### NEWSPAPERS UNFAIR IN SMITH CAMPAIGN.

North Carolina newspapers, as a whole; have been most unfair in the campaign just ended, insofar as the eandidacy of Governor Smith is concerned, We're speaking now both of the papers that supported Smith and those opposing him. The newspapers supporting the Smith candidacy have made of the New York governor a perfect god of virtue and strength, man without a fault or a flaw, bigger by far than any other human being in the party. Things presented as being against Smith were turned into the finest kinds of assets by the Smith newspapers. All other candidates for the nomination were pigmies, in the estimation of Smith papers, and not worthy to lace the boot of the New York governor.

Then the newspapers opposing Smith, The Brevard News included, were just as blind and unreasonable in their opposition to Smith as were the papers supporting him in their fulsome praise. Anti-Smith papers could see no good whatever in Smith nor in anything the man has ever done, either as a public official or us a private citizen. It has been - Smith," and everything that would damn a man has been presented to the public through the columns of the anti-Smith papers.

Just why this is the case is beyond our understanding, unless it is due to the fact that Mr. Smith is one of those rare human beings whose magnetic personality is such that he has no half-way friends or passive enemies—men are either for him or they are against him. If they are for him, they are for him all the way, for the traction of the common potato bug or Colorado here.
