

Looking Forward With Sylva . . .

A GREAT FUTURE lies ahead for our Country! Many new homes will be established as soon as materials are available. Materials not available as consumer goods since the beginning of the war, will permit vast community improvements of every kind. The educational facilities offered our youth will be brought to the highest pitch of progressiveness and efficiency from nursery age to college age needs. The span of roads leading to and from this community will be better developed, broad and beautiful.

Of course, you will want a new car, a better car; one embodying many new features that you have never enjoyed in your previous automobiles. The new Chevrolet will be just such a car. As in the past, the new Chevrolet will hold an enviable reputation for dependable, low cost transportation.

We are anxiously looking forward to the time when we will be able to serve our patrons more completely, but until that time comes we shall endeavor to give you the very best service possible.

Our Repair and Service departments are complete, and if you want to keep your car or truck on the road "Stop, Look and Listen" is the advice for you to follow. "Stop" fast driving and sudden use of brakes. "Look" for the first sign of wear on vital parts. "Listen" for irregularities in your motor. At our place you will find servicing available to keep your car or truck "in the running"
