MASONIC LODGE DOING MUCH WORK

Many Masons of Brevard enjoyed an unusual meeting last Friday evening, when rehearsal of the Master Mason's Degree was had. There is much work to be done in the Lodge, in the several degrees, and all members who would aid in giving the degrees to new members are urged to attend the meetings and assist in the work. Another rehearsal of the Master's Degree will be had this (Thursday) evening, and members who desire places on the team are asked to be present.
The lecturer from the Grand Lodge State will be here within a short time to give instructions, and in order that he may find the Masons of Transylvania county well up on the work, two team captains have been named for the purpose of dividing the membership into two squads, and these squads will give diligent study to the work before the arrival of the lecturer. The "side" that is declared by the lecturer to be the most proficient in Masonry will be guests of the other "side" at a dinner.
Unusual interest is being shown in the work here, and the few members who are not attending the meetings are really missing something of great importance.

given him by the hostesses. After delightful refreshments were served, the thirty-five or more guests departed wishing the host many more happy birthdays.
Miss Cora Bell Orr, of Brevard, spent Saturday night with Miss Ruby Bagwell.
Miss Myrtle Raines has been on the sick list.
Miss Bertha Masters visited Miss Azilee Baker Monday evening.
Mr. Teddy Jennings visited his grandparents, Mr. and Mrs. F. P. Tinsley, Friday night.
Talk about your good roads and about us being so far behind if you want to. East Fork—we're just about up with you now. Mr. Elmer Gillespie got stuck near the river bridge and had to be pulled out by Mr. Baker last Saturday. That shows that East Fork isn't used to those kind of roads (the kind that come in contact with the axle every time the gas is stepped on). Look out, or we'll be up with East Fork. The roads are so bad that the school bus barely creeps through their complicated composition. Looks like we will have to take to horseback riding, as they did "in the good old times."
