

HOW ATOMIC BOMB DELIVERS PUNCH

DIAGRAMS TAKEN FROM GOVERNMENT booklet illustrate what happens to a house when it is subjected to the blast from an atomic bomb. The diagram shows the five successive stages of the explosion (time intervals not given). (1) Dog plays in yard as bomb goes off. (2) Tree and dog are tossed as pressure hits house. (3) Quiet interval as force is spent outward from blast center. (4) Air rushing into blast-created vacuum hurls dog back against battered house. (5) The force is spent. (Central Press)

It Happened HERE AND THERE

Almost more going on than the people can find time to fully discuss—patrolmen being fired, election talk getting heavier, and the milk situation in the county seem to be the only topics of conversation.

Sylva Lions Club Has Ladies' Night

The Sylva Lions club observed Ladies' Night on Wednesday, February 22, at the American Legion Home in City Park, with 123 Lions, Lionesses and guests present for the occasion.

The Home was very attractively decorated with the George Washington motif, and a delicious meal was prepared and served by the members of the Legion auxiliary.

The program consisted of slides and a most interesting talk on conservation of natural resources, given by members of the TVA.

Two new members were received into the club at this time, Glenn Hughes and Ned Morris.

Burnswick County pastures are in excellent condition as a result of the mild winter weather.
