

INSTITUTE WHIPS MARSHALL ELEVEN

Brevard Institute's Green Flashes defeated the Marshall football eleven Wednesday, November 18, by the score of 7-6 after a close tussle.

Both teams concentrated on passes and end runs throughout the game, very few plays being made through the line. Several superb punts were executed at crucial moments by Cohn, of Marshall, and Mitchell, of the institute eleven.

The Marshall outfit played a splendid game. This is their first season in football and only two men on the team have played the sport before this year.

M. A. Dumas, Green Flash fullback, caught the ball on a punt early in the first quarter and slipped through a broken field for 60 yards and a touchdown, by a series of excellent sidesteps and fast footwork. The B. I. boys made the extra point and the half ended 7-0.

Late in the fourth quarter, Cohn, visiting fullback, slipped around right end and raced up the field for nearly 70 yards and a touchdown. Marshall failed to make the extra point.

Dumas Mitchell, and Guthrie were stars for the Green Flashes while Cohn was outstanding for the Marshall eleven.

GARREN REUNION IS HELD AT SELICA

The initial reunion of the Garren Clan of Transylvania and Henderson counties was held at the home of Tom Garren of the Selica section of this county on last Sunday, Nov. 22nd, and there were present at this gathering some sixty-five to seventy-five members of the Garren family and their descendants, and also a large number of friends and non-relations. Most every section of Transylvania county was represented, and Boylston and Mills River section of Henderson county, as was also Pickens and Greenville counties of South Carolina.

Uncle Frank Garren, of Mills River section of Henderson county, one of the oldest members of the original Garren clan, was unable to attend this reunion on account of illness, and concerning his condition.

At one o'clock, p. m., out in the front yard of Mr. Garren's home, on a long table that had been previously prepared for the occasion, was spread a dinner the equal of which has seldom been seen in the Selica section, or any other section. There were too many good things there for me to undertake to describe or tell about. It was something that had to be tasted or eaten (not just seen) to be appreciated. And after all this through had eaten, as long as they could, there still remained enough for another crowd as large. Rev. Mr. Meese, of Pickens, S. C., offered the invocation, and at 2:00 p. m. he made a very forceful and instructive talk of about twenty minutes, using as a foundation for his remarks a part of the 27th verse of the First Chapter of the epistle by St. James: what constitutes "pure religion" and how we may recognize it.

Music for the occasion was furnished by a six-piece string band from Brevard. The music was enjoyed and appreciated by everybody.

The committee on arrangements reported that the next Garren reunion will be held at the home of Henry Barton of the Selica section on the 4th Sunday in August, 1932. The public is cordially invited to attend.

Recognition has been given Ed McCoy, Goodyear dealer, in the award of a beautiful art photograph of the U. S. S. Akron, world's largest airship, framed in duralumin, the material used in the framework structure of this leviathan of the air.

Mr. McCoy won the picture, which

is displayed in his service station window, for making his sales quota in the July-August sales contest for Goodyear dealers, known as the Dealers Annual Zeppelin sales race.

Mr. McCoy says it is one of the most worthwhile trophies of such a race, besides being a memento of this giant airship that will become increasingly valuable as time goes on, as an historical feature.

"I certainly prize the picture a great deal.

"The sales contest was of great value in helping me get the maximum amount of business this summer, and it put Goodyear tires on the cars of many people who did not know before what our service could do for them."

Mr. McCoy has been a Goodyear dealer in this county for seventeen years, and has won several contests waged by the Goodyear people.

We knew that this little old county was coming to the front, and that we would have a new bank, and a fine system of highways, and that business would gradually grow here until old-timers would hardly know the place. That is why we moved into our new and larger quarters, so Brevard might have the very best and most up-to-date eating place in the country. We've got just that place, so every one says.
