Carolina School Enrollment Shows Big Gain In 5 Years

RALEIGH, Aug. 26—Enrollment in which charter schools was 23, as compared with 14.4 per cent in high schools in rural sections. Only 2.5 per cent of rural negro enrollment was in high schools, and 14.7 per cent of enrollment in charter schools was in high schools.

High schools in the State numbered 913, of which 778 were for white and 135 for negro pupils. Accredited white high schools number 608, while 170 are unaccredited, and of the negro schools, 68 were accredited and 67 are not. The State has 4,904 high school teachers, 4,295 in the white and 609 in negro schools. In 1930 white graduates from high school numbered 13,457, while negro graduates numbered 1,887.

Transylvania county, the report shows, increased 140.3 per cent in which high schools number 608, while five-year period, or from 206 to 495. On the total enrollment, 20 per cent of the pupils were in high school, the county taking 9th place among the 100 counties. In 1930, this county graduated 59 white pupils from high school.

The percentage of high school pupils

DON'T be FOOLED by Tricky SALES TALK

DON'T be misled by challenges—guarantees—laboratory analyses—price comparisons—claims of 25% savings—made by distributors of special-brand tires.

A recent example of a grossly misleading and extravagant statement by a distributor of special-brand tires is—"Mount one of our tires on one wheel of your car and a tire of any other make on the opposite wheel. If our tire does not give you equal service at a saving up to 25% in price, we will give you a new tire free."

Firestone don't ask you to run test cars for them—they have twenty-nine test cars of their own, running day and night, on which they test Firestone Tires and other makes, including special-brand tires, and we have the proof of the safety, quality and extra values of Firestone Tires before you buy.

This statement can be made for only one purpose—a desperate effort to gain your confidence and sell you a tire before you have had time to think about the ridiculousness of their challenge, which asks you to buy one of their tires and go to another store and buy a tire—have it mounted on the opposite wheel—then turn yourself into a tire tester!

Drive in today—examine sections cut from Firestone Tires and special-brand mail-order tires—see for yourself the two extra plies under the tread which give you extra protection against punctures and blowouts—compare the construction and quality—don't be fooled by misleading advertisements. We will give you safer, more dependable tires at no greater costs.
