**Begin Now To—**

**Save Money** on your refrigeration by "going modern". Electric refrigeration not only enables you to quickly and easily prepare delicious frozen or chilled desserts and salads (besides giving you a quality of refrigeration service you can't conceive of without actually using it) but it is economical. It **actually** costs you less money than ordinary refrigeration.

**Enjoy** the comfort, the health protection, the satisfaction, and the other advantages that come with electric refrigeration **while you are paying for it.** Our liberal budget plan makes it easily possible for you to do this.

**Actually Profit** through the use of a Kelvinator. The saving in the cost of refrigeration, plus the saving in food stuffs, in many instances equal the monthly payments on your Kelvinator. Certain it is that the electric refrigerator is in a class by itself as a household appliance from the standpoint of thrift and economy. It **does** pay tremendous dividends upon the investment.

**Investigate KELVINATOR!**

There are Kelvinators that have been in service 15 to 18 years. From the first Kelvinator has lead the field in electric refrigeration. There are models to suit every pocketbook—sturdy and pleasing models for the home that cannot pay more; handsome and more elaborate models with the world's fastest freezing, famous Kelvinator "Kold-keeper" and frost chest for those who desire absolutely the best there is in electric refrigeration—the de luxe Kelvinator.

Again let us urge that you begin now to save money on your refrigerator, and enjoy the wonderful conveniences and economies of the Kelvinator.
