

To The Women Of Jackson County - - -

DON'T LET HIM DIE

for Lack of Bandages . . .

This Is An Urgent Appeal To Every Woman To Make Red Cross Surgical Dressings

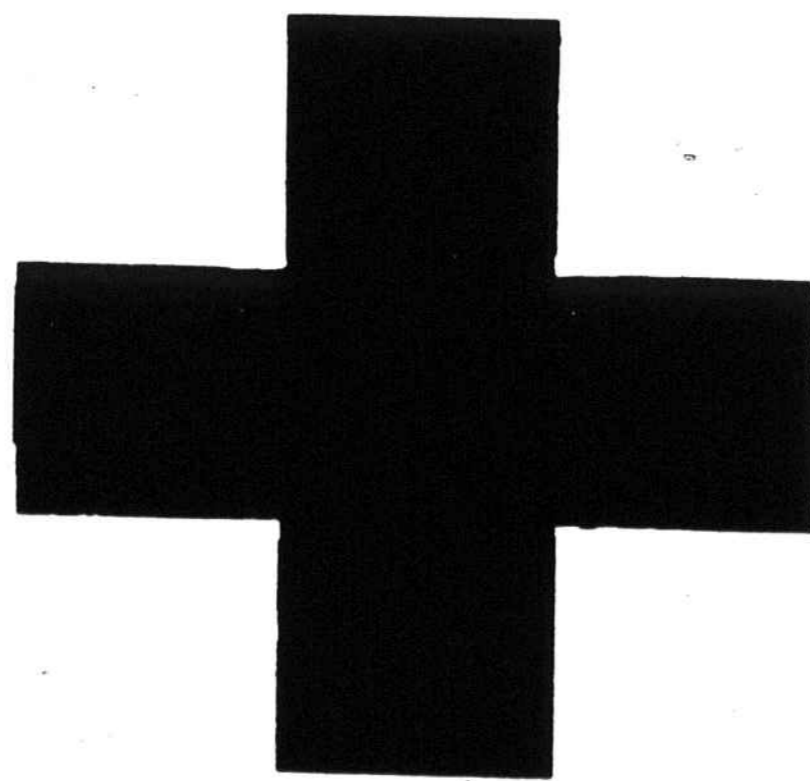

How can you sit by knowing that some boy—maybe yours—is in dire need of the Surgical Bandages YOU failed to make. The work is pleasant.

ALLIED LEADERS SAY:—
"The Hardest Fighting Is Ahead"
 That Means More Wounded Men, and the Greater Demand For Surgical Dressings.

Bandages are so essential to prevent infection, which is the dread on the battlefields—help save their lives with plenty of bandages.

HAVE A HEART!

The women of Jackson County cannot sit by and let our brave men, who are fighting to protect us, bleed and die because of anything we failed on the home-front. Let's prove we're backing them, by making the bandages they need.
