NEW KEYBOARD SPEEDS TYPING

A NEW ARRANGEMENT of the typewriter keyboard (shown above) designed by Lt. Comdr. August Dvorak, Navy motion study expert, increases a typist's speed by approximately 35 percent. The line has been drawn to show the keys to be fingered by the left and right hands.

THIS IS THE CONVENTIONAL KEYBOARD, with a line showing keys used by the left and right hands in touch typing. On the present keyboard, labor is divided 57 percent for the left hand and 43 for the right. The new eyboard divides labor 44 and 56 percent, respectively. (International)

IOOK around town these days. This L button will spot for you a new group of patriotic "fighters"...men and women who are out to cut more pulpwood...for pulpwood makes smokeless powder, and a thousand and one other things needed at the front.

Uncle Sam needs more pulpwood. So it's up to us to find ways and means of cutting more... and more.

It's a tough job but it can be done and everyone in this community can help. We are in the heart of the pulpwood area. This whole community is just like a big war plant and just as important to winning this war as any airplane, auto truck, or munitions plant.

Enlist today for a few extra hours of your time ... HELP THE FARMER WHO HAS SOME TREES TO CUT and if your regular job is cutting pulpwood GIVE 3 EXTRA DAYS at regular pay.

That's all Uncle Sam asks you to do ... to keep some boy at the front from asking, "Where's the ammunition? Who at home has let us down?"

> WOODCUTTERS: Give 3 EXTRA days at regular pay.

FARMERS:

You're busy but a few extra cords of pulpwood from your woodlot will help a lot. This pulpwood shortage is serious, and every cord is needed...

If you haven't pledged your support, do

THE HERALD, SYLVA, N. C. ,

I pledge myself to work at least 3 EXTRA days during the balance of 1943 cutting pulpwood. Please send me the campaign button which this pledge entitles me to wear.
