ROSMAN BOASTS ANOTHER GENIUS

Recently, Mr. J. H. Conner has invented and had patented a new burner that may be attached to any ordinary cook or heating stove. The new burner will use either fuel oil or kerosene, and will, it is estimated, cost about 18 cents per day for the average home to do either their cooking or heating. He will have one here for demonstration purposes in the near future.

PROCLAIMING JESUS' BIRTH

The stars of Heaven twinkled bright, In the stillness of the night, While the darkness hovered over all the earth;

There appeared a brilliant star, and its brightness shone a-far, Proclaiming Jesus' birth.

The angels sweetly singing there, in the Heavens bright and fair, Told the wise men how that peace had come to earth;

As they shouted loud and clear, and was heard both far and near, Proclaiming Jesus' birth.

The shepherds heard the angels sing, of the holy new-born King, As they sang the glad new message "Peace on earth— Unto you a Saviour's given, He'll prepare your souls for Heav'n," Proclaiming Jesus' birth.

The wise-men gladly went to seek, in the quietness of the meek, And they found the Saviour one of precious worth; Yes, they gave him gifts of gold, and the story sweetly told, Proclaiming Jesus' birth.
