

CLUB NOTES
Conducted by the Womans' Club

Motto: For the Public Good.

Officers:

President—Mrs. John Arrendale.
Vice-Pres.—Mrs. J. Q. Wallace.
Cor. Sec.—Mrs. Jessa Conley.
Treas. & Sec.—Mrs. Tom Johnston.

It is not too early to begin planning to take a new member to the Parent-Teacher Association, which meets at the school house on the first Friday in December. At the last meeting we had a better attendance than usual. Let's double the number at the next meeting.

The purpose of this Association is to bring the parents and the teachers into closer relationship. Co-operation between the home and the school is greatly to be desired, and if we, as patrons of the school do not give this co-operation wholeheartedly, we cannot expect the greatest results from the school.

The home and the school are the two great agencies in the education of the child. Their aims are the same. Neither can work effectively in ignorance of the other. Let every mother be on time. All are welcome, whether members or not.

Honor Roll for Iotla School.

First Grade—Lyle Downs, Alva Gibson, Edna Angel, Shirley Duval, Anna Lois Tallent.

Second Grade—Pauline Shields, Evelyn Poindexter, Paul Gibson, Hermon Mason.

Third Grade—Astor Fouts, Verlon Swafford, Lillie Meadows, Edna Raby, Louise Ray, Emma Hyatt.

Fourth Grade—George Gibson, Jack Calloway, Clyde Tallent, Ralph West, Norman West, Sadie Angel, Helen Mason.

Fifth Grade—Garth Cunningham, Sophia Ray.

Sixth Grade—Lydia Gibson.

Seventh Grade—Genette Mallonee, Elizabeth Meadows, Ethel Bryant.

Eighth Grade—Blanche Fouts.

Ninth Grade—Leo Bradley, Clara Hall, Marcus Johnson.

Tenth Grade—James Mallonee.

Eleventh Grade—Laura Jacobs.

More Cattle Tested for T. B.

During August 461,186 cattle were tested for tuberculosis by the Bureau of Animal Industry in co-operation with the various States. Of this number 13,780, or about 3 per cent, reacted to the test, indicating that they were infected. Workers for the eradication of bovine tuberculosis now have more than 8,000,000 cattle under their supervision.

"That Crushed Tube Will Stop The Lantern's Breath! Better Get A New Lantern, Bill!"

BILL didn't know that the tubes of his Dietz Lantern are really windpipes through which the flame breathes in necessary oxygen from the air, much as do human lungs. He also didn't know that the burner is something like the carburetor of his automobile—demanding an unending supply of oxygen charged air, which it mixes with kerosene gas in exactly measured proportions that keep the flame at its brightest.

Crushed, bent or perforated lantern tubes put the flame on short rations of air and cut down lighting power.

When new Dietz Lanterns cost so little it is poor economy to worry along with damaged ones. Under such circumstances it pays to do just what Bill did—get new lanterns quick.

FRANKLIN HARDWARE COMPANY

Basket Ball Games.

Franklin defeated Sylva in the fastest game of the season by a score of 22 to 16. Both teams played hard but the visitors could not advance the ball beyond the middle of the court.

The first half ended 11 to 9 in favor of the visitors but the locals staged a comeback in the second half and rushed their heavier opponents off their feet and turned in a well earned victory.

The entire Franklin team starred but the work of Crawford at forward and of Sherrill and Henry as guards was outstanding.

Franklin 22	Position	Sylva 16
Crawford (12)	F	Sutton (1)
Epps (5)	F	Cothy (3)
Mashburn (3)	C	Fincannon (4)
Sherrill (1)	G	Potts (8)
Henry (1)	G	Moore

Field Goals: Franklin 8, Sylva 5.
Referee: Wilson. Umpire: Houser.
Time Keeper: Moody.

On last Friday night Franklin defeated Hayesville in a one sided game by a score of 36 to 4. The visitors were outclassed in every department of the game and the result was never in doubt.

Crawford was the high scorer of the game with 16 points.

Mashburn also starred. With the game safely tucked away Franklin used many substitutes.

Franklin 36	Position	Hayesville 4
Crawford (16)	F	Swanson (2)
Epps (8)	F	Gray
Mashburn (6)	C	Scroggs (2)
Henry (5)	G	Garrett
Sherrill (1)	G	Winchester

Substitutes: Franklin, McCollum Shook, Womack.

Hayesville, Swanson, for Gray.

Referee: Richards. Umpire: Jones.

Timekeeper: Williams.

The Franklin High will play Baldwin, Ga., next Saturday night at 7:30. Turn out in force and encourage our team to achieve even greater heights of glory.

Ellijay Congratulates Itself.

If we had won some blue ribbons at an agricultural fair, there would be considerable talk about the matter, but sometimes the more noteworthy things go unmentioned. We are proud of the fine way in which the people of Ellijay conducted themselves on election day. There was nothing in the nature of drunk and disorderly conduct. The citizens met in a quiet spirit of friendship and voted for the men and measures which they considered best. I do not believe that an unfair or illegal vote was counted! When this much can be said, do we not have a right to consider ourselves a higher type of citizens than any who may allow corrupt men and methods to control their choice of officers?

Perhaps no one voter secured all the results which he wished from the election. But when they all are allowed to vote in a fair, legal manner, we can afford to accept the result cheerfully. The spirit of democracy is satisfied. RAY N. MOSES.

BAPTIST CHURCH ENLISTMENT MEETING

Beginning Sunday, November 23 with an all-day meeting of the church and a basket dinner in the basement and continuing through the week with a meeting each evening. The Franklin Baptist church will engage in an Enlistment Meeting. The program of the church for the year will be stressed and the work of the five year period of the seventy-five million campaign will be finished.

The pastor will do the preaching. Services will begin each evening at 7:30. Every member of the church is urged to be present for each meeting. The public is cordially invited to attend.

Dip Apples in Solution To Prevent Rotting

An Indiana man claims to have discovered a method of keeping apples in storage throughout the winter without any rotting taking place. His method is to dip the apples just before putting in storage, in a fungicide. This fungicide may either be lime-sulphur or bluestone. Dissolve 4 pounds bluestone in 50 gallons water, or put 2 gallons of concentrated lime-sulphur in 50 gallons water, and dip the apples in one of these solutions.

According to this man, dipping the apples kills rot spores, thus insuring the prevention of rotting in storage. He says that after dipping the apples and they dry off, a thin film of the fungicide is left on them, thus making it practically impossible for rot spores to enter.

While this method may not be practicable on a large scale yet it might very well be practiced on a small scale where apples are being stored for home use. At any rate, it is probably worth while to try it, we shall be glad to hear from them regarding results later on. Progressive Farmer.

Land Deeds, Mortgage Deeds and Chattel Mortgages for sale at The Press office.

Honor Roll for Mountain Grove School

First Grade—Sallie Adams, Oscar Adams, George Crawford.
Second Grade—Johnnie Coche.
Fourth Grade—Bertha Crawford, Jessie Corbin.
Fifth Grade—Lillie Adams, Grady Adams.
Sixth Grade—Sarah Adams, Cordelia Crawford.
Seventh Grade—Otila Corbin, Roy Corbin, Fred Dills.

That Absentee Voters' Law.

On election day I was asked by a leading member of each political party to write an article for the Press urging the repeal of the Absentee Voters Law. On that day and others I have heard this law condemned repeatedly, and I have not heard a single voice raised in its defense. The best citizens seem pretty much agreed that this law permits those who have more politics than character to send in illegal votes. As these votes are likely to be provided by agents of the more dishonorable candidates the law may if not repealed, sometimes cause the defeat of the candidate preferred by a majority of our voters. While there would be a measure of good in such a law properly observed, the public judgment seems to be that this law gives opportunity for scandal and corruption and so does more harm than good.

It would not seem necessary to make a long argument against the retention of this law on the books for public opinion seems to be definitely established. But, fellow-citizen, your opinion is not likely to affect our new representative unless you speak to him or write him what you wish. We have in Macon County at least one political worker who says that when a man goes into politics

COME TO THINK OF IT--

WHY is it that the most successful merchants in the world are the biggest advertisers?

I WONDER if they are all fools, and I am the only wise bird!

CAN it be that in the great business parade everybody's out of step but Kelly?

MAYBE I'd better think it over!

Reflections of a Local Storekeeper

he must cut loose from his religion. Men of this type are pretty certain to ask Mr. Horn not to have the Absentee Voters Law repealed. I wish that citizens who agree with us on this question would write to Mr. Horn and ask him to do all in his power to have this law erased from the statute books. If we keep this law some day some crooked politician's work will be investigated by the courts and a reproach will be brought against the fair name of our county. RAY N. MOSES.

NO MORE FOOLING

Nowhere did Abraham Lincoln show his shrewdness of judgment better than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right. Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and to buy advertised merchandise.

IT'S MIGHTY GOOD BUSINESS
