Wolverine Shell Horsehide
'FROZEN 56 HOURS'

...Yet Dried Out Soft and Pliable!

In an actual test, a Wolverine Shell Horsehide and a work shoe of another make were frozen in a cake of ice 56 hours. When the ice melted, the Wolverine Work Shoe dried out soft and pliable, while the other shoe was stiff and hard! That's the kind of leather we offer you in Wolverine Work Shoes. Come in and compare the many other Wolverine features of comfort and long wear—at prices that save you money in the long run.

Above shows the one-sixth of the hide which furnishes the leather for Wolverine Shell Horsehide. Note the shell that gives you many extra months of wear.
