

ROSEN WHOLESALE PRODUCE CO.

At 86 North Lexington Avenue in Asheville is a well known and reliable firm that pays the top of the market for produce at all times. Get in touch with them and take advantage of their service and prices.

To aid in building any city or community it is necessary that the various concerns of that city provide adequate outlet for the products of the section affected. Diversified farming plays a great part in the prosperity of any community and the Rosen Wholesale Produce Company has boosted and aided the farmer in every way possible. Here is a market available where the producer may dispose of produce to the best advantage which means a real service to the whole community. Top market prices are paid and the producer gets more than if he shipped elsewhere.

To be successful the farmers must

The offices of this concern is located in the Flat Iron Building in Asheville.

Contractors, builders and the general public have come to know that this is a firm upon which they can depend to secure the best in sand and gravel, hence they turn over the supplying of their needs to this progressive firm.

In the past few years this part of the country has been greatly benefited by the building of roads, highways, public and domestic buildings. In each of these projects whether extensive or on a very small scale, in each one sand or gravel plays a very important part.

For instance what would cement concrete blocks or any of the various building products do without a basis of sand. Consequently more and more the various business concerns and public have come to depend upon this enterprising firm.

be alive to the possibilities of scientific methods. Poultry is recognized as one of the greatest money makers on any farm. The fact that there is a market that offers the highest possible prices so close is causing local farmers to pay more attention to this mode of farming than in the past.

At the Rosen Wholesale Produce Company the producer is met with courtesy, for everyone connected with the establishment is conscientious in his efforts to render real service. Our readers who have produce to dispose of will do well to get in touch with them and take advantage of their service.

This concern is under the direction of a conscientious and competent business man and he has associated with him such assistants as he can depend upon to render the most courteous service.

As to service, in this section particularly people have noticed that first, that they insist that their service is dependable. You know that you are going to get the best there is for the money and that prompt and courteous service goes with it because past experience has taught you they will leave nothing undone in their effort to provide you enough sand or gravel to meet your demands at a reasonable figure.

In appreciation of the inestimable value of the location of this establishment here the people are loyal in their support of this institution which attracts thousands of dollars annually to this community.

This in part accounts for their successful business career. The rapidly increasing demand for their products throughout the country is being met here easily as their years of experience coupled with the practical knowledge has won for them a well merited increasing patronage.

East Fork News

Rev. and Mrs. Eli Simpson spent Sunday with Mrs. Simpson's parents, Mr. and Mrs. H. E. Whitmire.

Miss Marian Henderson was a dinner guest of Miss Fannie Reynolds, Sunday.

Misses Kate and Mary Gillespie spent the week-end with their parents, Mr. and Mrs. B. A. Gillespie.

Mr. Underwood of Canton, is spending some time at the home of his daughter, Mrs. W. C. Gravelly.

Quite a number of folks were disappointed Sunday afternoon when Rev. Cleveland Reese failed to come to East Fork to fill an appointment at the Baptist church.

For the last few days we've noticed quite a change in a few streaks of our roads, due we suppose, to the fact that the state has taken over our roads, and thanks to the folks who are hauling evergreens from this section. These men use a scraper on the roads they haul over.

J. A. Gillespie left Sunday for Asheville where he will spend some time.

Several members of Will Gravelly's family are reported ill with flu.

Why Selica, why the insinuations? When we first noticed that we'd been noticed by you we went in the air, mentally speaking, avoirdupois prohibiting any other mode. We're guessing that had we happened up with any of The News force there would have been a scrap. Why we were certain they had printed something we hadn't thought of writing; finally we found The Brevard News we had our last notes in and read the notes over and over, and failed to find where we had mentioned Mr. Barrett or had in any way thrown off on the county paper. We've said, and still say, we've got the finest county paper in the world. And we'd just like you to show us the person who hadn't rather read political news than items like the following:

"Mr. and Mrs. So and So visited the former's parents, Mr. and Mrs. So and So."—Miss So and So spent the week-end in So and So town."

"Mr. So and So called on Miss So and So," etc.—

So after considering from every point of view, we have decided that one of three things ails you—either to get an argument, just old-fashioned ignorance, or pure malice. Now we don't see where the subjects you mentioned call for argument and you couldn't be sore at yours truly, without cause; so we're forced to admit it must be the second mentioned.

Thanks, Mr. Editor, for making

us. We'd be delighted to write ever so often if anything interesting should happen.

14 FEEDS - IN EVERY THIMBLEFUL!

14 FEEDS...all in one tiny thimbleful. 14 good feeds which are there in just the right proportion. There's the story of a real chick starting feed...Purina Startena Chow. A real story because one thimbleful of feed is all one chick can put into its little crop in one day.

Out of this tiny thimbleful a chick must get so much. That's why the 14 different feeds are there. Cod-liver oil...dried buttermilk...alfalfa flour...granulated meat...wheat germ meal...linseed meal...these and eight other feeds are in every thimbleful of Purina Startena Chow...each one with a real job to do. Mixed over and over...960 times...every thimbleful alike.

The 1930 national feed survey of 1,834,513 chicks tells you the kind of a job these thimblefuls do. At six weeks of age, 92 out of every 100 Purina-fed chicks are alive and growing. And they weigh an average of one-fourth of a pound more than other chicks. There's the story for you! The proof that the 14 feeds in Purina Startena Chow (mash or all-mash) actually give a chick the many, many things it must get from a thimbleful of feed. Purina Startena Chow is here...ready for you to feed. Call or drop in on us in your first spare moment.
