## ACID STOMACH

EXCESS acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. Harmless, and tasteless, and yet its action is quick. You will never rely on crude methods, once you learn how quickly this method acts. Be sure to get the genuine.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Anesthesia, a superior tooth-paste that safeguards against acid-mouth.

## APPROVAL GIVEN TO 143 SCHOOL BUDGETS

Raleigh, March 30.—The State Board of Equalization approved budgets of 143 county and special charter schools and directed that final checks be sent teachers for the last two weeks of the six months term, held up until they could be checked. About 50 others are yet to be checked, after which the final State installment of salary and expenses will be sent out.

Consolidations made last year have resulted satisfactorily and others will be made for next year, Secretary LeRoy Martin said. Some less than 400 schools were eliminated. Remaining are 700 white one-teacher schools and 150 two and three teacher-high

## GOVERNORS' FIGHT WAXING WARM NOW

### Mr. Maxwell's Methods Worry to His Politically Inclined Opponents.

Raleigh, March 30.—Some of the old-time heat is being generated in the gubernatorial fight, and from a source least expected, the calm, cold, stoic—heretofore—A. J. Maxwell, who threw out some hot shots in his Greensboro speech last week. He took up several questions on which all candidates agree, such as opposition to the "short ballot," and extravagance in government; and favoring removal of the 15-cent ad valorem tax for schools; the quadriennial assessment and the reduction of taxes generally. Mr. Maxwell called upon Mr. Fountain for a statement of his position on the State-operation road measure, and ridiculed his quoted statement that he would eliminate one office that of Executive Counsel at a salary of \$4,200 a year, Mr. Maxwell asserting that is one of the most important offices, in view of the increasing prison population in the State government.

Mr. Maxwell announced during the week that Robert Ruark, Raleigh lawyer since 1925, who practiced several years in Wilmington, would manage his campaign. Mr. Ehringhaus and his manager, Major L. P. McLendon, spent a part of last week in the piedmont, particularly in Charlotte. Mr. Ehringhaus made a vicious attack on those who would undermine the school system by penny, in speeches in Fayetteville and Gibson, Scotland county.

## REYNOLDS RAPS ON MORRISON A'PLENTY

### Big Aggregation Out to Hear Reynolds in His Raleigh Address.

Raleigh, March 30.—"Cap'n Bob" Reynolds swooped down from the mountains in a flying monster, not unlike a huge eagle, and with beak and talons tore into the status quo, particularly the prohibition law, the Republican party, the State's official family, the power and tobacco interests and particularly his opponent, Senator Cameron Morrison, in a manner characteristic of the fighting and colorful mountaineer.

He would change the liquor law, which "does not and never will" prohibit, from attempted prohibition to government control, take the tax off land and put it on liquor and thus eradicate the 40,000 bootleggers, rumrunners and racketeers, each of which he termed a saloon, in contrast to the 167 licensed saloons operating in North Carolina in 1907, before State-wide prohibition.

"Our Bob" ripped into Senator Morrison for approving the appointment of Frank R. McNinch, Charlotte to the Federal Power Commission, thus rewarding "a man with a \$10,000 job for treachery to his party" by heading the Anti-Smith campaign and helping to carry North Carolina for Hoover. He advised postponing balancing the budget until "we get a Democrat President on March 4," saying the Republicans would otherwise take credit and blame Democrats for the tax increases. He expressed favor for guarantee of bank deposits, payment in full of the service men's insurance policy and a return of \$5,000,000 a year to the State from the Federal taxes collected from North Carolina.

Reynolds is looked upon as Senator Morrison's most-to-be-feared opponent and is expected to take full advantage of the "wet" sentiment polls are showing exists in North Carolina to a degree hitherto not believed. Frank D. Grist and Thomas C. Bowie, also contestants, are busy in the bushe and on hustings.

**MOTHER**  
March 27, 1932

(By J. K. Henderson)

She lives in the light of her cherished love.  
For her Savior and friends, and all others.  
From her girlhood her goal is the gleam above:  
Her name is just Grandmother and Mother.

Her ninety-fourth birthday this Easter morn  
Finds her sweetly at peace in the gloaming,  
As, awaiting and watching, her deeds adorn.  
The doctrine of God in her homing.

May the gentle angel of peace keep near,  
With her manifold graces supernatural,  
To supply every need of our mother dear,  
As she girds on her garments eternal.

Kidder—So your town is so healthful people live to a great old age here?  
Native—Yes, my father died at 120.  
Kidder—Not really?  
Native—Sure 120 Main street.

## ENON SCHOOL NEWS

**Spring Fins**

Spring is coming  
The birds are humming;  
The rain is blowing  
The streams are flowing.

The grass will soon be green  
And out the children will be seen.  
They will go laughing out to play  
And will stay about all day.

They will have lots of fun  
They will squeal, jump and run;  
How good it is for spring to come  
So we can get our gardening done.

EVA CASE, 7th grade.

**Signs of Spring**

We have often heard the story of Mother Spring sending the robin red breast as a sign of the coming spring. There are many things that show signs of coming spring. Today is March 21. The little birds begin to build their nests, to chirp and sing as spring grows so near. Violets are beginning to peep and many happy hearts will each the woods for them. Farmers begin to plow and plant and this is one sure sign. The frogs are beginning to call from their winter homes. The fields begin to take on green and blossom with lovely flowers. You can choose any season, but I choose spring as the best of all.

CLAUD RICKMAN, 7th grade.

**Some Signs of Spring**

I know that spring is coming  
All thru the meadows bees are humming.

When just at the dawn of a day  
Butterflies from their perch fly away.  
And when the pastures all turn green  
Kind and gentle cows are seen  
Picking thru the pasture flowers.  
Hastened by April showers.  
And when the swallows are on wing  
It is the surest sign of spring.

JOHN R. SHUFORD, 7th grade.

**Signs of Spring**

We know that spring is on its way because almost all the birds have come back. They are bringing us many happy songs of spring. These tunes make us happy and gay.

The peach, the apple, and the plum trees are budding and some are blooming. The alders by the stream and the shrubs around the house are telling that spring is here.

We hear the frogs begin their calling in the marshy places. The bobwhite and whip-poor-wills are singing.

SYLVIA LYDAY, 7th grade.

**Spring**

Flowers are blooming every where  
And their fragrance fills the air.  
Birds are singing in the trees  
And we feel the nice warm breeze.  
'Tis time for marbles with small boys  
They're tired of inside winter toys.  
We go barefoot and wade brooks  
For it's hello spring and goodbye books.  
For a good vacation helps us all  
To master our tasks at books next fall.  
The grass is green in fields all about  
And we're sure to hear the joyous shout:  
"Play Ball". Their happy voices ring,  
And what is a better sign of spring?  
DOROTHY TALLEY, 7th grade.

**Looking for Eggs**

Winter has past and spring has come. The cold north wind made our fingers numb. But now spring is here and Easter to bring good cheer.

Running, jumping we go to the egg field, never until every egg has been found will we yield.

LEONARD BRAGG, 6th grade.

**Egg Hunt**

The fifth, sixth and seventh grades had their annual school egg hunt Friday.

schools in the State, some to be consolidated.

Meantime, the Bureau of Purchase and Contract, purchased 500 specially built school bus bodies last week from five North Carolina manufacturers, on a geographical delivery basis. Orders of busses are to be bought April 7.
