PELLAGRA NOW ON **INCREASE IN STATE**

(By Dr J. M. Parrott)

lenge to the people of North Carolina and the fight is on. Already more cases of this disease have been re-ported to the State Board of Health during the first eighteen days of this month than were reported in the State during the whole month of August 1931, and there is every indication that this dread disease will reach even greater proportions dur-ing the coming fall and winter months." Thus briefly, Dr. J. M. Par-rott, State Health Officer sums up the present pellagra situation in North Carolina.

Dr. Parrott goes on to say that pellagra is a disease caused by eating a diet deficient in certain food elements contained principally in leafy vegetables such as turnip greens, collards, cabbage, kale, mustard, lean meat, fish, poultry, eggs, milk and buttermilk. Other foods also may be eaten to successfully combat the disease, or effect its cure, if it has not reached such an advanced stage that it is incurable.

Further commenting upon the sub-ect Dr. Parrott says, "Now is an ject Dr. Parrott says, ideal time to start waging the fight against pellagra which usually reaches he peak of its power during the menths of May and June, because the next two or three weeks is the time when most North Carolinians will start planting their fall gardens. I cannot urge too strongly at this time that a supply of turnips, collards, cabbage, mustard and similiar leafy vegetables sufficient to last until spring vegetables are obtainable be included in the list of items planted. All of these vegetables can be easily grown in all sections of North Carolina. The lack of proper diet in win- in the only shut out game of the seater is principally responsible for the sen winning by the score of 6-0. unusually large number of cases of pellagra always reported during the months of May and June.

unique statement: "Let's all use our heads in planting the right kinds of gardens during the next few weeks and give 'Old Man Pellagra' a knock-out blow in the 'solar plexus," to bor-row a term from prize fighters. The old adage, 'An ounce of prevention is worth a pound of cure' is even more in combatting pellagra than in many other things."

MANY COMPLIMENTS PASSED ON STREET DANCE

On Friday evening the Business and Professional Women of Brevard staged a dance on West Main street between the hours of nine and twelve o'clock. This dance took place in the street and covered one block which was decorated for the occasion with many colored lights which made the affair very becoming for a summer dance.

The crowd of spectators numbered up in the hundreds to watch the couples as they performed in their usual graceful manner.

The Business and Professional Women of Brevard are to be complimented on staging such entertainment for the public of the community and many visitors that come to Brevard will go home after their vacathe work that this organization is summer months.

The program was conducted by Mrs. L. B. Hayes who had chosen for a theme "China." The devotional, led by Mrs. Atwater, received its theme Finding God in Great Personalities," from the scriptures of the 91st Psalm. She used for examples men of the Bible who were outstanding in Mission Work. Abraham and Moses were spoken of, and later characters, such as Tennyson the poet, Livingston, a missionary, Generals Lee and Grant, and Commander-in-Chief John J. Perishing were used as examples. To ocalize the thought of devotion local characters such as Dr. W. H. Lyday, Mrs. Sarah Taylor and other beloved Prevard citizens were cited as ex-imples of "Finding God in Great Personalities."
