

PISGAH NINE WINS OVER PENROSE 23-0

Pisgah Forest caught the Penrose team all torn up Saturday and a very unbalanced, uninteresting game was the result. Pisgah still held the top notch in the league by a victory of 23 to 0.

Score by innings:
Pisgah 452 045 12x-23
Penrose 000 000 000-0

League Standing

Team	W	L	1,000
Pisgah	6	0	1,000
Rosman	4	2	.666
Penrose	2	4	.333
Toxaway	0	6	.000

Penrose ball team met Cullowhee team at Glenville Monday July 4 and staged some of the season's best playing. Glenville people said it was the best game played on their field in many years. Although losing in the score of 5-2, Penrose got credit and honorable mention for holding the Cullowhee veterans out for runs for six innings. An uproar of applause greeted Penrose at one time when Cullowhee had all three bases loaded with one out. A hit and scores were expected but Cullowhee batted to Williams who threw out the man at home and catcher Hamlin threw out another at first and Drake from first throw out the next man coming in home. W. Lyday played second and did some active work to win the praise of Glenville fans.

Every fielder did creditable service "Janky" Williams was unusually good and his mound duty was a great part of the attraction. The Glenville folks as hosts to the teams and fans gave us every good kindness and made full a hearty welcome.

Score by innings:
Cullowhee 410 000 00x-5 9 2
Penrose .000 010 100-2 8 3
Penrose is expected to play a game with Hendersonville Thursday and the regular scheduled league game with Toxaway on the local field Saturday.

MRS. E. H. WARD IN NEW YORK PASSES

Mrs. Elizabeth Hughes Ward, for many years an annual visitor at the home of Mr. and Mrs. David G. Ward, and greatly beloved by her many friends in Brevard, passed away at her home in New York City on Monday, July 4th, after a brief illness with pneumonia.

Mrs. Ward, the widow of the late Rev. William Ward, of Cornwall, England, and later of North Carolina, was born in London, England, and came of distinguished ancestry, being a descendant of Admiral Sir Edward Hughes, who served with Lord Nelson at the Battle of Trafalgar, and a cousin of Thomas Hughes, author of Tom Brown's School Days. Mrs. Ward lived for a number of years in Asheville, and later became a resident of New York City. She was an active member of the Baptist church and one of the founders of Ridgecrest, the Southern Baptist Assembly grounds, where she maintained a summer home.

Surviving are two daughters, Mrs. Edith Ward Beam and Miss Mary Ward of New York, three sons, William A. Ward, of Asheville, Edward Hughes Ward, of New York, and David G. Ward, of Brevard, and two granddaughters, Miss Elizabeth Hughes Ward and Virginia Randolph Ward, of Asheville.

Funeral services were conducted in Asheville at the residence of Mr. William A. Ward on Wednesday afternoon at 4 o'clock, and interment followed in Riverside cemetery. The officiating clergymen were the Rev. Harry Perry, of Brevard, and the Rev. Dr. R. F. Campbell, of Asheville.

Pallbearers were Jos. W. Silverstein and Harold V. Smedberg, of Brevard, and Rev. R. F. Staples, John D. Caldwell, Ralph E. Lee, E. F. Jeffries, of Asheville and Ridgecrest.

Portugal's Ex-King Dies
Manuel, exiled king of Portugal but a very rich man, died in London Saturday.

Five Lynched This Year
Only five lynchings have taken place in the nation so far this year, according to Tuskegee statistical records. In 13 instances officers prevented lynchings.

B. Y. P. U. PRESENTS COLORFUL PAGEANT

A colorful and inspiring pageant entitled "Americas Call to Service" was presented by the Baptist Young Peoples Union of Mt. Moriah church at Cherryfield Sunday night, July 3rd.

The program was opened by prayer by Mr. E. C. Allison followed by a recitation, "The Church and the World," by Lila Gillespie.

The pageant portrayed America boasting of her vast possessions representing corn, wheat, cotton, coal, fruits, forests, gold and silver. She took forthrightly, however, and questioned, "Shall I always keep these possessions?"

Her meditation was interrupted by a group of friends, viz jewelry, motion pictures, chewing gum, soft drinks, sports, ice cream, cosmetics and tobacco to whom she had given \$8,840,000,000 collectively the past year.

Next the church called to lovingly remind her that she was spending this vast amount on passing luxuries for selfish pleasures, and asked in all candor is she was exactly fair in spending only \$6,000,000,000 to satisfy inward hunger for God. She sought to impress upon America her duty of Stewardship. She called in the American Indian, Mexican, immigrants and many foreigners to show that the whole world needs Christ and could be brought to a knowledge of Him if Christian America would realize her responsibility. She succeeded in convincing America that the work of the church is greater, more essential and of more importance than the industries, mines, forests and banks where gold and silver are hoarded.

America then dedicated her vast treasure "to be mighty tools with which to build the Kingdom of God on earth."
Closing prayer was offered by Rev. W. S. Price, a former pastor of the church.

Veterinarians Meet
Faulhaber, of Raleigh, was made president and Brown, of Rich Square, secretary of the N. C. Association of Veterinarians in convention at Henderson, last week. Hendersonville will be 1933 convention city.

Heavy Federal Deficit The federal government entered its new fiscal year, July 1, faced with a deficit of \$2,885,000,000, largest in peace-time history. Optimism is felt, however, that the new tax program coupled with retrenchments will materially lighten the deficit.

SMOKY MOUNTAINS ATTRACT VISITORS

Asheville, N. C.—Justifying predictions that it is destined to become one of the nation's greatest playgrounds, the Great Smoky Mountains National Park is attracting an increasing throng of visitors from all sections of the country, this season.

The completion of new highways along the border of the Park and across the great central divide of the mountain range, has resulted in increased motor traffic into the region, and new trails into the remote sections of the highland wilderness are a lure to many hiking parties and equestrians.

With the completion this year, of the North Carolina highway from Ela, N. C., to Newfound Gap on the crest of the Smokies, a trans-Park motorway has been completed extending from Gatlinburg, Tenn., on the western border of the Park to Ela, through the reservation of the Eastern Band of Cherokee Indians. The new route comprising N. C. Highway 107 and Tennessee route 71 meeting at Newfound Gap at an elevation of nearly a mile above sea level, promises to be one of the most universally traveled highways in the National Park.

Extending the length of the Park on the summit of the divide a link of the Appalachian Trail, the famous mountain hiking route, which extends through the highlands from Maine to Georgia, has been constructed and marked. Half a hundred well-marked trails follow the valleys and streams to the high summits and to the spectacular scenic points within the National Park boundaries.

Loop tours around and through the Park are popular. One of these from Asheville through Waynesville, Bryson City and the Nantahala Gorge to Robbinsville, Maryville and Gatlinburg, thence over Newfound Gap and return to Asheville is a favorite with Asheville visitors. Regular bus tours are conducted twice weekly from Asheville over this route by the Red Top Co.

Deep in the heart of the Smokies at Three Forks near Mount Guyer is the wilderness camp of the Great Smoky Mountains Camps and Tours Co. An ever-growing number of visitors are patronizing this camp this season for the fishing and outdoor life offered.

Timely Farm Questions Answered at State
Q. How can I condition my calves for showing at the fairs this fall?
A. Active preparation for showing should begin about two months before the fair as it will take all of this time to properly fit and train the animals. During the fitting period feed the calves a grain ration consisting of 30 pounds of corn meal, 30 pounds of crushed oats, 30 pounds of wheat bran, and 10 pounds of linseed or soybean oil. The amount to be fed depends upon the condition of the animal at the beginning. All animals should carry just enough flesh to give them a good thrifty appearance. Calves should be led, rubbed, and brushed each day during the fitting period and the quality of the skin will be greatly improved if each animal is blanketed with burlap sacks for five or six weeks before the show.

Q. My cotton is infested with red spider. How can I destroy this pest?
Ans. To control red spider, dust with superfine dusting sulphur or the plants may be sprayed with a lime sulphur solution used at summer strength. These materials are carried in stock by practically all local druggists or seedsmen and the manufacturer's directions for use are printed on all packages. Where there is any doubt as to the kind of insect on the cotton or other plants, a sample should be sent to the Department of Entomology at State College, Raleigh, N. C., for observation.

Q. Are young pullets affected with worms? If so, how can I treat them for the trouble?
Ans. Growing pullets should be dewormed. A chicken that is kept practically free from worms for the first twelve to fourteen weeks will make better use of its feed, will have more vigor and resistance and will begin to lay much sooner than a bird infested with worms. Growing pullets should be dewormed at least twice before they come into lay. When the birds are from eight to fourteen weeks old and of normal size they should be given a full-size deworming tablet. After this or when the birds are over fourteen weeks old they can be given an adult size tablet. Deworming tablets can be secured from any poultry supply house, feed or drug store and the manufacturer's directions should be carefully followed.

Q. A rather heavy infestation of boll weevil is reported from two farms in Halifax County. The growers are beginning control measures.

Tobaccoists Close Session
President A. B. Carrington, Danville, and all the officers of the U. S. Tobacco association were re-elected to close the annual meeting, held in Norfolk last week. Dates for opening tobacco markets were set with eastern North Carolina September 6, middle belt September 27 and old belt October 4.

Economy Bill Is Law
President Hoover last week signed the bill which it is estimated will save \$150,000,000 in federal expenses in the fiscal year, chiefly by placing federal employes on a five-day week basis.

Mr. Blair recommends therefore to clip the weeds as soon as the lespedeza reaches a height of four inches. Clipping at such a time will so retard the weed growth that the lespedeza should be able to keep ahead for the remainder of the growing season. Clipping is usually done about the first week in July.

To wait later than this would probably control the weeds some better but it would also mean the cutting of the lespedeza tops since four inches is about as short a stubble as can be left with a mowing machine. This would injure seriously the best growth of the lespedeza crop, Blair says.

The Edgecombe tobacco crop is very irregular but has good color and is growing fast, report leading growers.
