

CANCER DETECTION CENTER RENDERING VALUABLE SERVICE

Have you been to the Sylva Cancer Detection Center at C. J. Harris hospital for your examination? If you haven't you are missing an opportunity. The center is open every Friday. Registration is from 9 to 10:30 a.m. Examinations are free to all women, 35 or over, and to all men 40 or over, and to anyone with a symptom of "danger signal", regardless of age.

Frequently there are more applicants for examination than can be accommodated. Therefore, in order that those who live at a distance may be sure of an examination and thus not make a trip in vain, priorities will be sent on all requests to all who live 20 miles or more from Sylva. Address your request to C. J. Harris Hospital, Sylva, indicating two dates on which you could come for examination.

It is remarkable the number of early cases of cancer that have been uncovered in this clinic. All within the age limit, or with definite symptoms should make an effort to have their physical examination at the earliest time.

There are two good films on cancer that are available through the State Board of Health for use by clubs or other organizations. "Traitor Within", is an informative film, showing graphically in color the early symptoms of cancer, how the abnormal cancer cells multiply and spread throughout the body if the symptoms are ignored. This is good for high school students as well as adults.

The other film, "Miracle Money", is an exciting Mr. District Attorney story, in which two quack doctors are exposed. Both are 16mm sound films. Anyone desiring to use the films should contact Miss Frances Barr, at the Cancer center, Sylva, or mail at Franklin, N. C.
