tasing manner, brought a message "The Spirit of the Season" from the topic "Let this mind be in you which was also in Christ Jesus."

This was followed by an instrumental any disses Robertson and Call.

which was well rendered and very ich enjoyed.

Mr. Jones then gave the most imwant message of the afternoon on what can the P-T-A do this year to telp the school most." He listed t ar very insportant things a cessary the success in the senool life-in-t spirit of willingness toward work; coral, a definite time and amount study-at least 2 hours per day; third, prompt attendance; fourth, the teaching of self control to be-th at home; fifth, a real cooperation on at home; fifth, a real cooperation between the parents and cachers in all work of the school. Mr. Jones began his remarks by saying that his appeal for the nid of the parents this year could not be paid in dollars and cents, for there was something more needed and of higher value than money, and listed the above five important needs just now of the school children.

of the school children.

After the election of Mrs. John Maxwell as president of the organization for the coming year, the meeting adjourned with the Lord's

AN UNJUST CRITICISM

Editor The Brevard News: Someone recently remarked that if the matter of our poor were left up to the Associated Charities, that the people would starve before the Associated Charities would give them

As we understand it the Associat-As we understand it the Association of that the poor of our community could be properly cared for. There are poor families who are really not in need of charity and yet who are continually calling for help. Then too, there are those who are in need of help and at the same time need advice as how to best use what help may be given. For this reason the Associated Charities was organized. Associated Charities was organized.

The associated Charities appointed a committee to investgate every case that made an appeal in order that a committee to investgate every case that made an appeal in order that charity aid may as far as possible be equally divided. Those in charge of this work have been trying to do this very thing, and yet while those in charge of the work are looking into a case we discover that possibly a whole group of people have already given aid to this particular family, without even finding out their real need. There is no real objection to these folks living on the fat of the land for two or three days, but it is difficult to ask sane business men to help the poor through the Charities when everybody is trying to do to help the poor through the Charities when everybody is trying to do charity work just any old way. All people are not honest and all calls for charity are not honest, and when people act on sentiment when a call for help comes in we are not always doing the best for the poor.

The Associated Charities has had less than \$250.00 to spend this winter and of course we have had to be careful about spending money every time someone sheds a false tear about their poverty.
