

## POLITICAL POT IN RALEIGH CONTINUES TO SIMMER WITH BIG AND LITTLE FRY IN STEW

Raleigh, July 28.—In only four of the 11 elective State offices to be filled at the next election, one constitutional and three statutory, has there been no talk of candidates to oppose the incumbents, and prediction is made that not all of the four, possibly none of them, will have opposition. All of the other seven, in the present light, will have to enter the primary.

Captain Nathan O'Berry, State Treasurer, if he stands for re-election, is not expected to be opposed. He has the support of all elements and no candidate could hope to make headway against him. If he should decide not to seek the office again, it would let down the bars to a flock of candidates.

Nor is there likely to be opposition to Dan C. Boney, Insurance Commissioner. His record of ability and efficiency for about four years now is expected to bear the closest scrutiny. And it is not likely that Dr. A. T. Allen will be opposed as State Superintendent of Public Instruction. So far there has been no intimation of a contender. These two officials appear safe from opposition. In fact, there was not the slightest suggestion of an attack on either in the recent Legislative session which started assaults on all other elective offices with the "short ballot". They alone appeared immune.

Just what will happen to Stanley Winborne, who comes up for election for a six-year term as member of the Corporation Commission, is problematical. Mr. Winborne is a Gardner appointee, although he was placed in position in the fight on the Banking Division as opposing his chief. He sided with the other two members in attempting to keep this division with the commission; whereas, Governor Gardner was fighting for a separate Banking Department. Whether this fight has alienated the Gardner support remains to be seen.

## BRUMMITT IS AFTER N. C. OIL COMPANIES

Raleigh, N. C. July 28.—Attorney General Dennis G. Brummitt this week conducted an important investigation into the operation of the major oil companies operating in North Carolina.

Mr. Brummitt in recent weeks had received numerous complaints that the various companies were operating in violation of the state laws against illegal combinations, and that contracts they were making with filling station operators required exclusive use of the stations, also contrary to law.

So important to the people of North Carolina did Mr. Brummitt consider this matter, that he took personal charge of the investigation, and conducted it throughout. While he emphasized that the state has no right to set the price of any product, he pointed out that it does have the right to protect the trade channels of the state in such a manner that throttling of competition is eliminated.

Mr. Brummitt believes however that the business men of the state who operate small filling stations have a right to be protected from any encroachment of their right to sell whatsoever products they desire; and he also feels that any attempt, or what appears to be an attempt, to establish a monopoly in favor of some oil companies must be guarded against because of its eventual evil effect on the people as a whole, who have to pay the gasoline bills. This is something, he thinks, which is important to every citizen of the state, whether living in the cities or on the farms, because most of them drive automobiles.

The various contracts of the companies were explained. It was admitted that under certain leasing conditions competitive products are barred, but all of the companies have alternative contracts for those filling station operators who do not care to lease their stations.

Mr. Brummitt will study the evidence during the next six weeks and will announce his decision September first. If any violation of the laws are discovered, they will be revealed, and the companies held guilty will be vigorously prosecuted in the interests of the people of the state.

Peculiar job, the iceman's,  
Odd things about it is,  
The more he gets cold-shouldered  
The better for his biz.

"Tell me, my dear, how do you manage to get the maid up so early in the morn'?"  
"It was rather clever of me. I introduced her to the milkman."

See America First  
"How was the scenery on your trip?"  
"It ran largely to tooth-paste and smoking-tobacco."

# Only TRUTHFUL TIRE ADVERTISING WINS!

When we advertised the fact that Firestone was furnishing us complete lines of Firestone Gum-Dipped Tires that not only met the price but beat the quality and construction of every grade of special brand tires sold by mail order houses and others, the mail order houses made vigorous protests to Better Business Bureaus and made demands upon newspapers not to accept Firestone or our advertising.

We cannot blame them for they did not want car owners to know that they could get, at no more cost, a better tire made by a leading manufacturer, bearing his name and guarantee plus our guarantee and our service.

When car owners awakened to this fact, they came to us, compared the sections we had cut from Firestone Tires and special brand mail order tires, and were astounded at the Extra Values we were giving.

As a result, our business and that of other Firestone Dealers throughout the country, increased so fast that it has been necessary for Firestone to run their factories twenty-four hours a day and Firestone sold more tires in April, May and June than in any like period in the history of the company.

In our advertising we do not make comparisons involving laboratory tests which you cannot verify except in a laboratory—neither do we make comparisons of construction or price based on misleading classifications such as first line tire, second line tire, or third line tire—we do not make comparisons to confuse and mislead you as to actual values and service—We only make statements and comparisons that you can verify for yourself in our store before you purchase the tire.

Come in today and get the greater safety, extra quality and extra values found only in Firestone Tires.

\*When the National Better Business Bureaus realized that their Bulletin No. 634 was being taken advantage of by some advertisers they issued a Bulletin dated July 10th as follows:

"In our Bulletin No. 634 entitled 'Definitions of Terms Used in the Tire Industry' we published definitions of First Line—Second Line—Third Line—Heavy Duty and Super Heavy Duty Tires.

"Our definition pointed out, 'Although each manufacturer's or distributor's first line tire may represent his best standard size 4 or 6 ply tire, there is not necessarily any equality of competitive first line tires as to materials, workmanship or price.' This interpretation also applies to all lines of tires.

"We therefore recommend that advertising to the consumer shall avoid the use of these terms for the purpose of comparing competitive products."

\*A "Special Brand" Tire is made by a manufacturer for distributors such as Mail Order houses, oil companies and others, under a name that does not identify the tire manufacturer to the public, usually because he builds his "best quality" tires under his own name. Firestone puts his name on every tire he makes.

Double Guarantee—Every tire manufactured by Firestone bears the name Firestone and carries Firestone's unlimited guarantee and ours. You are doubly protected.
