Country Town Field-Days.

(From The Cincinnati Enquirer)

An interesting experiment has been under way for some time in Amenia, a small town of Dutchess county, New York, intended to promote recreation and sociability. It is designated as the Amenia field day, and began last year with a large attendance which this year was much greater. Its conscious purpose is to add enjoyment to country life by means of co-operative games and amusements, to some extent taking the place of the old country fair, which had become commercialized, and given over to vulgar side shows. On the program was printed the following:

1. You have got to make the country as attractive socially as the city if you want to keep the young folks on the farms.
2. There is a good deal of work in the country, but most of our boys and girls have forgotten how to play.
3. Baseball is a splendid game, but it isn't the only one. Every healthy boy should be interested in at least half a dozen others. Don't merely watch others play games; play them yourself!
4. You can't drink strong drink and be an athlete. Get your boys interested in honest, and healthy sports, and save them from drink and dissipation.
5. Contests and competitions are not the main thing. "The strong compete and grow stronger; the weak look on and grow weaker." The main thing is play. Learn the great lesson that play is just as necessary for your son as work.
6. The community should help to run its own recreations. Its festivals should be not only for the people, but of and by the people.

There is a whole lot of good sense in those six statements, and the sooner the country towns everywhere find it out, and act on it the better it will be for them. Others in the neighborhood of Amenia have already learned the lesson, and begun to start field days. It would be a good plan to have one once a month right through the year, varying recreations somewhat according to the season. Our people work too hard, don't have play enough and don't have fun enough when they do play. It is not necessary to exactly copy Amenia, but their plan for a day seems a good one. They had a parade in the morning, with prizes for the best decorated farm wagon, carriage and automobile; then there was a picnic luncheon, and afterward dancing, athletic games and varied entertainment in a large tent, finishing with a baseball game and fireworks. If country young people were to have something of that sort every once in a while they would not be so anxious to go off to the city.

Typhoid Germs.

The outhouses should all be cleaned and purified in order that the people may be protected. While we speak of others perhaps we may be just as guilty ourselves but there are public nuisances that should be stopped.

The closet on the public square is very bad indeed and needs public fiscalization. The water has been cut off from the court house and this leaves these houses in a very bad condition. Public health demands that something be done to avoid disease in the public body.

The proper authorities should be called in that something is done to stop this.

Distributing The Bible.

It is worth while to reflect that when Jesus commissioned his disciples to "Go into all the world and preach the gospel to every creature," he imposed a duty which, to the men and women of that day, with their primitive methods of travel and with no facilities for printing and circulating books, must have been considered well nigh impossible; yet in less than 2,000 years we find the command to be little short of fulfillment and the work is going on with greater activity and with greater success than ever before.

There can be no question that it is to the art of printing the world is indebted for this wonderful accomplishment primarily and to less degree only to the American Bible society, which has undertaken the work of supplying a Bible to every human being on earth. How well this work is being done is made plain by the report of the society showing its operations during the past year.

During the year 1911 the issues of this society at home and abroad totaled 3,602,201 volumes. These issues consisted of 430,098 Bibles, 670,728 Testaments and 2,590,375 portions of the Gospels. Bible House in New York and 1,853,845 volumes by the society's agents abroad, being printed on mission and other presses in Turkey, Syria, Siam, China and Japan. The total issue of the society in the 96 years of its existence amounts to 94,219,105 volumes.

The record for the society for the year 1911 also includes several publications of a character never attempted before. Among these is the Ibrag New Testament printed in dialect for use in the Philippines. The Old Testament has also been brought out in Panayan, another Philippine dialect, and the revision of the Tagalog New Testament is under way. The Pentateuch, in Pampangan, has been completed, and is now ready to be printed and the book of Acts has been added to the other books which have been translated into Kurdish. A revised Bible is being printed in the Japanese language and also in two additional Chinese dialects. A former translation of the Bible into Siamese is being revised and the Zulu version is nearing completion.

During the year for which the report was made, the society employed no less than 1,200 persons to carry on the work of distributing, 825 of whom were employed in foreign countries, the remainder working in the United States. During 1911 646,625 copies of the Bible were distributed in this country alone.

Among all the books which have been printed, the Bible has had no competitor in the matter of distribution. Nearly 2,000 years have passed since the latest period covered by the New Testament, and the old book is more greatly read and more sought after than at any other stage of the world's history.

Indian Killed on Track.

Near Rochelle, Ill., an Indian went to sleep on a railroad track and was killed by the fast express. He paid for his carelessness with his life. Often it is that way when people neglect coughs and colds. Don't risk your life when prompt use of Dr. King's New Discovery will cure them and so prevent a dangerous throat or lung trouble. "It completely cured me, in a short time, of a terrible cough that followed a severe attack of Grip," writes J. R. Watts, Floydada, Tex. "and I regained 15 pounds in weight that I had lost." Quick, safe, reliable and guaranteed - 50c and \$1.00. Trial bottle free at Redman & Roberts Co.

Mens Meeting.

Sunday afternoon at 3 o'clock there will be a meeting at the Presbyterian Church for men. It is desired that every man in town may be present. Rev. Donald Grant who is conducting evangelistic services will speak. Let every man who can come out. This is for you. Don't fail to come.

Miss Emma Gahagan and Miss Wole returned to Marshall after a trip to Big Pine, Walnut and Little Pine.

Miss Mary Emma Hood went to Knoxville Thursday for a short visit with her mother.

Depends on a Man in The End.

The authorities of the Lackawanna railroad, after investigating the cause of the dreadful wreck at Corning, N. Y., last week, lay the whole blame on a "every creature," he imposed a duty which, to the men and women of that day, with their primitive methods of travel and with no facilities for printing and circulating books, must have been considered well nigh impossible; yet in less than 2,000 years we find the command to be little short of fulfillment and the work is going on with greater activity and with greater success than ever before.

Hay fever and asthma make August a month of intense suffering to many people. Foley's Honey and Tar Compound gives prompt ease and relief, and is soothing and healing to the inflamed membranes. Wm. M. Meredith, N. Searport, Me., says: "A few doses of Foley's Honey and Tar Compound relieved me of a severe attack of asthma and less than a bottle caused a complete cure." Refuse substitutes. L. E. Burnett, Mars Hill N. C.

Evangelistic Services

As announced last week Rev. Donald Grant has been conducting services this week at the Presbyterian Church. The audiences have been increasing every evening and the singing has been fine. The sermons both morning and evening have been such as touched the hearts of every one who has heard them. We trust every one who can may hear this servant of God who comes to us so richly endowed to give the message.

The two fine series of meetings already held in the Methodist and Baptist Churches have been wonderful blessings to all and we are sure God has many more whom he would call. May every one seek to hear this messenger and hearing we are sure they will be blessed.

Let every one come out. Services will be continued after Sunday and may the outpouring of the blessing be for every one, converted and unconverted.

Are Ever at War.

There are two things everlastingly at war, joy and piles. But Bucklen's Arnica Salve will banish piles in any form. It soon subdues the itching, irritation inflammation or swelling. It gives comfort, invites joy. Greatest healer of burns, boils, ulcers, cuts, bruises, eczema, scalds, pimples, skin eruptions. Only 25 cts at Redman & Roberts Co.

TOMATO CLUBS.

Miss Ella Rice of Rice Cove secured first prize as a member of the Girls' Tomato Club for the first three ripe tomatoes of this season. Moscal Gentry of Big Laurel secured the second prize. Each girl will receive, besides the small money prize, a Club pin. The wet weather and recent hail storm have injured the Club girls crops but they still hope to do much canning for home use and for market. They have two twenty four quart capacity Ideal. Home canners ready for their work.

Miss Qlie Henriks of Big Laurel, the County Club Leader recently attended a meeting of collaborators from fifteen counties of N. C., held at Raleigh, much interest in the work was shown. State Supt., Joyner was in attendance and made an address, also Pres. Hill of the A. and M. College.

Miss Mary Emma Hood went to Knoxville Thursday for a short visit with her mother.

A Letter From Arkansas.

Herpel Ark., July 30, 1912.— Dear Editor: I will try and tell something about this country I had better introduce myself I am one of Jesse Plemons, daughters I was raised on Spring Creek N. C. near Trust post office my husband and I come to Ark., June 14, 1911. We live on one of Uncle Sams homestead we like here O. K. there is lots of land to take up in Ark., yet but not any close to us except a few 40 and 80 acre tracts. This country makes very good crops if it rains enough, this country is hilly and the land is gravelly.

Water is scarce in these hills some people carry it a quarter to 1-2 mile unless they dig for water, there is lots of caves here that has water in them, I was in one, we went part of the way in a boat.

This is a good place for a woman or man that hasn't any home, as land here isn't as high as it is there.

People has chills here they soon get better with them with the right kind of medicine.

Crops are good but are needing rain.

There are several fish here in the creek and river, we live about 3 quarters of a mile from the creek.

There are three families of Madison County people and several families of other counties of North Carolina here.

At two schools here last year two girls that was brought from North Carolina won, the prizes people or not learned in book knowledge here, as there schools is too short.

There was a boy drowned in White river about 4 miles from here about ten days ago, that makes 6 deaths by being drowned in White river since the 4th. of July.

Cattle has begun to die here, people don't have the good luck the people of Madison County has with cattle, they have the Texas fever.

Stores are unhandy from 8 to 8 miles to a store.

I don't suppose any one ever forgets their old home. Well people all over the world are hunting for that good place and when you get there it is just a little farther on, people here leave and go to Texas, some to Florida and S. C. my advice is when a man has a good home all his own to stay with it. They can leave and go where they please but we have a home or soon will have and we aim to stay with it unless sickness prevents.

Fruit crops are good here this year trees are breaking with fruit. We have a court house and jail here but no one don't stay in jail long, the jail is built out of stone.

Mrs. Van Brown has my heart-felt sympathy over the death of her son so far from her home, I was well acquainted with him he was a good neighbor also his wife I've lived by them.

EVA GREGG.

Flying Men Fall.

victims to stomach, liver and kidney troubles just like other people, with like results in loss of appetite, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that as T. D. Peebles, Henry, Tenn., proved. "Six bottles of Electric Bitters" he writes, "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. Its folly to suffer when this great remedy will help you from the first dose. Try it. Only 50 cents at Redman & Roberts Co.

Electric Bitters

Made A New Man Of Him.
"I was suffering from pain in my stomach, head and back," writes H. T. Abston, Raleigh, N. C., "and my liver and kidneys did not work right, but four bottles of Electric Bitters made me feel like a new man."
PRICE 50 CTS. AT ALL DRUG STORES.

A. S. Jones, of the Lee Pharmacy, Chico, Cal., who has handled Foley & Co.'s medicines for many years, says: "I consider that Foley's Honey and Tar Compound has no equal, and is the best cough medicine I can recommend as containing no narcotics or other harmful properties." The genuine is in a yellow package. L. E. Burnett, Mars Hill, N. C.
