

## YOUNG AT FORTY IS SUBJECT OF SPEECH

(Continued from page one)

chology that no matter to what extent woman may usurp the occupations and vocations of the mere male, she can never assume the viewpoint of the man or follow the masculine line of reasoning. Experience allies itself with psychology in deducing the proposition that la femme concerns herself more closely with details than do those of the gender masculine and that if there is less depth to her logic, there is often a stronger sense of human values.

Hence, to be efficient, may not be a sufficiency in itself. It is certainly true that politeness, courtesy and an ingratiating manner have kept incompetents in positions when it appeared that the cards were stacked against them. But if the modern woman can manage somehow to be both attractive, efficient and kind, there is no limit to her employment or to the circles of her popularity.

## FARMERS GATHER AT ENON MEETING

The Boyd Township meeting of the Industrial Farmers club was held in the Enon Church building Thursday evening. A large crowd was in attendance. President T. G. Miller called the roll for committees present and chairmen as follows were recorded: Marketing, W. L. Talley; Lime, E. H. Jones; Live Stock, C. F. Woodfin; Crops, C. W. Talley, Poultry, Ralph Woodfin; Canning and Preserving, Mrs. J. H. Greene, Flowers, Mrs. Ada Reed; Entertainment and Welfare, N. L. Ponder, Conservation and Development, J. M. Cox; Transportation, T. F. Middleton.

Several members discussed the preparation for a fair this fall. The suggestion was advanced that each township have separate booths for exhibits and that any can enter for prizes.

The chairman of the several committees were notified to have all the committees present for a meeting on Thursday night June 23 at the school house.

Following the business meeting Mr. Bruce Webb, General promoter of the 5-10 farm plan, made an interesting and instructive talk. He reviewed the work of the organization from its beginning and told of the great progress that has already been made, mentioning the packing house interest making a market for livestock. Mr. Webb spoke of his high interest in the farm movement and the colossal task he has in putting it over, saying that he needs the help of every local unit in making it a success. Mr. Webb spoke of the amount of things imported and consumed by us when we should be producing them. He also spoke of marketing for W. N. C. farmers.

Mr. J. W. Glazener, County Director, and Mrs. Bates Patton, County Director of Women's Auxiliary were present at the meeting and offered helpful suggestions.

Music for the program was rendered by a mixed quartet and a male quartet of local talent.

Speaking of live stock improvement, we overheard Mr. Miller, Mr. Glazener and others talking of Spotted Poland China pigs. Mr. C. P. Woodfin and Mr. Miller have theirs now and they are beauties. Why not all get in the movement and put in quality purebreds? They eat no more than scrubs, yes, less, but they're the kind that sell. Come on, Live Stock committee and start something else.

## MAKING PLANS FOR PRIMARY RUN-OFF

Raleigh, June 15—Hectic preparations are being made for one of the most spectacular and stirring political contests of the present generation—the run-off between Senator Cameron Morrison and Robert R. Reynolds, Asheville for the long and short term in the United States Senate.

Senator Morrison was in Raleigh Friday and Saturday conferring with friends and planning the campaign for the next two and a half weeks. Col. Don Scott, of Graham, is in charge of the headquarters, located on the third floor, front corner, of the Sir Walter Hotel.

Directly under the Morrison headquarters, on the street level corner front, Robert R. Reynolds has opened headquarters, in charge of David L. Strain, Asheville real estate promoter.

Senator Morrison returned to Washington to vote Monday or Tuesday for a measure designed to relieve owners of mortgaged homes, planning to return to Raleigh Wednesday for a conference with leaders and county managers from all over the State.

Whether the State convention will continue its bone-dry plank of two years ago, declare for a referendum on the prohibition measure, or a wet plank is uncertain, due to the "dryness" of Senator Morrison and the "Wetness" of Mr. Reynolds. The best advance guess is that a compromise on a plank declaring for law enforcement will be reached. The convention may instruct its delegates to the National Convention at Chicago to support Franklin D. Roosevelt for the Presidential nomination, if it gives any instructions at all.

### SUMMER PEOPLE HERE

Dr. and Mrs. Neeson of Fort Lauderdale, Florida, are occupying the John Smith apartment on Turnpike. They will spend the summer here.

### BRIEF NEWS ITEMS

Because of a scarcity of plants, the tobacco acreage of Harnett County will be decreased by 40 percent and the cotton acreage will be increased over last year, says the farm agent.

Albert Tron of Valdese says he harvested seven tons of cured hay an acre from five acres planted to barley, austrian peas, vetch and crimson clover last year.

Wilson County farmers are buying pure bred Guernsey cattle. J. C. Eagles recently purchased five Guernsey heifers and F. J. Winstead and J. D. Aycock bought two Guernsey bulls.

Craven County farmers have sold 22 carloads of fat hogs this spring with two or three more cars to move in June.

Killed by Canton Train  
N. J. Worley, 72, car checker at Canton, was killed by a Southern freight train in the Canton yards on Friday. There were no witnesses.

### IN LOVING MEMORY OF GRANDMOTHER HENDERSON AGE 94 YEARS 20 DAYS

A beautiful life has ended as the last rays of the sun were sinking behind a bank of purple and gold. The pure and gentle soul of Grandmother Henderson ascended to its maker, to be welcomed into the glorious sunrise of eternity. Many were the friends and relatives who gave her a glad welcome home.

Father, Mother, sister and brothers and children had passed before her into the spirit world and its our belief that our loved ones meet again in the Spirit world and perhaps this belief is the most steadfast inspiration of our daily lives. There is no words, which can fully describe the beautiful Christian life she has lived, one can not add to nor detract from the ideal gentleness and peace she brought to the lives of those who knew and loved her best. Mute words written in ink are surely inadequate offering to lay before the shrine of her memory.

Dear Grandmother there was no brow more beautiful than thine Your loving Spirit showed itself in every wrinkled line.

The softest word of your sweet voice, bade all our troubles cease. Your gentle voice, your meek eyes was full of Faith and peace. You were so patient day, by day. We never knew when in your life So far from dear complaining 'Twas stormy, dark or raining We never knew when you were Sad, For on your radiant face, Your features always wore a smile of calm and saintly grace. We saw no cloud, we found no shade.

That told of pain or fear. Your noble heart kept to itself, The bitter secret tear. Ah! Well we know that you did hide from us, your grief and sorrow.

That you did hush your sighs Lest they might cloud our bright tomorrow. Grandma Dear, We cannot feel, that you are far away.

The night of darkness only falls. To measure day from day. And so the shade that hides your smile.

That was a Angel Worth. Is but the shadow measuring out. The Heaven from the earth. God only takes, to hold more Dear. The loved ones he has given, And you are still our grandmother, Dear Grandmother in Heaven.

A Granddaughter,  
MRS. ROLAND FISHER.

## ELECTRIC STORMS AFFECT CURRENT

"Test your lights after every thunder or electric storm" says J. M. Gaines, Manager of the local branch of the Southern Public Utilities Co. and phone the office in order that the damage may be repaired at once.

"A large number of people," Mr. Gaines recently said, "wait until night before testing the lights and then is difficult to make the rounds if many lines and transformers have been de-Gaines recently said, "wait until night the company will appreciate this kindness very much and promise more efficient service if the lights are tested after every storm during which any trouble may have occurred.

## COOKING SCHOOL IS BEING HELD HERE

The annual cooking demonstration given each year by the Southern Public Utilities company was held under the direction of Mrs. D. M. Fleming in the Utilities office on Wednesday afternoon. The demonstration consisted of the cooking of cakes, cookies, apples, and other dainties, showing the efficiency and economy in the use of the electric range.

Mrs. Fleming is a noted Home Economist having been connected with the Greenville Division of the Southern Public Utilities Company for some time. Her capability as demonstrator and her pleasing personality added pleasantly to the school session.

Attendance prizes were given Mrs. Frank King, Mrs. A. O. Kitchen, Mrs. T. J. Sitton, and Mrs. D. G. Ward.

## ENTER UPON GROUND WATER STUDY IN N. C.

Raleigh, June 15—A ground water study, designed to be of help to municipal and industrial water supply problems, sewage disposal and other services in North Carolina has been started under the direction of Thordike Saville, chief of the division of water resources and engineering of the Department of Conservation and Development, aided by an official of the U. S. Geological survey. Wells will be fitted with water recorders and gages in order to make records of ground water supplies and correlate these records with the record of stream flow and water fall, in order to utilize more efficiently the State's water resources.

Mrs. O. H. Orr and son, Oliver, were shopping in Hendersonville Friday.

## EVERETT PICTURES ADMIRRED BY MANY

A motion picture, said by many to be one of the most wonderful and admirable films of wild animal hunting and fishing ever taken was shown at the Simpson Brothers Barber shop, Friday evening under the auspices of the Simpson boys and R. W. Everett, ardent hunting and fishing experts.

The film was taken in Southern Alaska, in a section rarely visited by white men where game fish and animals are abundant.

Beautiful scenery of glaciers, boats, icebergs, snowfields and rare fur-bearing animals, seldom filmed held the spellbound attention of a large number of the friends and customers of the Simpson brothers when they gathered at the shop Friday evening.

Close-ups of various kinds of fishing, including salmon, and rainbow fishing and elk, moose, mountain goat, bear and other forms of hunting delighted the sportsmen present.

One scene was of a 10 ft. grizzly fishing in the open water for salmon, the film showing the bear snatch the fish from the water and eating it at one gulp. The picture was taken with the camera only 10 yards from the ferocious animal. Many of the bears shown weighed from 1800 to 2000 pounds according to an explanation.

Remarkable scenes of elk, moose, mountain goats and other game animals revealed these wild creatures in their native hunts in views so daring that they have never before been filmed.

## SPEED UP

# Your Garden and Field Crop

Give your beans, corn, potatoes and other vegetables a good side-dressing with Nitrate of Soda . . . the natural nitrate fertilizer.

It takes hold at once. Speeds up the garden. Helps you get the better prices that early gardens usually bring.

This year of all years, when every penny you spend on producing your crop must do extra work make every acre make good. The surest way to a good crop is to side-dress with Nitrate of Soda. 100 lbs. per acre will do the trick, (200 lbs. would be better, of course.)

**And Protect Your Plants**
