A number of Oakland folks attended the singing at Glenville Sunday. A class of Cherokee Indians from the reservation was there and rendered a number of selections which were greatly enjoyed, especially so because they were Indians. There were splendid quartets from over Western North Carolina and S. C. Mr. E. D. Randolph, president of the convention was present and was in charge and showed great ability as a man of talent for that kind of work. An old fashioned picnic dinner was served to about one thousand people attending.

Sunday night we had with us at Lake Toxaway Baptist Church, Rev. Mr. Kilpatrick, who preached, Rev. D. C. Owen, Rev. Judson Hall and a singing class from Gloucester and Rev. Mr. Norris from Bradenton, Fla. and Lake Toxaway and Rev. S. B. McCall. They all had something good to say and sing. Then we had the W. M. U. Society, presided over by Mrs. Norris and the regular B. Y. P. U. both of which were very good. Take it all in we spent an enjoyable day and we consider a day spent like that getting the most out of life.

There are quite a number of folks who read the Brevard News that will be sorry to learn that Mrs. Will Dillard is seriously ill at her home at Six Mile, S. C. We learned this through her daughter Mrs. Ollie Henson.

There will be a baptizing in the river near the bridge across Lake Toxaway river on Highway 28 the fourth Sunday in this month. This Baptizing is the result of a revival meeting recently held at the Lake Toxaway Methodist church.

SELICA NEWS

The folks of our community were shocked and given heavy hearts at the sad news of the death of Rev. Wallace Hartzell. He was known and loved over Transylvania county as one of our most able preachers, true and fearless under all circumstances.

Supt. Dickson gave a wonderful talk and picture lesson last Sunday on "Character Building," which was enjoyed by a large audience, and was said to be one of the greatest ever heard here.

MY PET SQUIRREL

Once my uncle caught a squirrel and gave it to me. I kept it in a match box the first day and did this until I made it a pen. I petted it and it soon got used to me and we played together. It was a pretty squirrel and I named it Frisky. It was a ground squirrel. Nearly every night I would bring it in, but one night I forgot to bring it in. In the night it gnawed a hole in the box and got out. I never did see my squirrel again.

NEWS ITEMS FROM FOURTH GRADE

(The first stanza of this poem was written by Elbert Chapman; the second was added by Bertha Cassell; the class contributed the last two stanzas.)

I have a little dog,
His name is Ping.
He will hunt all day,
And won't trée a thing.

This little dog
Is white as snow,
Step on his toe
And he "hollows Oh."

Because this little dog
Did scratch his back
He was killed
On a railroad track.

I buried my little dog
Way down in the valley
Because he would not eat
All of his turnip salad.

MY VACATION

I had a nice time during my vacation. By brother and I made a little garden. In our garden we planted corn and beans and other things. Then I planted some flowers in the yard. I will tell you about my trip to Cowarts. As we were going on we saw the children's heads in at the door. We had grapes, peaches, and plums. Saturday we were coming home across a little bridge we saw a boat in the lake. It had two men in it. I would like to ride in a boat. I enjoyed my vacation but I'm glad school has started.

THE SWIMMING LESSON

One hot summer day Bobby and Betty Lou decided to go swimming. They hurried into their bathing suits and ran to the seashore. Betty Lou had promised to teach baby Bobby to swim. At first he was very much afraid of the water, but Betty taught him not to be afraid. He kept trying until he learned to swim.

A TRIP TO INDIAN CAMP

Once, when I was spending the day with my cousin at Lake Toxaway her father took us to see a place known as Indian Camp, which was about 2 or 3 miles from her home. The road was very steep and narrow and filled with rocks.

We passed a large rock near the road known as rattlesnake rock, where the snakes raise their young. We did not see any snakes however.

At last we came to the Indian Camp, so called because the Indians made their camp there hundreds of years ago. They hunted and fished. It is a level field of about three or four acres. We found lots of arrow heads of white flint, also some of a strange dark colored rock that I had never seen before. The field is surrounded by high mountains. It was a beautiful place and I don't wonder that the Indians liked the camp there.

TREES ARE VALUABLE

Trees are not pretty in the winter when their leaves have all fallen off, but when spring comes, new leaves come back on the trees.

Trees are very useful. They make good homes for birds, squirrels, and lots of other animals. They make shade for the animals who live in the woods.

Some are rubber trees. Men drain the juice out of them, then it is taken to factories and made into rubber, balls, inner tubes, casings, and many other things.

The pine trees are cut down, taken to the paper mills, and made into paper. Other trees are cut down and hauled to the sawmills and made into lumber. Then the people buy the lumber and make furniture and houses.

AN EXPERIENCE WITH A RAT

One day I saw a rat asleep in the sawdust over the bankhouse. I called daddy, and he shot the rat. I could not reach it, so I called my cat. The rat was so big the cat could not get it, so I called my dogs. Dogs cannot climb walls, so I did not get the rat down.

OUR CAVE

We are going to study about caves in our readers so my teacher has been telling us about caves and how they are made. She told us about the largest cave in the world and how she went riding on a river in it. We decided we wanted to make a cave and put it in our room so Looney Sisk made us one. It is a very good and pretty one. It is made out of white clay, it has a door-way and has only one room. It is made on a plank so it won't tear up. We are going to fix some more while we are studying caves.

GOING SQUIRREL HUNTING

One of the morning after hunting season opened. I decided to go squirrel hunting. I started very early for I had to go about two miles. Soon after I arrived in the forest I saw a squirrel upon a very high limb. I started to shoot but it went around the tree. When I went around the tree the squirrel went into a hole in the side of the tree. This discouraged me so much that I went home without any squirrels.

Good Food Cooked Right

His Mother Knows His Food is Safe with a Kelvinator

To him it is only a bottle of milk that gives him a satisfied feeling . . . at peace with the world. To you it is a combination of food elements that will build a strong healthy body, if properly cared for. If handled carelessly it may become contaminated and cause serious illness—even death. Don't risk his precious health—let Kelvinator guard his food.
