SINGING AT ROSMAN

Editor The Brevard News:

It has already been proven by the cooperation that many of our people in the upper part of the county are well pleased with the Junior Singing Convention.

I feel sure that each church represented in this organization will receive much good from it, through the improvement of the choirs now being trained. I wish to thank those who came from Carrs Hill and other places to be with us on last Sunday evening, but who were delayed on account of rain. We want you to come again.

The Singing Convention was real fine, and greatly enjoyed by all that were present. We are sorry that the class at Toxaway couldn't be with us—but under the circumstances we are glad to excuse them, and hope to meet each one at Toxaway Baptist church the first Sunday in July filled with a singing spirit.

I wish to say that all classes, quartet, trio, duet, or solo singers are especially invited to attend this convention at any time that you wish to do so. You are always welcome and we ask you to please let yourself be known when you are present, so that the president will not overlook you and fail to give you a chance to sing. Our motto is to treat others just as we would have them treat us.

I have in store for the people who attend the convention at Lake Toxaway the first Sunday evening, a real treat that is worthwhile. Don't fail to come and bring your class with you.

E. D. RANDOLPH.

Place your finger on your Adam's Apple. You are actually touching your larynx—this is your voice box—it contains your vocal chords. When you consider your Adam's Apple, you are considering your throat—your vocal chords.

What is the effect of modern Ultra Violet Rays upon tobacco? Dr. E. E. Free, one of America's well-known scientists, who was retained by us to study Lucky Strike's manufacturing process, addressing the Illuminating Engineering Society, said:

"The essential effect of the Ultra Violet is the production of better tobacco and of cigarettes regarded by virtually all smokers who have tested them as milder and with a lesser tendency to cause throat irritation."

Here in America LUCKY STRIKE is the only cigarette that employs Ultra Violet Rays in connection with its exclusive "TOASTING" Process—the only cigarette that brings you the benefits of the exclusive "TOASTING" Process which expels certain harsh irritants present in all raw tobaccos.
