Mrs. Blanche Allison is spending several days with her sister, Mrs. Eugene Allison.

Ashe Stationed With Engineers

Staff Sgt. Zeb C. Ashe is stationed with the 743 Engineers Heavy Shop Company in the Philippines. S. Sgt. Ashe was formerly engaged in the grocery, meat and hardware business in Winston-Salem. He is head of the kitchen with his outfit and has just graduated from mess management school.

Ashe entered the army July 12, 1943, at Fort Jackson, S. C., and trained at Camp Claiborne, La., and has been overseas for 16 months, first taking part in the New Guinea campaign and his awards include the Asiatic-Pacific Ribbon, 3 battle stars, the Philippine liberation ribbon and the good conduct medal.

He is the son of Mrs. Felix M. Ashe and the late Mr. Ashe of Greens Creek.

Mr. Lee Snyder called on Mr. and Mrs. Nute Snyder and family Sunday.

Coach Huff Puts Sylva Football Team Through Scrimmage

Coach Huff of the Sylva School states his boys have begun scrimmage after two weeks getting the team in shape. They have been through a period of thorough work-out and calisthenics. This prepares each boy to meet an opponent they should encounter during the season. The boys are green not having had a coach since 1941, however, they should make a good showing against any other High School in the conference.

Kermit Harris has been appointed manager of the team by Coach Huff.

Captain and co-captain will be elected later.

The Bear Front End Alinement Service For Automobiles

THE ONLY GARAGE EQUIPPED WITH THE BEAR ALIGNMENT SERVICE IN THIS SECTION OF COUNTRY

Are You Driving Sideways?

Mislinement ruins tires. Wheels drag, skid and scuff along instead of rolling straight and true. This side drag on your tires scuffs away precious rubber. Yet if the wheels of your car are out of line, the net result—WASTEFUL TIRE WEAR.

This superb front end machine includes all gauges, tools and parts necessary for checking and correcting to manufacturers' specifications all angles of steering geometry on all automotive vehicles.

With this machine we can render complete, accurate FIVE POINT inspection of chamber, caster, toe-in, king pin angle and turning radius. Correction work is quickly and accurately performed with tested tools. Extra precision gauges provide for checking corrections.

You will be delighted with the increase in tire and gas mileage. Why wait? Come in today for a Bear wheel alinement inspection.
