'HOW ABOUT A BEEFSTEAK?'

THIS RATIONING BUSINESS is getting Larry the lion down—but not in the mouth as this photo shows. He's raising an uproar because his keepers at the Bronx Zoo only feed him unrationed horse meat. Part of the noise may be blamed, too, on the rise in the cost of food. In the Zoo's 1944-45 estimates it was discovered that \$53,000 will be needed to feed the birds and animals, \$13,000 over last year. (International)
