

MANY COUNTY PEOPLE IN ASHEVILLE FEDERAL COURT

Many Transylvania county defendants in Federal Court have been attending the sessions this week, Tuesday and Wednesday being days set aside for cases originating in Transylvania county. Practically all lawyers of the Brevard bar have spent most of the time this week in Asheville, appearing for their clients.

DR. ZACHARY TELLS OF HOME OUT WEST

and plenty of cut throat and steel head trout to be had also, the rain-bows grow plumb out of reason when they are not fished too much.

We are getting along fine in every way except being away from Brevard. Business has been fine considering everything. The family have all been well. We have a nice place to live and all such, but we miss Brevard more than anyone can tell. The people here are fine but they are strange and they just naturally don't have the attitude toward things that we have always been used to.

Things are pretty dull here but not so much as back there. The folks here think that it is awful but wages are good and many people are at work. There is such a diversity of things that it is hard for all of them to be idle. I mean some of them are working all the time. They have lumber, shipping, (commercial) mining, dairying, trucking, poultry, fruit-raising and Lord knows what else to depend upon. This port does a tremendous shipping business. Living expenses are lower as a rule than back there and wages are higher.

The climate is pretty good here, but I don't think it will average up to Brevard's. There are many places of exceptional scenery like Mount Rainer Park, only 75 miles from here, but things as a whole are not as pretty as Western North Carolina. I am not saying that because I am homesick either. I'll admit being homesick but I am not blind because of it.

Well, I think I've babbled long enough. Give our kindred regards to Mrs. Houston. We would be delighted to hear from you sometime. Sincerely,
J. F. ZACHARY.

AUDITOR SOURCE OF WORRY TO BOARD

(Continued from page one)

one thousand dollars. Members of the governing board were dumfounded, it is said, when looking with one eye at a time at this huge bill. "There is not that much money in the world," one member of the council is reported to have said.

This bill represented 90 days, instead of the expected fifteen days, it is pointed out, and the council balked at payment of the bill. It is reported that a reduction was made down to about nine hundred dollars, yet this was not satisfactory to the officials, and some of the members were delegated to confer with the auditor in an effort to induce him to further reduce the charge.

It is not known to the press whether the auditor worked hard or not. It is reported to the press that the auditor brought his family, or at least members of his family to Brevard. It is further reported that the auditor had some of his official stationery changed and placed thereon "Brevard, N. C." as his official headquarters. One of the town officials expressed the opinion that the auditor worked long enough on the audit to become a citizen, and was entitled to have the name of Brevard placed on his stationery.

"The life a town official is just one thing after another," one official remarked, "and of all things to worry an official, an auditor is the most worrying worry ever to worry a worried town official."

WANT INFORMATION AS TO ALL BOARDING HOUSES AND HOTELS

and owners of furnished houses, or homes in which furnished rooms are available to the tourists, to bring such information to the Chamber of Commerce officials. So those who bring the information will have their places included in the list to be printed on the sheet—otherwise such places will not be included, it is said. It is recalled that a year ago the members of the committee made effort to call upon all the people and gather such information about boarding houses and apartments for rent, rates, location, etc., and some of the ladies worked days and days at the task.

It is to eliminate this work that all the owners and operators are asked to bring in the information as to each one's offerings.

Attention is also called to the fact that this information must be in the hands of the committee at an early date, as the lists are to be printed at once.

If you have a boarding house, hotel, rooms for rent, and apartment for rent, a furnished house for rent, and so on, and wish the description of your offerings to be on the list that is to be mailed out, you will please bring such information to the Chamber of Commerce at once.
