

Artificial Breeding Here Shows Increase In Dec.

Jackson County farmers took advantage of the artificial breeding program more during December than in either of the other months the program has been in operation, according to a report by Robert Varner, Technician for the association. Twenty-four cows were bred artificially in December as compared with 17 in October and 14 in November.

Varner requested again that farmers get calls in by noon when possible since he calls by the Farm Agents office and Lewis' Esso station where calls are received around noon.

BROOKLYN 'LIGHTWEIGHT CHAMP' MAKES HIS DEBUT

A SURPRISED MOTHER, Mrs. Theresa McKenna, 20 (left), can't get over the precious lightweight born to her in the Adelphi Hospital, Brooklyn, N. Y. The smallest infant ever born in that hospital, the one-pound, 11-ounce boy (right) is fed in an incubator with the aid of an eye dropper. The champ, his name incidentally is Dennis, is given one dram of a special formula of evaporated milk every hour. (International)

HORSE, MULE CLINICS SET FOR JAN. 22

The tentative date for the annual horse and mule clinics for Jackson county for the week of January 22nd, has been announced by the farm agents office. Workstock will receive a free examination and treatment will be given at a very reasonable fee for internal parasites. Also teeth will be checked and any necessary dental work done.

This service is designed to help farmers get their workstock in condition for heavy spring work.

Any community that has not been receiving this service and would like to have one of these clinics held in that community is requested to let the farm agent know at once in order that arrangements may be made.

The State's average corn yield for 1949 is estimated at 35 bushels per acre, the highest on record. The previous highest yield was 31.5 bushels per acre, made in 1947.
