## GREAT INTEREST IN REVIVAL SERVICES LED BY DR. DENBY

Other Churches of Town Called Their Services Off Sunday Night.

REV. R. L. ALEXANDER PLEASSED WITH INTEREST

People Enjoying Daily Sermons—Declared To Be Most Inspiring.

Rev. H. B. Dendy, Pastor of the Weaverville Presbyterian church, preached the first of a series of revival sermons at the Presbyterian church here Sunday night.

Services were called off at the other churches here in order that their members might hear the Weaverville pastor. The church was packed and a number of persons were unable to hear the sermon because of lack of room.

The subject of his sermon was "The Cost of Revivals." The speaker likened the people of this age to David, whose head was turned because of his great strength and who, though he knew he was wrong, counted the number of fighting men under his jurisdiction and found that he had thirteen hundred thousands. The Lord punished him for his act, giving him one choice out of three as to what he and his people must suffer for their wrong doing in this act and David chose the plagues which destroyed seventy thousand of his best men. At this time the people are becoming over-confident because of

## NEW BOOKS SHELVED AT U. D. C. LIBRARY

Sponsors of the Library tea which was held at the U. D. C. library Saturday afternoon are greatly pleased with the response made to their appeal for books. More than 200 books were received and these will be placed on the library shelves for circulation.

There are new and old books on many subjects, and all are considered valuable additions to the present collection which is one of the most complete to be found in any library of its size in the state.

The book fund had become exhausted and no means was available to secure new books and it was in view of this fact that the tea was held.

The library is serving a fine purpose in the community and has many subscribers, but the income from the subscriptions has not been sufficient to care for the depreciation of books on hand and to make purchases of new ones and this is the only fund the library has.

The people of the community are invited to come in and get acquainted. They will be surprised to find such a splendid assortment of books as will be found here.

## EHRINGHAUS HEARD BY CAPACITY CROWD

In his opening remarks here Friday night Hon. John C. B. Eringhaus, Democratic nominee for Governor said, "A crowd like this would make a sick Democrat well and any well Republican sick." The speaker has been worrying a bit over his health lately since appendicitis is threatening him.

During the course of his talk, which was heard by a more-than-capacity audience Mr. Eringhaus spoke on the three essentials of good government—honesty, efficiency and economy, placing considerable emphasis on the latter. He said that while the "state under Democratic administration was reducing expenses 30 per cent, the national government under Republican administration increased them 30 per cent."

In pointing out the differences in operation between the two parties, he stated that while Woodrow Wilson was President and the Nation was in the throes of the World War he could not find where one cent of the national funds had been misused. He recalled that under Republican administration a tax levy on land of 22 1/2 cents was made to support the state government. The 15 cents now on this land will be removed at the next legislature, he stated.

During the past four years of Democratic administration, Mr. Eringhaus stated, the expenses of the state have been reduced by 10 million dollars. The National expenditure has been increased by 6 million, he added, and is being constantly increased.

"An ideal government must have the welfare of the people at heart," he said by way of conclusion, "and that is what we pledge you."

The speaker was introduced by Mrs. J. S. Silversteen.

## LOCALS EASILY WIN OVER BRYSON CITY

A large crowd witnessed the football game played here Saturday between the Brevard Blue Devils and the Bryson City team, which ended in a score of 25 to 0 in favor of the local team.

The two teams are pretty well matched and the game was rather lively throughout. The Brevard boys scored two touchdowns in the first half and one in the last. Price and Morris starred.

The game was refereed by Harry Clayton. Tony Trantham umpired and Henry Erwin acted as headlinesman.

Of the six games played by the Blue Devils they have won four, tied one and lost one.

## RAIN PLAYED HAVOC WITH HALLOWE'EN

The inclement weather probably had a great deal to do with unusual quietness on Halloween night. There were a few who were not disposed to be deprived of their fun making by the weather and they proceeded to carry out their little mischievous acts.

There have been no reports of automobiles being set up on tops of telegraph poles or buildings and not many cats—if any—were strung up by their tails on clotheslines. Some of the usual little pranks such as removing signs, ringing door bells, letting air out of automobile tires and similar things were done but to no great extent.

Court House officials on arriving at the Court house Tuesday morning found B. & B. Feed and Seed Co.'s big Eagle perched in the center of the Court house door.

We are inclined to the opinion that the weather was responsible for lack of activity and not the fact that the spirit of the occasion has diminished any.

## ROBERT INGERSOL WRITES ON LIQUOR IN DAYS OF LONG AGO

Read All the Things That Whiskey Does for People, And Then See If You Want Saloons to Come Back.

"It feeds rheumatism, nurses gout, welcomes epidemics, invites cholera, imports pestilence, and embraces consumption. It covers the land with idleness, misery and crime. It fills your jails, supplies your almshouses and demands your asylums. It crowds your penitentiaries and furnishes victims to your scaffolds. It is the lifeblood of the gambler, the element of the burglar, the prop of the highwayman and the support of the midnight incendiary. It countenances the liar, respects the thief, esteems the blasphemer. It violates obligations, reverence fraud and dishonors innocence. It defames benevolence, hates love, scorns virtue and slanders innocence. It excites the father to butcher his helpless offspring, helps the husband to massacre his wife, and the child to grind the parriocidal axe. It burns up men, consumes women, detests life, curses God and despises heaven. It suborns witnesses, nurses perjury, defiles the jury box, and stains the judicial ermine. It degrades the citizen and statesman, and disarms the patriot. It brings shame, not honor; terror not safety; despair not hope; misery not happiness; and with the malevolence of a fiend, it calmly surveys its frightful desolation, and unsatisfied with its havoc, it poisons felicity, kills peace, ruins morals, blights confidence, slays reputation and wipes out national honors, then curses the world and laughs at its ruin. It does all that and more—it murders the soul. It is the son of villianies, the father of all crimes, the mother of all abominations, the devil's best friend and God's worst enemy."

Note: The above was written long before we had the Eighteenth Amendment, Prohibition, and the Volstead Law, and pictures the situation that would prevail if the Eighteenth Amendment is repealed.

## CRITICISM OF THE TRIBUNE EDITOR IS NO EXCUSE FOR WET

Minister Says All Citizens Know Asheville Papers Are Not Supporting Robert R. Reynolds.

J. K. HENDERSON.

The Brevard News, in reporting a speech of the Chairman of the Democratic Executive Committee, says: "He referred to an article in the Tribune in which the statement is made that the Asheville papers will not support Bob Reynolds in his campaign for the Senate and said that this statement was untrue. Commenting on the story regarding numerous judgments against Reynolds, Mr. Breese stated that the Editor of the Western Carolina Tribune had a string of judgments against him from one end of the state to the other."

Does this statement palliate in any degree the charges against Mr. Reynolds, or satisfy thinking Democrats that he is worthy of their support? It may satisfy those who are determined to vote for any kind of character if he happens to be the party-nominee. And it may serve as the "ounce of civic to sweeten the imagination" of some who are ashamed to vote for such character, but feel that they must because he is the nominee of their party. But men and women who think for themselves know that this statement has answered nothing concerning Mr. Reynolds' character. Only it is a tacit confession that the charges against him are true.

Those who saw the article referred to above know that the indictment brought against the Asheville papers by the Tribune is, that they have neglected, or refused, to inform the voters of North Carolina concerning the personal character of Robert R. Reynolds. He is accused of having three wives. And a dozen judgments are cited as recorded against him in the records of the Buncombe County courts. The contention is that the Asheville papers know this to be true, and that it is their duty to inform the people of the State about it. It seems to me that if respectable

## GALLOWAY PRAISES ROBERT REYNOLDS AND EHRINGHAUS

Says If Al Smith Had Won in 1928 the Nation Would Not Have Suffered So

PRAISES ROOSEVELT AS ONE WHO HAS COURAGE

Mr. Galloway, Well Known in County, Where He Was Born And Raised.

An attempt to represent the Democratic party as an ally and a friend of the Reds or Bolsheviks is being made because of a statement reported to have been made by leaders of the Soviet government in which these leaders approve of Roosevelt and his party, said Hon. Welch Galloway, of Asheville, a former attorney and political leader in Transylvania county in an address at the Court House Saturday night.

Commenting on the present administration under President Hoover, Mr. Galloway stated that he, like many others, at one time thought a lot of Mr. Hoover—when he was running around over the world as an engineer of some note and later when he served as food administrator under President Wilson and began to come into the limelight. At that time nothing at all was known of Hoover's party affiliations—it didn't matter then. But even now people are still asking if he has always been a Republican—if that is what he is. But now, Mr. Galloway thinks it would have been good thing for the country if Alfred Smith had gone into office. We would not have been forced to endure such hard times.

President Hoover has permitted the "big business" of the nation to get control of the affairs, the speaker said, and has played the part of the "tin soldier," especially when he signed the tariff bill under pressure of Mr. Gundy and other big interests who had "contributed so extensively to Hoover's campaign fund." This tariff bill which has been raised has done much toward driving the na-

## FRANKLIN HIGH TO PLAY LOCALS

The Brevard Blue Devils will meet the Franklin High school eleven on the home field here Friday afternoon at 3:30 o'clock.

A good game is promised. A number of the "crack players" who were forced out of the game with Bryson City last Friday will be on the field tomorrow since they have satisfied the strict demands of their tutors.

The Franklin boys are scrappers of no mean ability and the game will not be "given" to the Blue Devils—they'll have to take and they are going to make a try for it.

The public is urged to hunt up the ticket sellers and buy a ticket for the game, not only on the ground that it will be a good game but the team needs the financial support of the football fans as well as their moral support, if they are to continue to offer these home games.

## GINNIE WOOD ILL FROM BITE EFFECTS

Mr. Dewey "Ginnie" Woods is seriously ill at his home.

Ginnie was bitten by a dog sometime ago and it was thought he was suffering from hydrophobia as a result, but later reports indicate that this is not the case, although it has not been definitely determined just what the trouble is.

Last reports from his bedside state that he is improving considerably and that fears of hydrophobia are groundless.

## TEACHERS TO GET OCTOBER SALARIES

Prof. Jones made the announcement Wednesday afternoon that all school employes will receive checks some time during the week for their October salaries. These funds were held up due to an outstanding bill against the county of several year's standing. Prof. Jones arranged, while in Raleigh to get funds to the amount of \$7,000 which will be paid out here on the instructional charges.

## BOONE D. TILLET IS HEARD IN BREVARD ON STATE ISSUES

Is Republican Candidate For Lieutenant-Governor And An Able Speaker

SAYS DEMOCRATS ARE GROOMING JEFFRESS

Shows Big Increase in Cost of State Government During Past Ten Years

When Herbert Hoover took up his duties as President of the United States one of the great problems confronting him was to collect money from foreign nations which had been loaned to them by President Wilson. Efforts were made by foreign nations to have these debts cancelled, but the President refused to accede to these demands. Then there followed the collapse of the monetary system of several of these nations and in the wake of this terrific upheaval our own nation was faced with one of the most terrible crises in its history.

Such was the conditions with which President Hoover had to deal when he took the reins of government, said Boone D. Tillett, Republican candidate for Lieutenant-Governor of North Carolina, speaking in the Court House here Monday night.

But he proved himself equal to the duties as President of the United States in order to avoid the collapse of our own financial structure and the complete demoralization of the industries of the nation he created the Reconstruction Finance corporation, designed to

## ALL DAY SINGING HELD LAST SUNDAY

The fifth Sunday singing held here Sunday at the Court House was one of the best attended held in some time. People were here from all parts of the county and from adjoining coun-

ties. A program of music which included solos, duets and quartets, some of the best in this section, was enjoyed by all who attended.

## ENGLISH'S CHAPEL HOME COMING SUN.

The News erroneously stated last week that the home coming at English's Chapel was to be held on Sunday October 30. This should have read Sunday, November 6.

Preparations are being made to offer a fine program on this date and the public is cordially invited to attend.

## USE STEER TO GRIND CANE FOR MOLASSES

Folks laugh at the methods once employed in various agricultural pursuits of centuries ago when the old steer played an important role in all farm activities. But, according to J. H. Morgan of Old Toxaway, the steer isn't such a laughing matter after all.

He and Mr. Avery Rice had something on the order of a contest recently while grinding sorghum. Mr. Morgan used a steer in his grinding and Mr. Rice employed an 18 year old mule. The results has disproved all modern conceptions of the old steer for in the final it developed that the steer had the best of the mule in the grinding contest.

## FUTURE FARMERS STUDY CAPONIZING

The Future Farmers of America and members of Prof. Glazener's class in Vocational agriculture have been making a study of caponizing and report that as a result of their studies a group of twelve of the boys have a total of 50 capons which will be ready for market in February or March. In these studies the boys have learned the value of caponizing and the added profit that can be secured from them, the meat being much like turkey meat and commanding top market prices.

The work of caponizing the fowls was done by the boys themselves under the supervision of Prof. Glazener. Those boys taking part in this work are: Marvin Whitmire, Edgar Glazener, Jones Garren, George Liverette, Earl Ashworth, Hayes Merrill, Merriam Shuford, Sydney Simard, Glanna Shipman, William Kilpatrick, David Ashworth, and David Norton.

They plan to carry this work on to the extent of having 500 to 1000 of the capons by next year, if possible.
