

GALLOWAY WANTS TO SEE PROPERTY BACK IN HANDS OF OWNERS

(Continued from page one)

sought to know, in the event of my nomination and election, just what position I would take in regard to various matters that are or may be of interest to county.

"The fact that I am always ready and willing to state my ideas and convictions on matters of community interest is well known; too well perhaps for my political good, but the idea of folks having to 'ask my views' where I stand on any matter of even small importance never did appeal to me.

"On educational matters I think that the state should assume the entire cost of the six months school term of once, and that arrangements looking to an eight months state-maintained term should be our goal. "The school-book question is one that causes constant quibble and the expenditure of a large amount of money on the part of the patrons. I think we should be able to materially reduce the prices of school books now and that some arrangement looking to the state supplying all school books either at actual cost or entirely free, should be had.

"I am strongly opposed to what is known as the *Short Ballot*, as well as any other measure tending to further concentrate governmental authority in Raleigh.

"Since most of our political ills are the result of, or are connected with the question of taxation in one way or another, I will say that in connection with the matter of taxation we should have an equitable revaluation to lower levels, and get rid of the glaring inequalities that exist in many instances.

"The further wholesale selling of the homes of these unable to pay their taxes should be absolutely prohibited during the continuance of the present financial depression, and all such as have heretofore been sold either by city or county should immediately be restored to the rightful owners, and their past-due taxes should be carried forward and added to the succeeding year at not more than six per cent. interest.

"The charges for tax sales foreclosures permitted under the present tax laws is nothing short of 'legal robbery.' This law should be wiped out of the books and one based on common sense and justice should replace it. Under the present law there are numerous instances where the costs and expenses of selling the lands for taxes amount to from six to ten times the amount of the taxes to be collected. And remember that you who pay your taxes have to pay these added charges.

"I believe that most of you will agree with me that it is unjust that the state or county should collect ten to twenty per cent interest out of its citizens who are really unable to pay their taxes promptly. I am opposed both to usury charges by the county and state as well as placing a penalty on the 'poverty' to the people. These interest charges and penalties should be corrected or wiped out entirely.

"I am, personally, strongly in favor of a constitutional amendment that would make valid a statute under

which every citizen of North Carolina might own a home to the value of—say \$1500.00 or \$2000.00 that is entirely free of all taxes. Then he would be assured that, come what may, he would have a shelter for his head in his declining years.

"Such a law would, in my humble opinion, do more to raise the standard of our citizenship than all the laws now in operation within the state. And under such a law the present land owner would soon begin to find sale for his now worthless acres and literally millions of homes would soon be established.

"This, you may say, will require a radical departure from the beaten paths of the past. Grant that it does, may we not ask if we haven't already followed the leadership of present and past regimes to the very brink of political ruin both local, state and national? Then why should we not about face, look for new leadership and try to salvage what we may from this political wreckage before the tides have swept it all beyond our reach?

"I shall appreciate the support of every voter for this nomination, and shall also seek and appreciate your advice as to those things that might help us most should I be nominated and elected your representative.

"Respectfully,
"M. W. GALLOWAY."

Rev. T. C. Holtzclaw filled his regular appointment at Pleasant Grove Sunday and delivered a wonderful sermon.

Rev. Mingus Hamilton of this place delivered a sermon at Blantyre Sunday night.

A number of friends and relatives from Pleasant Grove enjoyed a surprise birthday dinner given for G. C. McCall and son, Henry McCall, at the home of Henry McCall at Little River last Sunday May 1. A bountiful dinner was spread on the lawn and a host of friends from different places enjoyed it. The afternoon was spent in singing conducted by J. G. Patterson of Crab Creek.

The communion and feetwashing service will be held at Pleasant Grove May 29. One and all are invited to attend these services and we especially invite Mr. Hix L. Mabin as he is a full believer in feetwashing. He has been with us in this service some time ago and we hope that through the paper he will get the news and be with us on that date. So come on Mr. Mabin we will be looking for you.

Rev. J. F. Scott of Little River was Sunday guest of E. Hamilton.

Mr. and Mrs. J. T. Justus of French Broad park was Sunday dinner guest of Richard Hamilton.

THE SUFFICING BIBLE

When I am tired, the Bible is my bed.

Or in the dark, the Bible is my light; When I am hungry, it is vital bread Or fearful, it is armor for the fight. When I am sick, it is healing medicine.

Or lonely, thronging friends, I find therein.

If I would work, the Bible is my tool; Or play, it is a harp of happy sound. If I am ignorant, it is my school; If I am sinking, it is solid ground. If I am cold, the Bible is my fire; And it is wings, if I boldly aspire.

Should I be lost, the Bible is my guide.

Or naked, it is raiment rich and warm Am I am imprisoned, it is ranges wide; Or tempest-tossed, a shelter from the storm, Would I adventure, 'tis a gallant sea; Or would I rest, it is a flowery lea.

Does gloom oppress? The Bible is a sun. Or ugliness? It is a garden fair, Am I athirst? How cool its currents run!

Or stifled? What a vivifying air! Since thus thou givest of thyself to me, How should I give myself, great Book, to thee!
